

North Carolina Bank Deposits Show Increase Of \$122,000,000 Past 18 Months; Loans Also Up

Report Covers 243 State And 43 National Banks Since June 30, 1933 \$341,750,696 IN ASSETS

An increase of \$122,260,323 in the deposits in state and national banks during the past 18 months in North Carolina is shown in the bank call statement released by Commissioner of Banks Gurney P. Hood.

This increase in deposits was shown during the period from June 30, 1933, to December 31, 1934. The increase in the deposits in commercial state banks, under the immediate supervision of the State Banking Department, during this period was \$86,655,002, and the increase in National bank deposits for the same period was \$34,950. The increase in the deposits in industrial banks was \$744,321.

The total assets of 243 state banks and 43 national banks of December 31, 1934, according to the report issued recently, amount to \$351,180,471, as compared with total assets a year ago of \$272,593,400, an increase in assets during the 12 months from December 30, 1933, to December 31, 1934, of \$78,578,071, exclusive of the assets of 34 industrial banks. The assets of the 243 state banks at the present time amount to \$88,088,000.

One of the most significant things about the December 31, 1934, report is that it shows an increase of \$6,598,811 in loans, whereas the October call report showed a decrease in loans. Commissioner Hood pointed out. This last call report also, showed an increase in the capital structure of the banks amounting to \$4,369,455.

"The liquid condition of the banks in the state continues, showing \$173,000,000 in cash and bonds on hand," Commissioner Hood said. "Both checking and savings accounts show substantial gains throughout the year of 1934. It appears now that the resources of the banks by the end of this year will be almost at the high peak reached before 1929."

In December, 1929, the aggregate resources of state bank and trust companies in the state amounted to \$341,750,696, the highest ever recorded.

During November and December, the banking department completed the liquidation of 29 additional banks, paid claims to closed banks amounting to \$3,133,830, and wrote and sent out 59,785 checks.

SHORT SERMONS

By J. B. CURRIN A SOURCE OF WISDOM

A short time before his death the apostle Paul in writing to his beloved friend Timothy said, "from a child thou hast known the Holy Scriptures, which are able to make thee wise unto salvation through the faith which is in Christ Jesus."

What he called the Holy Scriptures was the Old Testament. Timothy did not have the New Testament as we have.

There are many sources of information on many subjects. It is easy to find information on business, political, social, professional, and many other matters.

But here we read of that which is able to make one wise unto salvation, and how important salvation is—salvation from the guilt and power of sin.

The Bible, Paul says, is able to make one wise unto salvation. The salvation is by faith, and the faith is in Jesus Christ.

That being true we should search the scriptures, for Jesus said they testify of Him.

Then what shall we say as to the individual to learn of the Savior through His Word? That opportunity surely has never been better than now.

With the Bible being sold for only a few cents and with the education necessary for reading it why should anyone be ignorant of its teachings?

Such is the opportunity of our people to secure the knowledge that leads to salvation. 2nd Tim. 3:15.

Nudity Not Enough Says Sally Rand

"Nudity in dancing is not enough," says Sally Rand, "and there is nothing new about it. It has to be merchandised like anything else, and people who think my good fortune is due to waving a couple of fans and lucky news breaks are altogether mistaken."

"I saw a long time ago that just as in business the difference between a star and an ordinary person was the difference in the amount of money spent in advertising and publicity. And though most manufacturers change the wrappers of their products from time to time," says Miss Rand in the April Review of Reviews, "I removed mine altogether."

"Another thing, you have to offer something new. I substituted a sixty inch bubble for my fan costume, and people seemed to like it. The public rarely sees such large bubbles. I had to have them made to order. The idea was good, but it, too, had to be carefully merchandised before it caught on. Nudity is no longer news."

"PIGS IS PIGS" AND CROPS ARE CROPS Yet they're much alike at Feeding Time

Strange, isn't it, to think of pigs and crops this way... but science presents more and more evidence every day to show that food requirements of animals and plants are much the same.

Animals need vitamins. They could starve to death on chemically pure food. So could your crops, without vital impurities.

Chilean Natural Nitrate supplies the vital impurities—supplies them in Nature's own balance and proportion. These vital impurities are the rare elements—iodine, boron, calcium, magnesium, lithium, strontium, and many others. They're all there, combined with nitrogen, to make your crops strong and healthy.

Chilean Natural Nitrate is ideal for your crops. It is natural, the only nitrogen that comes from the ground. For your own protection say "Chilean" when you order nitrate. Two kinds—Champion (granulated) and Old Style. They are both genuine. Both are natural. Both give your crops the vital impurities.
