

Social

The annual meeting of farmers at The Oxford Tobacco Experiment Station will be held August 1st, during which time a splendid program will be given in the forenoon and inspection of tobacco experiments involving fertilizers, limestone, and crop rotations for tobacco will be the order for the afternoon.

At least one hundred farmers should make this trip to see the different experiments being carried on. Make your plans to attend this important gathering of farmers on a subject that is of great interest to all in the tobacco belt.

Wednesday afternoon Miss Anna Wooding Winstead charmingly entertained at a lovely bridge party, at her home on North Main street, honoring Miss Dorothy Hammond, of Louisville, who is a guest of Miss Mildred Richmond, and who was a camp mate of the hostess at Camp Cheonda, Lake Junaluska.

The living room was attractively arranged, with lovely summer flowers of varied colors. Three tables were placed for bridge and the guests enjoyed many spirited games two hours which followed. High score for the afternoon was made by Miss Mary Marshall Dunlap.

The hostess, assisted by Misses Sue Hester and Ellen Bradsher, served a delicious salad course with lead tea.

One of the outstanding events of the past week in the social circle took place at the home of Mr. and Mrs. J. W. Montague on South Main street Thursday night when Misses Maude, Mable and Musette Montague were hostesses at a shower in honor of Mrs. J. J. Woody whose marriage to James Jennings Woody took place at Hendersonville, July 6.

The large number of guests attending the affair were cordially greeted by the hostesses and presented to the honor guest. A musical program which was greatly enjoyed was rendered.

Later in the evening a unique program began. The bride's book was passed around and each one was requested to write some words of advice. This afforded much merriment and was thoroughly enjoyed.

Following this the bride was given a card attached to a white ribbon and told to follow the direction in which the ribbon led. She took many turns before reaching the end of her journey and at this point there was a lovely corsage artistically placed on top of a mound of gifts in the center of a table. A large and lovely assortment of linen was received by the bride and she expressed appreciation as the presents were opened.

Refreshments were served the guests which consisted of a delicious ice course. Favors of dainty pink baskets filled with nuts, which carried with them the color scheme of the evening were also given the guests.

Mrs. L. C. Clark and Mrs. Charlie Harris entertained in honor of Mrs. Boothe of Danville and Mrs. Armstrong of Salisbury at a delightful bridge party Thursday evening at the home of their mother, Mrs. J. S. Harvey. The living room was very attractive with bright summer flowers arranged in lovely manner. Bridge was played at five tables and many spirited progressions played. The honor guests were given beautiful gifts and high score was won by Mrs. W. G. Bradsher, a candy jar. A delicious ice course with mints was served.

THIS WEEK

By Arthur Brisbane

BIRTHDAYS.
ROCKEFELLER'S SERVICE.
WIVES AND PROHIBITION.
NEW SIZE MONEY.

Which birthdays in human life are most important?

The first starts life going.

The twenty-first begins work and responsibility.

The fiftieth means that old age has started.

The seventieth that active life is over.

Eighty means old age, although it should not. And ninety is reached by few.

John D. Rockefeller has celebrated his ninetieth birthday.

Those that appreciate a life and a great fortune well spent will wish for him many more years, taking him far beyond 100.

Mr. Rockefeller, employing able scientists to fight disease, with unlimited resources at their disposal, has rendered service to the human race for centuries to come.

He has given hundreds of millions to education and scientific research. No man in history has given as liberally or more intelligently.

Mrs. Sabin, wife of a well-known banker, will investigate prohibition among wives of working men throughout the nation.

This "survey" will ask the their opinion of prohibition.

Those whose husbands used to drink whiskey and can't afford it now will say they favor prohibition.

If their husbands still drink whiskey, paying bootleggers' prices, they will be against prohibition.

Wives whose husbands used to drink beer or light wine and drink

whiskey now, because they can't get beer or wine, will be against prohibition.

Left to a popular vote, prohibition would win in the nation at large, and lose in the big cities.

This week you will get the new small money, bills much smaller than the old size.

The Government will save many millions in paper and ink.

Some citizens will feel that a small dollar isn't quite so good as a big dollar.

When the calendar was corrected and the date pushed several days ahead, there was rioting by those who thought their lives had been made shorter by the same number of days. We have progressed beyond that stage.

Is Livestock The Farm Problem Solution?

When many leading (successful) farmers were asked for their ideas of farm relief, the majority said that only through livestock as an important part will any relief be probable for the next few years. If this proves true, our cotton and tobacco counties may have hard sledding.

The Department of Agriculture has recently issued county figures on all crops and types of livestock. These show that cattle predominate in the central and western counties; hogs in eastern (Coastal Belt) counties; sheep in northwestern mountains; mules in the cotton belt and goats in the water-front Coastal counties.

For Person County there were last year 1452 horses; 2657 mules; 2592 dairy cattle; 3437 all cattle; 5670 hogs; 127 sheep and 49 goats. The State value per head 1929 is horses \$36.00; mules \$124.00; milk cattle \$64.00; all cattle \$43.30; sheep \$9.00 and hogs \$12.40.

North Carolina's National ranks in livestock values show 29th in horses; 3rd in mules; 35th for all cattle and 24th in milk cattle; swine 12th and sheep 33rd. Our rank in crops is 8th; in livestock 26th, while for both combined we are 16th.

