

Library Months At Woman's Club

During these depressed times, with shorter working hours made possible by the NRA, why not bring back the good old days when the family gathered around the fireside each evening to read and discuss stories of adventure, biographies of our great leaders and many other things of vital interest to us all.

"We know youth cannot wait, a girl or boy cannot grow up twice, their character forming days are flying along. We may declare a moratorium on finance but we cannot declare a moratorium on the development of character.

"The individual, state or nation who plants a dollar for the sole purpose of growing dollars will find that the worthwhile things in life does not come in that way as is being proven in our present economic situation. Henry Wentworth's dollar was turned deep under the sod, but though the sun shone on it and the rain fell, nothing came from it; not a green thing, not a singing thing, not a human soul."

The growth of our library has not measured up to the increased reading, simply because we have not been financially able to buy new books from time to time. We need books and Wentworth's dollar planted in books for the Woman's Club library, I believe will bring bounteous returns that will be felt more and more as the years go by.

Olaf Thatoff, champion skater, says of HANES Wonderwear:

"Warmest in the world, and I have lots of freedom"

THERE'S no such person as Olaf Thatoff. But thousands say what we say he said. No matter how wicked the Winter—they wear, and swear by, HANES! Shove your legs into the fluffy lining . . . poke your arms through the sleeves . . . button the heavy, soft ribs across your chest . . . and let the thermometer dive!

HANES is knit and cut to true sizes, and marked by an honest measure. You can reach to the top of your closet, without it pinching the crotch! Button-holes, cuffs, and seams are sewed to last the life of the warm fabric. Stock-up for Winter with Wonderwear. P. H. Hanes Knitting Co., Winston-Salem, N. C.

There are all sorts and sizes of HANES—shirts and drawers as well as union suits. The Heavy-weight Champion is illustrated.

children searching for something to read. With the right kind of their disposal how easy it would be to mould their little minds and hearts. If we can wake up the public, everywhere, to the full realization of the vital need of a public circulating library for the benefit of all, we will have no trouble in getting help to make this a reality in Person County.

The library contains so great a variety of companions between covers waiting for you to call for them. In your community if there is not a congenial friend of your liking there is a book with just that friend who will inspire, amuse, entertain and console you.

"After studying our social and economic problems for many years, I have come to the conclusion that the only solution for most of them lies in education, the kind that promotes disinterested thinking and suspended judgment. Any community which maintains a well administered, adequately supported public library, provides one of the best means for acquiring such education."

The Eternal Vacation

By J. R. Slaughter (Continued from last week) Where never there'll be no more doubting,

No troubles, no envy with nations; A place of great splendor and beauty For all of the future vacations.

For those who are watching and waiting,

For the excursion that's going to run,

That will land them up yonder in glory, With the ransomed around the great throne.

To be with the Saviour forever, The conductor the heavenly throng;

Are you ready for the eternal vacation,

That's going to last so long?

With never no storm clouds of sorrow,

No troubles, no burdens to bear; No hearts to be broken and bleeding

REPAIRED FURNITURE UPHOLSTERED

If you have furniture which you like but which is worn and in need of repair, you will find that it can be re-conditioned most economically and made to look like new again.

We are experts in the repairing of furniture and the re-upholstering of automobiles. We guarantee satisfaction.

J. C. Whitt & Co. DRY CLEANING AND SHOE-REPAIRING Basement of old Postoffice Building.

In lands of vacation up there.

Where all is contentment and pleasure,

God's beauty forever to share; With time that will never be ending Through the days of vacation up there.

With no farewells to never be spoken,

No departure from friends on that shore;

It'll be a glad place of vacation, With the loved ones that's gone on before.

Who're looking and patiently waiting,

In the land where the blest are now living;

They want us to share that vacation That the Saviour Jehovah has given.

That's free to all that accept it, And follow with Jesus the King, Forsaking their wickedness and evils,

And letting His presence come in. (Continued next week)

Chevrolet Appoints Long-Time Employees As Asst. Executives

Detroit, Mich., Nov. 1.—Appointment of H. B. Hatch and Felix Doran, Jr., as his two new assistants was announced today by William E. Holler, general sales manager of the Chevrolet Motor Company.

Both men are long-time Chevrolet employees. Mr. Hatch is particularly well known here through having been Detroit zone manager and central office executive, and Mr. Doran comes into his executive position with a record for unusual performance as manager of the company's region centering at Dallas, Texas, where he has been since May 1926.

