

Bean Beetle Advances To Cover The State

Raleigh, N. C., May 15.—At the close of 1926, the Mexican Beetle had advanced eastward in North Carolina to a position along the main line of the Southern Railway in piedmont North Carolina.

This year, the beetle is expected to spread through Caswell, Alamance, Randolph, Chatham, Montgomery, Moore, Anson and Union counties. The bean beetle first entered North Carolina in 1921 when it invaded parts of Cherokee and Clay counties in the western limits of the State. Since that time it has gradually spread eastward and will in time cover the entire State. Like many other destructive pests this one came from Mexico and for 75 years has been a serious insect pest of beans in the southwest. The bean crop of this state has been severely damaged and growers may continue to expect severe infestation.

According to C. H. Brannon, extension entomologist at State College, growers are urged to familiarize themselves with the appearance and habits of the bean beetle and to study the latest control methods. Under favorable conditions the beetle will increase at an enormous rate and will totally destroy a crop of beans unless special measures are used.

The bean beetle looks like an enlarged lady bug. It is light yellow in color just after emerging but soon turns to a copper color. There are eight black spots on each wing cover and sixteen black spots on the back of the beetle. The eggs are orange colored and are laid on the under surface of the leaves in masses of from 30 to 60 eggs hatch in from one to fourteen days depending on the temperature.

Mr. Brannon states that bean plants are very sensitive and are easily injured by sprays or dusts that are too caustic. Manganese arsenate, calcium arsenate or calcium fluosilicate are the three materials that may be used successfully in control of the pest without injuring the bean vines. Exact methods of using these materials are given in Extension Folder 25 issued by the extension service of State College and copies may be had free of charge on application.

Records kept in his feeding demonstrations are teaching some men the value of keeping farm accounts.

Picking Potato Bugs A Hopeless Task

Raleigh, N. C., May 15.—Two pounds of arsenate of lead added to the regular Bordeaux spray mixture will control potato bugs effectively. Those who have calcium arsenate and a cotton duster may use these effectively but the man who depends on picking the bugs to save his potatoes has a hopeless task.

"The Colorado Potato Beetle is a serious pest of potatoes," says C. H. Brannon, extension entomologist at State College. "The plants are first attacked by the over-wintered beetles and later by the first generation of slugs. If the pest is not poisoned, the plants are soon ruined, leaving the stems which become dry and black. No grower should permit the bugs to damage his crop. Control measure are simple and effective. The best remedy is to use two pounds of arsenate of lead with the Bordeaux mixture made with four pounds of bluestone, four pounds of stone lime and 50 gallons of water."

Mr. Brannon states that the arsenate of lead will poison the bugs while the Bordeaux will repel flea beetles and leaf hoppers. Hoppers have been unusually abundant this season. Paris green will not give as good results as arsenate of lead as a poison for the beetles. Several applications of poison will have to be made and the fields should be watched closely to see that the beetles are kept under control.

ADVERTISE IN THE COURIER

Bilious dull feeling

"My old stand-by is Thedford's Black-Draught—I have used it off and on for about 20 years," says Mr. W. S. Reynolds, of R. F. D. 2, Arcadia, La.

"I get bilious and have a bad taste in my mouth. My head feels dull. I don't just feel like getting around and doing my work. I know it isn't laziness, but biliousness."

"So I take a few doses of Black-Draught and when it acts well, I get up feeling like new—full of pep and ready for any kind of work."

"I can certainly recommend it." In case of biliousness and other disagreeable conditions due to an inactive liver, Black-Draught helps to drive the poisonous impurities out of the system and tends to leave the organs in a state of normal, healthy activity. Black-Draught is made entirely of pure medicinal roots and herbs and contains no dangerous or harmful mineral drugs. It can be safely taken by everyone. Sold everywhere. Price 25c.

Notice Land Sale

Under and by virtue of that deed of trust executed on October 30th, 1919, by James Smith and wife Lilly B. Smith to the undersigned, default having been made in the payment of the bond secured thereby, and upon request of the owner thereof, I will on Saturday, June 4th, 1927, at 12 o'clock Noon at the court house door in Roxboro, North Carolina, sell to the highest bidder at public auction the following described tract of land to-wit:

Lying in Holloway's Township, said County, and being tract No. 41 as shown on the map of the subdivision of the home tract of the estate of Maj. J. T. Yancey as surveyed by C. A. Whitefield in March, 1919, containing 59 acres more or less, said plat being recorded in the Register's office of Person County. See also deed from W. T. Yancey to James Smith and wife Lilly B. Smith in said Register's office.

