

**In Loving Memory**

On Thursday morning the 10th of November, 1927, the death Angel visited the home of Mr. and Mrs. C. B. Slaughter, and claimed their little daughter, Louise. Louise was born July 8, 1926, making her stay on earth 1 year, 4 months and 2 days. She leaves three sisters, three brothers and a sad hearted father and mother behind. Weep not for the little heart who is gone before, dear mother, for she was too good to stay on earth. Her life was a flower, budded in the morning and in the evening withered and died. She budded on earth to bloom in Heaven. We can not say and will not say That she is dead—she is just away! With a cheery smile and a wave of the hand,

She has wandered into unknown land, And left us dreaming how very fair It must be, since she lives there. Think of her still as the same, we say She is not dead, she is just away. —Written by one who loved her.

Each day brings reports of increased yields brought about by plowing under legume crops. Limestone and legumes will improve most farm lands of North Carolina.

**THINK! HAVE MONEY!**

In this week's issue of our paper The Peoples Bank is starting a Thrift Campaign in our community. They have chosen for their trade mark a squirrel. For their slogan they will use the words: THINK, HAVE MONEY. This trade mark and slogan are well chosen.

Our country is afflicted by extravagance and wild-cat speculation. We will all be better off if we cut off extravagance and cut out biting at get-rich-quick schemes. We trust and feel that The People Bank will have the cooperation of our entire community in this campaign of thrift and in keeping our money at home to sustain and develop our Home Industries. Our paper is with this movement good and strong.

Some of the best yields of tobacco recorded during this past year were secured where delomitic limestone

was used on the land along with good fertilizer, cultivation and varieties.

The better-than-average cottons more than paid their way this year. The Mexican Big Boll variety is one of the best for conditions in this state.

**We Are Grateful**

Yes, we are all grateful for the many mercies which have been shown the good people of this County. God has given us wonderful crops, and along with many other blessings, we should render unto Him thanks for His loving kindness. While other sections have been visited by storms, tornadoes and floods, Person County has been free from all such, and for which all are supremely happy.

Not the least of our thankfulness comes from the fact that the farmers of Person and adjoining counties have such faith in us, as shown by your liberal patronage. We would, indeed, be ungrateful if we did not express our pleasure at such treatment. May prosperity continue your way, and if we can add our mite to it, remember, we are here to serve you.

Your Friends,

J. J. WINSTEAD,
