

Asheville Lady Threatened With Nervous Breakdown

Amazing Improvement in Mrs. Fisher's Health Surprises Friends. Nervous Indigestion, Loss of Energy and Strength Corrected

"Six years ago nervous indigestion threatened me with a complete breakdown," says Mrs. B. C. Fisher, 726 Haywood Road, Asheville, N. C., whose recovery from a long siege of suffering surprised even her closest friends.

If you never feel well and just drag through the days, tired and fagged-out, if your stomach rebels at taking food and you spend miserable hours doubled up with pain caused by indigestion; if you do not sleep soundly and dizzy spells attack you when you stoop over; if you are losing weight and feel old - watch out!

Mrs. Fisher says: "Suffering from indigestion, being unable to sleep and getting up in the morning tired, sapped my strength. Everything I ate caused gas to form and terrible nervous headaches followed every meal."

"I sought relief. Everything I took failed to help me. Then after reading about the powers of Tanlac I tried this tonic. The first bottle gave me an appetite, indigestion disappeared. I began to sleep well and arose in the morning refreshed. Soon my nerves calmed down and headaches vanished. I took one weight. Tanlac brought me relief, restored my health. I will never be without this tonic."

Mrs. Fisher is only one of thousands who have found happy relief from pain and gained new strength taking this tonic made from roots, herbs and herbs according to the famous Tanlac formula. It usually builds up the body, drives away poisons and suffering. Heed their advice. Keep well, keep youth and health - Take Tanlac.

be willing to pay a percentage of the harvest as a tax and they be relieved of the annual burden when no income comes from the land. Such a system would encourage the growing of timber on thousands of acres and stop the present system of destroying the trees and denuding hundreds of thousands of acres."

Too Much "Acid?"

Excess Uric Acid Gives Rise to Many Unpleasant Troubles.

AUTHORITIES agree that an excess of uric acid is primarily due to faulty kidney action. Retention of this toxic material often makes its presence felt by sore, painful joints, a tired, languid feeling and, sometimes, toxic backache and headache. That the kidneys are not functioning right is often shown by scanty or burning passage of secretions. Thousands assist their kidneys at such times by the use of Doan's Pills—a stimulant diuretic. Doan's are recommended by many local people. Ask your neighbor!

Why Tax Timber Asks One Farmer

Raleigh, N. C., March 2.—"Why preach the preservation of the farm forests and the proper handling of the timber crop to secure continued cuttings through the years and then permit forested lands to be taxed at such a rate that no man can afford to keep land in timber?" asks one farmer in a recent letter to R. W. Graeber, extension forester at State College.

Mr. Graeber states that such questions as these are being fired at him from every corner of the State.

Owners of timber land consider the present tax a tax on their land and that no man can afford to keep his land in timber if they are to be continued. They believe in it, but they tell Mr. Graeber that the Government, either State or Federal, should share in the burden of preserving the forests. When timber is on the land, there is a large financial income from it and no man can afford to

keep his land in timber. Mr. Graeber states that growing timber is not a taxable asset. No provision is made for taxing any other growing crop. In fact, no crop is taxed until it reaches the commercial market as corn in the crop market in the fall.

"Timber is a crop, the same as corn," says Mr. Graeber. "It takes from 40 to 50 years to grow a merchantable crop of trees and because the growing timber is taxed each year during this time, thousands of farmers are forced to harvest the crop prematurely. The sentiment among farmers is that they would

Fat Broilers In Eight Weeks!
Just suppose you started with 500 chicks, costing about 20c a piece or \$100.00. Your feed bill for eight weeks would be around \$18.00—total cost \$118.00.
Let us say 200 of the chicks are cockerels. Tuxedo-fed for eight weeks, they're now market broilers worth at least 80c each or \$160.00! Eight weeks from the start and you clear a profit of \$22.00 and still have 300 pullets that cost you nothing! Sure there's money in poultry if you feed Tuxedo after chicks are 48 hours old and stick to it all the way. If you haven't tried Tuxedo yet, start today. We recommend Tuxedo Feeds.
