Parents And Teachers Of The Person County Training School, Organize

The parents and teachers have made one step towards progress through the organization of these two groups into a Parent-Teachers Association. The P. T. A. has piloted many schools of this and other counties to positive success. What has been done for other schools can be done for our school.
Every parent that has children attending school at present, every parent that will have children attending when the other classes begin, and every individual that has the progress of the school at heart throughout the county, is called upon to lend his whole-hearted co-operation so that the progress of the school may be marching on to a greater degree of success than has ever been known in this history of Person County. It can be done.
Yours for a greater co-operation,
Mrs. Addie Williams, Pres.

The bride and groom landed, one after the other, in a field, where the bridegroom was dragged to the distance on the seat of his wedding britches.
The best man jumped last and was carried by a vagary of the wind to the front of the operations office of the airport. There he hit with a solid bump, was disengaged from his parachute and spent the next five minutes mopping his brow with a handkerchief.
First 500 Feet
Mr. and Mrs. Babcock, however, immediately gave out an interview on their experiences with married life. "The first 500 feet are the hardest," said.
"I'm through," said Eugene Kraus, the best man.
