

NEW PICTURES

(Opinions are based upon the reports of P. S. Harrison, noted New York critic, whose reviews serve as confidential guides to theatre men all over the United States.)

"Broadway Melody of 1936" (MGM) with Jack Benny, Eleanor Powell and Robert Taylor.

This is good mass entertainment, with lavish production and human interest story. The plot is thin, however, adhering closely to the backstage comedy formula. Jack Benny is handicapped by lines that are not comical and will prove disappointing to his radio fans. Eleanor Powell is really a superb tap dancer. The love interest is pleasant. Suitable for all.

"Two Sinners" (Republic) with Otto Kruger and Martha Sleeper.

Good. The production and acting are excellent; there is human interest and the characters are sympathetic. The first half is amusing, caused by a spoiled child's antics, realistically played by little Cora Sue Collins. The love interest is charming.

"Special Agent" (Warner Bros.) with Bette Davis and George Brent.

A powerful drama of the "G-Men" type, but it is demoralizing in that it deals mostly with the criminal activities of gangsters. There are several very thrilling situations. The love interest is pleasant.

"Freckles" (RKO) with Tom Brown, Virginia Weidler and Carol Stone.

Pretty good family fare. Virginia Weidler, who was so delightful in "Laddie," is the real attraction and by her personal charm she keeps the audience entertained. The leading characters are sympathetic, the closing scenes exciting and the love interests pleasant.

"Super Speed" (Columbia) with Norman Foster, Florence Rice and Mary Carlisle.

A mediocre program melodrama. It is somewhat demoralizing because of the actions of the villain, Arthur Hohl. The action is slow except for the motor boat race in the closing scenes.

"Hop-Along Cassidy" (Paramount) with William Boyd, Jimmy Ellison and Paula Stone.

An excellent Western, with good photography and acting. Human interest is combined with comedy and melodrama. The action is fast and the horse-riding thrilling. Jimmy Ellison, a newcomer to the screen, makes a very good impression, having personality, a good voice and ability to act. The love interest is pleasant. Good for all.

"Powder Smoke Range" (RKO) with Harry Carey and a large number of other well-known Western actors.

This is the very best picture Harry Carey has appeared in since "Trader Horn." There are many of the old Western actors in this picture—Hoot Gibson, Tom Tyler, Bob Steele and others, but Mr. Carey outshines them all. The action holds one tense. Suitable for all.

"Wanderer of the Wasteland" (Paramount) with Dean Jagger and Gail Patrick.

A fairly good Western, with fast action, good horseback riding, some comedy and human interest. Several of the situations are exciting. Suitable for children.

"Here Comes The Band" (MGM) with Virginia Bruce, Ted Lewis and Ted Healy.

Good entertainment, having com-

THE FAMILY DOCTOR

By JOHN JOSEPH GAINES, M.D.

SO WE COOK OUR FOOD

An ox or a horse can seize and masticate thoroughly a dry, hard ear of corn. Most any of the farm animals may attack a cured bale of hay and with powerful teeth and capable salivary glands reduce the tough, dried grass to fit the stomach and be readily digested.

The hen picks up ripened grains, hard as wood—swallows them whole and doubtless enjoys the flavor. She has a battery of small pebbles in her interior, to grind her cereal with pleasing deliberation. It is all very interesting when we have time to think of it.

But, man cannot do things as the cattle, horses and fowl do them. We may eat a few things raw, with benefit. Our pioneers ate raw turnips freely in the days before the young orchards had arrived at the fruit bearing stage. We find raw fruits exceedingly palatable and beneficial and even necessary to our well-being. We may eat dried or wholly-air-cured meats such as "chipped beef" if it be shaved thin and yet masticated well. It is tonic for the digestive tract and a blood builder as well.

There are faddists today who think man should abolish cooking!

The common sense of it is that vegetables and meats of all kinds need treatment before being eaten. Tough fibers must be made tender. Hard growths must be softened. Hidden food-principles must be set free that we may appropriate them to our use without over-taxing the digestive machinery within us. The process of cooking becomes one of greatest importance to the human family.

