A NECESSITY

We do not believe there will be a man, woman or child in this good County who will suffer for bread until another crop is raised. True, some of you may have to ask the bank, the merchant or the fertilizer dealer to carry you over before paying all of your indebtedness, but you will buckle down like a man and make good. But, we do believe the time has come when we should ALL cut down on luxuries, live close to the shore and put forth our very best endeavor. And this applies just as truly to the officials who have the spending of our tax money as it does to the individual, but we do insist that there are certain things which cost money, additional money, which are not luxuries and one of these is a County Demonstration Agent.

We are not clamoring for a man to come here and teach you how to raise tobacco—you know too much about this already and raise entirely too much of it, but we do want a man to come here and help you dispose of the surplus you raise on your farm. We believe, we are almost persuaded to say, we know, the average farm in this County allows enough to go to waste every year to almost support, feed, the family on that farm. And that is what we want a demonstration agent for.

Every farmer in this County knows there is not a market sufficiently elastic in Roxboro to take all produce brought in. Just now we expect a car load of salad, turnips, etc. could be secured here if there was a market for it. Of course, the merchants will buy it, that is the first few baskets brought in, but a few baskets will glut the market and the farmer coming in late will find no market. Same thing is true as to butter, eggs, hams, or what not. If you are fortunate enough to find a market here you will get the very highest market price, but the trouble is, our market is so limited. A County Agent, working in conjunction with the State Marketing Division, would find a market for just such produce, and he would be the cause of many thousands of dollars coming in for stuff which is allowed to go to waste today.

This is a matter in which every farmer is interested, and unless you make it plain to our worthy Board of County Commissioners that you desire such an agent, they are not going to appropriate the money necessary to secure such an agent. We do not say this in criticism of our Board of Commissioners, for we know they have twisted and turned in every direction to keep from increasing taxes, but there is some way whereby the small sum needed, one thousand dollars, could be had and we know if you will lay the matter before them in the right light, and let them know you want it, it will be granted.

Will you do it?
 From every indication it looks like the Democratic party is doing its utmost to give Mr. Coolidge another four year term in Washington. Governor Al Smith is hobnobbing with the leaders in Chicago, which means he is launching his campaign for the nomination in 1928. If the Democratic party has nothing better to offer than Al Smith or Willie McAdoo they had just as well get out of business.

Roxboro needs a Chamber of Commerce. Who will take the lead in securing this need?

Yes, and Person County needs, and must have, a County Demonstration Agent. Messrs. Commissioners, won't you make it possible for us to have such an agent?

Like a bull dog, when we take hold we never turn lose, and we do not intend to let up until Person County is placed in the ranks of the progressive counties with a County Demonstration Agent. If you want to choke us off, give us this agent.

Now that Mr. Cameron Morrison has settled the deficit to the satisfaction of at least himself and the Charlotte Observer let's let it rest and talk about something more pleasant, for instance last Saturday's foot ball game, when our Baptist folks cleaned up the University.

W. B. COLE INDICTED FOR MURDER

Jury in the Cole Trial Are to Come From Union County

Richmond County Courthouse, Rockingham, N. C., Sept. 29.—A special venire from Union county will produce the jury in whose hands will rest the fate of W. B. Cole, cotton mill owner of Rockingham, charged with the murder of W. W. Ormond, formerly a friend of the family and at one time a suitor for his daughter's hand.

Judge T. B. Finley, presiding over a special term of Richmond superior court, today directed that 200 veniremen from Union county be summoned to report here Wednesday at 10 o'clock. The order was issued after defense counsel agreed to a motion of Solicitor F. Don Phillips that a jury be formed from another county.

Union county is separated from Richmond by Anson, Monroe, the county seat, is approximately 50 miles due west of Rockingham.

Two members of the grand jury that indicted Cole after deliberating forty five minutes were excused. They were J. B. Gibson, Hamlet, and W. H. Entwistle, Rockingham. The latter is related to the defendant.

Cole, who has been in jail since last August 15 when he shot and killed Ormond on one of the city's principal streets, pleaded not guilty when arraigned on the charge of the indictment. He had entered the room while the grand jury was in session. When, as provided in the procedure in this state, Cole was requested by Solicitor Phillips to stand for arraignment, he did so alertly and answered the solicitor's questions in firm voice.

The form of his answers was whispered to him by a defense attorney and to the last question "How will you be tried?" Cole answered steadily, with a lift of his chin: "By God and my country."
 "May God send you a true deliverance," firmly replied the solicitor.

PERCENTAGE OF STATE TEACHERS

Nearly Four-fifths of White Teachers in State School Not College Graduates

Raleigh, N. C., Sept. 28.—Almost four-fifths of North Carolina's teachers in the white public schools of the state last year were NOT college graduates.

This is shown by figures compiled and published in the current issue of State School Facts, a publication of the North Carolina Department of Education. The exact percentage, as shown by the figures quoted by the education periodical, was 89.3 non-graduates of colleges; 20.7 per cent college graduates.

The state last year employed a total of 16,984 white teachers in its 3,512 were college graduates. More college graduates are secured by the city school than by the rural public schools, it is shown. In the city schools, 44.26 per cent of the white teachers were graduates from colleges, while the percentage in the rural schools was only 12.97—the city school per cent of college graduate teachers being almost four times that of the school in the country.

regard to the negro teachers, with an even larger percentage preponderance in favor of city schools, in the negro institutions. The per cent of colored teachers who are college graduates is 3.3. In the country schools, the percentage is only 1.38, as compared with 9.54 in negro city schools.

Fair time is here, pick out your best products and enter them for the premiums, advise extension workers of State College.

Tarheel farmers will secure their best seed corn by selecting ears in the field from good plants after the corn is mature, say agronomy workers of State College.

Members of the Scotland Neck Poultry Association in Halifax County ordered 20 tons of chicken feed cooperatively at a saving of \$6. compared to local prices.

WANT ADS

Want to buy something? Just a few words in our want column will find some one who is wanting to sell just what you are wanting. Try it.
