Answer to Last Week's Puzzle

to sow thirty acres on his own farm, and had a large quanity to sell. The largest yields of seed are obtained in land that is not above medium fertility, On rich soils the tendency | . is to produce more stem and leaf . growth, with fewer seed."

In sowing Crimson Clover in the hull, Mr. Blair recommends the use . and surrounding community of thirty pounds of seed per acre, * swn about three weeks before the . of sowing cleaned seed. The unhulled seed are harder to saw evenly, he states, and it takes them

Evvidenc Made by Experts

Prepare When the Moisture Content is 65 per Cent.

Corn Silage Hints

(Prepared by the United States Department of Agriculture.) Corn silage is best prepared when the corn is cut at a stage containing meant about 65 or 76 per cent moisture, say specialists of the United States De-partment of Agriculture. This may be told when the lower leaves on the stalk are turning brown, about 90 ber cent of the kompale are denited and per cent of the kernels are dented, and 75 per cent are so hardened that no CUKED MEAT SHOW

moisture can be squeezed out. The length to which the silnge is cut should be from one-hulf to one inch. Silage cut this short will pack better and the silo will hold Rs maxi-mum tonnage. Also the chances for the sliage to spoil are considerably re-

duced. In filling the silo packing is essential. The common practice is to keep the sides slightly higher than the center and to tramp the whole surface thoroughly.

If the sHage is too dry to pack well, water should be added. This is best done by directing a hose in the blower. Well-packed and moistened siluge is less likely to mold. When the sllo is filled the sliage

should be covered to prevent spollage. A layer of cut corn or sorghum stalks from which the ears or grain have been removed does this effectively,

Early Monopoly

Monopoly in America began in 1623, declares Edward MacMahon, associate professor of history in the University of Washington. A cow was brought to a Pilgrim colony from England, Professor MacMahon said, and allotted to several camilles, in-cluding Capt. Miles Standtsh, a bachclor. Captain Standish soon bought to 25 pounds will be given prefer-control of the cow, share by share, ence while the bacon should be withand he and his relatives enjoyed an abundant supply of milk while neighbors went without, related the historian.

Pest Imported in 1885

The cotton boll weevil was originally Mexican, having been found around Monclova, state of Conhuila, Mex., where as early as 1856 to 1862 It did such damage to cotton that cotton-growing there was abandoned. In 1886, the boll weevil crossed the Texas bor-der into the United States. It en-croached steadily from year to year until, in 1922, it infested practically the entire cotton-growing region of the United States. The only extensive uninfested territory lies in west and northwest Texas.

AT STATE FAIR

Raleigh, N. C., May 11-One new feature of the North Carolina State Fair to be held in Raleigh during the week of October 12 is a ham and bacon show to be put on by Prof. L. H. MaKay of the Animal Industry Division, State College of ·Agriculture.

Prof. McKay has secured the donation of liberal cash prizes for the best hams, shoulders and bacon cured at home and shown at the fair. Under the rules of the show, the entries are limited to North Carolina farm cured meats. Those exhibitors who win premiums will be required to furnish their curing receipt and all information about how the meat was handled uring the curing process and after. To judge the meat, each piece will be cut to determine

its texture and flavor and a small If the exhibitors wish, the meat will be sold in Raleigh or returned to them as desired. Mr. McKay states that hams weighing from 10 to 25 pounds will be given preferout ribs or fatback. The judging will be based on 80 percent for cure and quality of product and 20 per

cent on size and trim. "We are putting on this show,

says Prof. McKay, "because the rats, skippers and other parasites home curing of meat is almost uni- commonly found in meat. If we

versally practiced in North Caro- can get the best meat exhibited at lina. We know, tco, that a large the fair and then learn how this amount of meat is too salty; that there are losses from souring; that lots of the side meat turns rancid in helping others to cure with betand that there is much loss from ter success."

THERE is a new Delco-Light—a Delco-Light that places electricity within the reach of every farm in America. It is lower in price than any Delco-Light Plant has ever been. And it can be bought on terms so easy that no farm family need wait any longer to give its home the wonderful benefits of ejectric`light.

All that electric light means in comfort, convenience, safety and economy is now available to the million farm homes that have always wanted electricity, but have felt that its cost was too great.

Completely Installed at a Small Extra Cost

In addition to this, special arrangements have been made whereby the Delco-Light Dealer in your community will install your plant and wire your house for five lights to be located wher-ever you specify. You will receive with the plant five beautiful spun-brass light-ing fixtures complete with bulbs.

And all of this-plant, installation, wiring, fixtures, everything ready to turn on the lights-will cost you only \$53, in addition to the price of the plant itself.

onger to come up than cleaned seed On the other hand the yoping clover is less apt to be injured by drought, since it takes considerable moisture to penetrate the hull and cause the seed to germinate.

The more you tell the more you sell.

A WONDERFUL DISCOVERY

The remarkable herb "HOBO" . analysed by 'Schwartz' was found to contain besides other principles a variety of acid which he named Gal itannic Acid. He also found it to more legumes in North Carolina is contain a peculiar acid discovered by Schwartz and Rochleder and this may be overcome by saving named Ribichloric acid. This has seed at home. Extension workers of been used in Dropsy congestion of the State College of Agriculture the spleen, Scrofula and Leprosy find that this is easy with Crimson with good results. In recent years clover. Simply let an acre or two this herb has been discovered growget fairly ripe, mow it and put it ing in East Texas and Louisiana in a barn with a tight floor. Feed and further experiment has shown this to cattle during the summer; it that its wonderfully purifying prois not first-class may, but much bet- perties were due to its action on the

An Amazingly Low Price

For months we have been working on the development of this new Delco-Light. Our years of experience as the world's largest manufacturers of farm electric plants have enabled us to design a plant that will give dependable electric light to any home. And our enormous manufacturing facilities enable us to build this plant at the lowest possible cost, and to sell it at a price that makes Delco-Light a real economy.

A Non-Storage Battery Plant-600 Watt Capacity

The new plant is a genuine Delco-Light in every respect-full 600-watt capacity, strong, sturdily built, economical in-operation. It is equipped with a standard Delco starter and an economical starting battery. And its price is only \$195 f. o. b. Dayton - the lowest price and the greatest value ever offered in a Delco-Light electric plant.

2. A

A Small Down Payment-**Balance on Easy Terms**

Finally, we have arranged that this new low cost for Delco-Light, completely installed, can be paid on terms so easy that anyone can take advantage of them. The total cost is only \$248, including freight (a little more west of the Missis-sippi). But you make only a small down payment. The balance is payable. on easy terms, arranged to suit your convenience.

Ask for Details

Never before has such an offer been made. Never before has Delco-Light cost so little and been so easy to buy. It means that any farm home-your home -can have Delco-Light today. -At the bottom of this advertisement appear the name and address of the Delco-Light Dealer for your community. Call, write, or telephone for full information-specifications of the plant, illustrations of the fixtures that come with it, details of our complete installation and wiring plan, and the figures that show how easily you can now get Delco-Light.