Let me mention a possible error, which is over-cooking. Too ardent frying, boiling, roasting is also wrong. The artist in cookery knows when to quit! Much of our diet is spoiled by "cooking it to death." Don't do it.

edy, an interesting plot, excellent music and fast action. It introduces Harry Stockwell, a newcomer to the screen, who, because of a fine voice and pleasing personality, should become popular. The love interest is pleasant. Suitable for all.

"Super Speed" (Columbia) with Norman Foster, Florence Rice and Mary Carlisle.

A mediocre program melodrama. It is somewhat demoralizing because of the actions of the villain, Arthur Hohl. The action is slow except for the motor boat race in the closing scenes.

ANTI-RABIES BILL

The world advances slowly along lines that make for human betterment. The chariot wheels of human progress are held back by the brakes of ignorance, prejudice and low order of intelligence.

A physician endeavored to introduce a law making it compulsory to have the dogs in the State of Alabama inoculated against rabies. The report stated that the bill was "laughed to death" on the floor of the Alabama house of representatives last May. A stinging rebuke was administered by the state president of the medical association in the following language: "I am myself a dog fancier. I own 10. The Wednesday papers carried the information to the public that a reasonable bill which had been carefully prepared by interested members of the legislature in its efforts to control the alarming spread of rabies in this state had been 'laughed to death' on the floor of the house."

The facts are as follows: So great are the demands now being made on the health department laboratories which undertake to manufacture the vaccine to protect human beings against this dread disease that they have been unable to supply the demand and have been forced to purchase additional supplies of the vaccine in the open market.

The doctor continued: "In certain counties where rabies was practically unknown heretofore, they have had a series of mad dog epidemics occurring at regular intervals. These epidemics will continue until drastic measures are taken to curb the dog population."

"The bill which was 'laughed to death' was in no sense a dog tax law, or revenue producing measure. The maximum charge provided in this bill is one dollar which includes vaccine, its administration and the enforcement of the provisions of the act. It merely seeks to exercise some control over the present vagrant dog population of the state which is a real and actual menace to all our people."

Not only should the vagrant dog population be humanely destroyed, but homeless, wandering and predatory cats should likewise be killed. Cats can develop rabies as well as dogs. People have been known to develop the disease after being bitten by cats. We all know that cats are most destructive to bird life, particularly the half starved and homeless cats. The unwanted offspring of female feline pets should be destroyed at once. This can easily be done by digging a hole in the ground, filling it with water, dropping in the new born kittens. This is recommended by the humane society. It is far more sensible and kinder than to preserve them to swell the population of uncared for cats.

SALE OF FARM PROPERTY

Under the authority conferred upon me in that deed of trust executed by John W. Clayton, Jr., and wife, Mona Clayton, to me as trustee and recorded in the Person County Registry in Book 6, Page 84, default having been made in the payment of the bond secured thereby and at the request of the holder thereof, I will on

MONDAY, NOVEMBER 4th, 1935 at 12 o'clock M. at the courthouse door in Roxboro sell at public auction to the highest bidder for cash the land conveyed by said deed of trust, to-wit:

In Roxboro Tp., Person County, and being that tract of land conveyed to John W. Clayton, Jr., by the will of his grandfather, John S. Clayton, which is registered in the office of the Superior Court of Person County in Book 21, page 63-64, where the said tract of land is described, the same being the western portion of the home tract of the late John S. Clayton, the same being bounded on the north by lands of John Wilkerson, colored, on the east by that portion of the John S. Clayton home tract which was devised to Silas D. Clayton, on the south by the old Roxboro-Surl road, the same being just south of the present Roxboro-Oxford highway, and on the west by lands of E. J. Tucker and lands of C. G. Daniel. The line between John W. Clayton and Silas D. Clayton has been surveyed and fixed, the same beginning at a point on the old Surl road about sixteen feet below a tobacco barn, a post oak, and running thence in a straight line to a rock, the corner of the John Wilkerson tract.

The purchaser at the sale will be required to deposit ten per cent of bid price as evidence of good faith.

This October 3rd, 1935.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Theford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Theford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."