Livestock offers proportionately better opportunities than do cash crops. Livestock show relative farm prices to be much higher than crops. Poultry, veal calves, lambs and wool are more than twice the pre-war trend. Butter shows to be (154%) a good product. The purchasing power of livestock products is better than before the war, while crops will buy only about 75 per cent as much as formerly.

Each In His Own Tongue.

Customer—"You may bring me some hash."

Waiter to Kitchen—"Review of Reviews for one."

Second Customer—"You may bring me hash, too."

Waiter to Kitchen—"Another gentleman will take a chance."

Third Customer—"Make mine the same."

Waiter to Kitchen—"Adam and Eve on a raft!"

Customer—"Will you kindly change that to scrambled eggs?"

Waiter—"Shipwreck Adam and Eve!"

Government authorities tell us that thirty different diseases are transmitted by flies. Any one of these often proves fatal. Flies must be killed. Use FLY-TOX the scientific product developed at Mellon Institute of Industrial Research by Rex Fellowship. It is harmless to mankind but death to all household insects. Just follow instructions on blue label of bottle. INSIST on FLY-TOX with the perfume-like fragrance.—Adv.

There's peace in the household guarded by Castoria. Peaceful sleep for Baby. Uninterrupted rest for Mother. For a few drops of pure Castoria will quiet any fretful infant. Or put the little one back to sleep when there's an upset during the night.

Parents, don't try to do without good old Castoria! It isn't fair to the baby, and it makes things hard for you. You can't give Baby medicine meant for grown-ups—or shouldn't! Castoria is the solution. It is always safe. It always does the work. And although it acts as swiftly as all opiates or a narcotic, it contains neither. Castoria is purely vegetable. Give it whenever there's constipation, colic, diarrhea.

No less than five million modern mothers have come to depend on Castoria, for twenty-five million bottles were bought last year! Get yours today; don't wait for some night when it's needed, and the drugstore is closed!

W. W. Dick of Guilford County has purchased a combine harvester and threshing machine. He harvested his oats and wheat this spring with a combine and will use it this fall in his soybean crop.

Scotland County farmers are having a hard time finding seed with which to plant their stubble lands.

RESOLUTION BY THE BOARD OF COMMISSIONERS OF ROXBORO AUTHORIZING THE CONSTRUCTION OF CURBS AND GUTTERS ON LAMAR STREET, AND FOR OTHER IMPROVEMENT ON SAID STREET.

Whereas, a petition has been filed by a number of owners of land abutting immediately on Lamar Street in the town of Roxboro requesting that curbs and gutters of concrete or other approved material be constructed on both sides of said street, beginning at its intersection with Reams Avenue to its intersection with the Roxboro-Bushy Fork road, formerly a part of state road No. 144, it being stipulated in said petition that the expense of said curbs and gutters, other than the expense incurred at intersections, be assessed upon the lots or parcels of land abutting directly thereon; and whereas, the clerk of this board reports that he has made due investigation of the sufficiency of such petition, and certifies that the total number of owners of land abutting directly on the street therein described is thirty-eight, and that the total number of feet of frontage abutting directly on said street six thousand nine hundred and seventy-two and nine-tenths lineal feet, and that said petition is signed by twenty-five of said owners, they being the owners of a total frontage of four thousand three hundred and ninety-three and seven-tenths lineal feet:

Be it now, therefore, resolved by the Board of Commissioners of Roxboro:

Section 1. That it is found and determined (a) that said petition is signed by a majority in number of property owners abutting directly on said street, and (b) that said signers represent a majority of all lineal feet of frontage of land abutting thereon.

Section 2. That curbs and gutters of concrete shall be forthwith constructed on both sides of said street, and the total cost of same, exclusive of the cost and expense incurred at intersections and for grading and engineering, shall be assessed upon the lots or parcels of land abutting directly on said street, according to the extent of their respective frontage thereon, by an equal rate per foot of such frontage, as provided by law.

Section 3. That it is found and determined that the cost of grading and engineering will amount to less than one-half of the total cost, exclusive of the cost incurred at intersections.

Section 4. That the roadway of said street shall be surfaced with gravel and oil or tarvia, or such other material as may be hereafter determined upon, provided, however, that

assessments for curb and gutter improvement shall in no way be dependent upon the provisions of this section.

Section 5. That a copy of these resolutions be published in the Roxboro Courier.

Adopted at regular meeting held July 2, 1929.

G. J. Cushwa, Clerk.

RESOLUTION BY THE BOARD OF COMMISSIONERS OF ROXBORO AUTHORIZING THE CONSTRUCTION OF CURBS AND GUTTERS ON A SECTION OF FOUSHEE STREET, AND FOR OTHER IMPROVEMENT ON SAID STREET.

Whereas, a petition has been filed by a number of owners of land abutting immediately on Foushee Street in the town of Roxboro requesting that curbs and gutters of concrete or other approved material be constructed on both sides of said street, beginning at its intersection with Academy Street and extending north 200 feet to the corner of lot owned by Mrs. J. D. Morris, it being stipulated in said petition that the expense of said curbs and gutters, other than the expense incurred at intersection, be assessed upon the lots or parcels of land abutting directly thereon; and whereas, the clerk of this board reports that he has made due investigation of the sufficiency of such petition, and certifies that the total number of owners of land abutting directly on the street therein described is two, and that the total number of feet of frontage abutting directly on said street is four hundred, and that said petition is signed by both of said owners, they being the owners of a total frontage of four hundred feet:

Be it now, therefore, resolved by the Board of Commissioners of Rox-