Mr. Hatch, a native of Burlington, Vt., entered the automobile business in 1916 in retail sales capacities. He was a First Lieutenant in the 41st Infantry during the War, and joined the Chevrolet organization April 1, 1921, as field representative on the Pacific Coast. In 1925 he was named assistant manager of the Portland, Ore., zone, and on Aug. 1 of the same year zone manager at Baltimore.

April 1, 1930 he came to Detroit as zone manager and was instrumental in greatly increasing the company's percentage of business in Wayne county. Nov. 1, 1931 he was promoted to regional manager at the Norwood, O., plant with a half dozen zones under his jurisdiction. Exactly one year later he was brought to the central office to work on special assignments.

Mr. Doran's record with Chevrolet dates back to June 1919, when he came out of the Army and went to work in the Fort Worth offices where Texas sales activities then

was centered. Two years later he went to Kansas City, where a like period was spent. In 1923 he was transferred to Oklahoma City, where he served as assistant zone manager. A year was spent in New Orleans, opening up a new zone, followed by approximately a year in Pittsburg.

In May, 1926, Mr. Doran was transferred to Dallas, and except for six months during which he served as assistant zone manager at St. Louis, he has been in Dallas ever since, first as zone manager and then, from Jan. 1, 1928 until this week, as regional manager.

You Too, Can Help!

The saying, "Beautiful Homes Make Beautiful Communities," is true only in part, unless the churches and public institutions of the communities are also made beautiful. It is with pride that we note that much has been done in Person County in recent months towards permanent improvements and beautification of our school and church grounds.

We should be particularly interested in the improvements which have been started at our county

home. Through the aid of relief labor, the yard there has been graded and shaped into fine condition for a lawn. A beautiful rock wall with columns has been constructed, and a good driveway, encircling the yard from the highway, has been made. The only remaining need to finish the work is the sowing of the grass and the planting of the shrubbery on the grounds.

Through the efforts of the Ladies of the Garden Club of Roxboro, we have been fortunate in having the services of Col. Blair, landscape gardener from the relief office in Raleigh, to make blueprints and suggestions relative to the proper layout of the shrubbery. Not having any money in the county home funds, we are unable to carry out Col. Blair's suggestions unless we can get aid from some source other than what is promised.

The Ladies Garden Club has very generously offered to do all that they can towards buying the shrubbery, but their help must be supplemented with help from elsewhere. Therefore, as chairman of the board of county commissioners in your county, I am making appeal to you to help us complete this work. I feel sure that there are many people who have a piece or two of spare shrubbery that they would be glad to contribute to the beautifying of our county home. If so, please let me know what kind you can furnish, and if it can be

used in the plan suggested by Col. Blair, I assure you that your gift will be much appreciated.

Respectfully yours, F. D. Long.

MR. HANCOCK PROTESTS

What Representative Hancock is understood to be saying, in effect, is that if the export tobacco trade had been as well looked after as the domestic trade the growers would have received for the crop that parity, 17 cents, which Washington officialdom assured growers their full powers would be exerted to get.

What Mr. Hancock is saying, distinctly, is that the government could have backed the market, "government buying through contact with independent dealers," and with minimum prices based on quality, with standardization of grades; News, Monday, October 16, 1933.

and that this is feasible, with reduction of acreage for next year, and in the circumstance that stocks are lower than they have been in years.

Mr. Hancock is, for the moment at least, going along positively with the left wing element causing such acute disquiet, particularly to right-wingers. The rule of politics being what it is, it is possible that Representative Hancock is demagoguing. It is familiar knowledge to its readers that this newspaper regards Hancock as trustworthy a man as there is in public life. Our conclusion is that what he contends, therefore, is that left or right, radical or conservative, take it or leave it, like it or not, the authorities have not handled this export tobacco business as well as it could have been handled, or as well as they engaged to handle it.—Editorial appearing in Greensboro Daily News, Monday, October 16, 1933.

I keep coming back to that word "balanced" on the back of the Chesterfield package

YOU often hear the word balance—something is out of balance—top-heavy, not on an "even keel."

What you read, "Chesterfield Cigarettes are a balanced blend," means that the right amounts of the right kinds of tobacco are welded together; that is, home-grown tobaccos, the right kind, the right quantity—are blended and cross-blended with tobaccos from Turkey and Greece.

When these tobaccos are balanced one against the other, then you have a mild cigarette.

When they are in balance, then you have a better-tasting cigarette.

May we ask you to read again the statement on the back of the Chesterfield package? May we ask you to try Chesterfield?
