

FARMING AND MARKETING

A Business Proposition

A man sets out to farm. He first decides on the land that he wants to farm. If he can buy, he does. If he cannot, he rents. The next step is to get stock, tools, put his house in readiness for occupancy, and get his land in shape to yield a good return on his investment

Then the planting time rolls around, the crop is planted and cared for; finally it is harvested. If that man is living in Person County, nine times out of ten he is depending on his tobacco to bring him the money necessary to keep going and a little to store up for a rainy day

If he is a wise farmer, living in Person County, or the surrounding territory, he will not listen to fast-talking propagandists about selling his tobacco away from home

HE WILL EXPERIMENT FOR HIMSELF AND FIND OUT WHERE HE CAN GET BEST PRICE FOR HIS TOBACCO .

Everyone starts a business in life at some time or another. Most everyone makes mistakes. There are many farmers who started to sell their tobacco on the Roxboro market years ago and have kept it up ever since. There are others who started, but have since disgressed to other pastures

We need one hundred per cent co-operation to run Roxboro and Person County and to make this the finest county in the South. Bring your tobacco here and sell it this fall. You will make more, be better satisfied, and help yourself as well as having the knowledge that you have done your share to make this the finest county in the South.