This May 4th, 1927.
E. B. HOWARD, Trustee.

\$30,000
in cash prizes

Watch for Coca-Cola Advertising

For the benefit of our customers in this city and section, we are calling special attention to the \$30,000 Cash Prize Coca-Cola Contest—

Appearing between the first week in May and the middle of August in Coca-Cola advertising in The Saturday-Evening Post, Literary Digest, Liberty, Collier's Weekly, and Life, and in posters, outdoor signs, in the show windows and at the stores and stands of

the many thousands of places that serve Coca-Cola.

This advertising illustrates and presents "six keys to the popularity of Coca-Cola."

Find the "keys" and answer two simple questions. To the winners will be awarded 635 cash prizes totaling \$30,000 (including a first prize of \$10,000) by The Coca-Cola Co., Atlanta, Ga.

Visit our plant and we'll be glad to show you how to get started in this contest.

LOW RATES for time payments on these cars

ANY FAMILY entitled to credit may buy a General Motors car and pay for it while using it, under the GMAC Plan.

When time payments first became an accepted form of car purchase, General Motors organized its own finance company, the General Motors Acceptance Corporation, to make sure that the sale of its cars on time would be in the buyer's interest and that the finance charges would be fair.

GMAC rates have always been low; and the last reduction has saved General Motors' customers more than \$12,000,000.

The General Motors line includes "a car for every purse and purpose"—a suitable model for every income. You can buy it out of income, paying no more than the cash delivered price, plus only the low GMAC financing charge. And the whole transaction is so conducted as to keep your goodwill and satisfaction.

CLIP THE COUPON

USE THE GMAC PLAN to enjoy a new car now. Use it to get a better car for what you plan to spend. Have General Motors quality. Share in the economies of volume production. Look over the list of General Motors cars below. See which car suits your purse. Then check and mail the coupon. We will send you full information about that car and about the fair, low-cost GMAC Plan of paying for it out of income. Don't wait. Clip the coupon and mail it TODAY.

GENERAL MOTORS

CLIP THE COUPON

General Motors (Dept. A), Detroit, Mich.
PLEASE send, without any obligation to me, illustrated literature about the General Motors product I have marked below together with the name of the nearest dealer in case I may wish a demonstration. ALSO SEND YOUR PROVING GROUND BOOK.

Name.....

Address.....

CHEVROLET 7 models—\$525 to \$745

The quality car of the low-priced field. 3-speed transmission. Strong rear axle. Smooth dry-disc clutch. Over-head valve engine. Fisher Bodies. Duco finish. Fully equipped. CHEVROLET TRUCK CHASSIS: 1/2-ton, \$395; 1-ton, \$495.

PONTIAC 5 models—\$775 to \$975

A low-priced "six" which is a quality product in appearance and construction. Value proved by unprecedented sale. Has largest 6-cylinder engine in its price class. Beautiful lines. Fisher Bodies. Duco finish. All conveniences.

OLDSMOBILE 11 models—\$875 to \$1190

A fine car at moderate cost. Gratifies your finer taste; satisfies every need. Beautiful Fisher Bodies. Duco finish. Powerful 6-cylinder engine. Harmonic balancer and other new improvements. 4-wheel brakes. And a wide choice of models.

OAKLAND 7 models—\$1095 to \$1295

Winning and holding goodwill everywhere because of its superior performance. Fisher Bodies. Duco finish. Rubber silenced chassis, 4-wheel brakes. A "six" whose quality is doubly assured as a product of General Motors.

BUICK 18 models—\$1195 to \$1995

Everybody knows Buick's worth. General Motors emphasizes Buick's statement that its new models represent "The Greatest Buick Ever Built." Vibrationless beyond belief. 6-cylinder valve-in-head engine. Fisher Bodies. Duco finish.

LASALLE 6 models—\$2495 to \$2685

General Motors' latest contribution to the fine car field. New and beautiful car designed and built by Cadillac as a companion car to Cadillac. Has V-type 8-cylinder engine. Fisher Bodies. Duco finish. Now on display.

CADILLAC 50 body styles and types—\$2995 to \$9000

The pioneer in the 8-cylinder field. Standard of the world. Improved V-type 90-degree engine. Marvelous bodies by Fisher and Fleetwood. Duco finish. Choice of 500 different color and upholstery combinations to emphasize individuality.

[ALL PRICES F. O. B. FACTORY]

ALSO—
 FRIGIDAIRE electric refrigerators. The largest selling electric refrigerator in the world. Built by General Motors. Many models.
 DELCO-LIGHT electric plants. Another General Motors product. Brings you all the conveniences and labor-saving devices of electricity.
