PAN-A-CE-A

takes care of the little-chick ailments

INDIGESTION — Diarrhea — Leg Weakness — Gapes,

It will pay you to look well to the digestion of your flock right from the start.

Indigestion is responsible for most of the bowel troubles.

Add Dr. Hess Poultry Pan-a-ce-a to the ration daily.

Pan-a-ce-a contains Nux Vomica; that promotes digestion—calls into healthy action every little chick's organ.

Pan-a-ce-a contains Quassia, which creates a healthy appetite.

Pan-a-ce-a contains Iron to enrich the blood, essential to little chick growth.

Pan-a-ce-a regulates the bowels—keeps the chick's system free from poisonous waste materials.

No indigestion, no diarrhea, no leg weakness, no gapes, where Pan-a-ce-a is used.

MRS. GARRETT CELEBRATES SIXTIETH BIRTHDAY

Mrs. Charles H. Garrett was given a surprise dinner yesterday evening at her home a few miles from Roxboro, in honor of her 60th birthday. The children of Mrs. Garrett were responsible for one of the most enjoyable and elaborate receptions given in some time in the county.

About 250 people gathered around a long table, which was built specially for the occasion, and everyone that attended the affair brought with them some contribution to the dinner. Mrs. Garrett had no idea that she would be visited by 250 people and was going about her usual duties of preparing a dinner, when relatives and friends began to arrive from all over the county and other places.

The children of the honored mother who were responsible for the dinner are as follows: S. J. Garrett, H. H. Garrett, C. C. Garrett, Mrs. A. E. Crews, Malcus Garrett, Miss Sue Garrett, all of Roxboro; N. B. Garrett, of Timberlake; Mrs. P. T. Monday, of Wooddale; Mrs. H. M. Packett, of Oxford; and James Garrett of Durham.

Cotton and tobacco will likely bring low prices this fall; if provision for food and feed crops is not made this year, there will be hardship on some farms this winter.
