To Growers of Fine Yellow Tobacco!

Tobacco Fertilizer.

(Formally known as 'GILIIAMS,)

"I have used the Auchor Brand for years, and as a test always by the side of Pergyian Gnano

and other commercial fertilizers, on both old and new land. Ou plant beds I regard it as the best application known. My land is light sandy soil with clay subsoil. This fertilizer has given me tobacco of such quality, as to bring an average of \$50.13 per hundred, for a large crop. It makes tobacco as brightas Peravian, and produces a texture such as not pessible to Peravian. It is delicate, silky and very tough; indeed the perfection of a bright strap ser. With a fertilizer giving me such results, I cannot afford to take the risk of fadure by sesoning to other articles because they cost me, it may be, some two dollars per acre less. The top leaves of this tolacco are of deligitful dayor, and make excellent fillers. Take this fertilizer, gar in and year out and regard to the best and most reliable known for this crop. On land extremely poor I have garbered at hearest of command extremely poor I have garbered at hearest of command an application of 50 bounds of this fertilizer mixed with leached ashes."

The test mony of planters using this standard fertilizer is uniform on the following points:

Its t A hancal condition is perfect, and hence can be evenly a point.

It furnishes nutriment to the pignt from the beginning of the trop to its maturity, that is it holds out.

loids out.

2. It stands a drought adicirably.

3. It works well on all soms adapted to fine vellow tobacce.

4. It works well on all soms adapted to fine vellow tobacce.

5a. It makes tobacco that ou we easily and uniformly (no spotting.)

7. The tobacco made from its use is beautiful in color, of flue size and exquisite texture(tough).

"chaffy) and brings the top of the market in price.
