TO THE FARMERS

To our Friends:—

I desire to correct the erroneous statements which have recently been circulated to the effect that the city government intended imposing a special tax on all sorts of farm products offered for sale on the streets of High Point. There is absolutely no truth whatever in this report. The City Council and Mayor are in hearty sympathy with our rural friends, and we want them to feel that High Point needs them and their products, and we wish to aid in every way possible to build up a profitable market here for everything that can possibly be produced on the farms surrounding High Point.

There is a small insignificant fee required for the inspection of meats and milk but these requirements will work no hardship to any persons living in the country having for sale farm products of any kind. This inspection is necessary in order that only healthy cattle and pure milk may be offered for sale and it will undoubtedly result in a higher standard of both articles, which will mean better prices for the farmer.

With the hearty co-operation of our farmer friends we can make High Point a splendid market for absolutely everything that can be produced on the farms surrounding us, and we can in this way materially assist in making these farms highly profitable to the owners, as well as beautiful to the eye. We beg for the co-operation and good fellowship of every farmer living near or doing business with the City. With your assistance great things can, and will, be accomplished. This end of Guilford County can, and will, be made the garden spot of North Carolina.

If at any time, you need the assistance of, or wish to confer with our city government in matters pertaining to our mutual interests, you may be assured due consideration will be shown you.

A hearty welcome is extended not only today, but every day in the year.

Sincerely yours,
FRED N. TATE,
Mayor.

DEATH OF MRS. MOSELEY

Mr. W. W. Moseley, who travels for High Point Hosiery mills is in the city today. He has just returned from Buckingham, Va., where he went to attend the funeral of his mother who died there July 21st, after a lingering illness.

Mrs. Pattie Moseley was well known throughout that section of Virginia and her death brought sadness to many hearts. She leaves a husband and five children.

The friends of Mr. Moseley here will sympathize with him in his great bereavement.

LEAVE FOR CAMP.

On a special train tonight Co. M. 1st Inf. (High Point Rifles) leave for Moorhead City for a week in camp. Capt. Carpenter expects to take a full complement and make a fine showing.

MR. TYSINGER WINS.

W. R. Tysinger won the handsome \$70.00 set of tools given away by Siceoff-Lindsay Hardware Company. No. 400 being the first number drawn from the box which was the winner.

Mrs. Curlee, of Raleigh, is visiting her sister, Mrs. E. M. Armfield.

Mr. H. Bowman moved his tent to Reidsville and opened there last night with moving pictures and vaudeville as usual.

ALL IMPORTANT

High Point Must Have Auto Road

It is all important that the Auto Road come by High Point. Let every business man who has an interest in his town attend the meeting at Greensboro on Thursday morning.

If there is any change in the time of meeting announcement will be made. Make your arrangements to attend the meeting.

THE PROWLER

"No I am not against women's clubs" said the Prowler this morning as he came in with an invitation to attend a smoker at the Bachelor's Club. "I think they are good things and if the ladies pass the time away simply talking it is good for them to meet together now and then. All of us see each other too seldom at best and anything that brings the people together such as a club does good. But if I was a woman and belonged to a club I would make the meeting more helpful, domestically. You know there are those who belong to these clubs that could be of great help to each other in talking about the things that pertain to the house. Those who are good cooks should give the club the benefit of their knowledge and experience. Then there are those who are expert with the needle—they could be of great help to some who have not yet learned to sew on a button. In this way the clubs could be a means of helpful education. What would do more good than for a bunch of ladies to find out the recipe for making a nice dish of some kind and then go home and put it into practice. If we could have clubs like that it would not be long before all the men would insist on every female member of the family joining a club.

"How do you know that the ladies don't do these things now in their clubs?"

"I don't know it. I can only judge from the popularity of the clubs with the men folks. Now man is a selfish animal and when anything is going on that contributes to his tastes and whims, he will show it in some way. With the majority of them the club is not popular although he would not object.

"But man should not have his way in these things—it is none of his business."

"Well, it is and it isn't."

IMPORTANT MEETING.

Unless otherwise informed all autoists and those who are interested in securing the auto route from New York to Atlanta by High Point are urged to attend a meeting at Greensboro Thursday morning at 9 o'clock. Those who have autos will probably go down and have room for others.

This is a very important matter to High Point and we trust that there may be a large delegation present.

BIRTHDAY PARTY.

Mr. and Mrs. W. C. Koont gave a very nice little birthday party for their little daughter Susie, last Friday evening, from 5 to 7 p. m. Ice cream, cake and fruits were served, much to the enjoyment of the little invited guests.

(The table was beautifully decorated.)

Miss Allie Strickland joined a party of young people today to spend a week or ten days at Black Mountain.

NEW ADS.

H. A. Moffitt—Midsummer Clearance sale—Last week.

THOMASVILLE ITEMS.

Special from Thomasville, by C. R. Thomas.

July 26th, 1909.—Sunday morning the New Main street Methodist church doors were thrown open for the first time for public worship. For thirteen months the congregation has worshiped in the Opera House while the church was being built. Sunday morning Sunday School was held for the first time in the new church and the school had the largest attendance of the history of the church, the school was re-organized and new life was injected into the entire school. At eleven o'clock the Thanksgiving Service was held and addresses were made by Mr. Archibald Johnson, Rev. M. L. Kestler, Mr. F. S. Lambeth, Mr. C. F. Lambeth and the pastor, Rev. Parker Holmes, all of which were interesting, a special program for the occasion had been previously arranged and was successfully carried out. At the evening service the church was filled to overflowing to hear the beloved pastor, Rev. Parker Holmes, preach his first sermon in the church which he was the prime factor in building and but for his efforts the church would not have been built for many years to come. At this service a collection was taken, and \$400 was raised, which pays every cent of remaining indebtedness of the church and now it stands clear of all indebtedness, one of the handiest churches in North Carolina, the pride of every citizen in the entire community.

Next Sunday Bishop James Atkins, D. D., of Waynesville, will be in Thomasville and at 9.30 o'clock he will address 500 children at the Sunday School service. At 11 o'clock he will preach the Dedicatorial sermon and will dedicate the New Church at this service. Bishop Atkins will also preach at the evening service. The public, and especially every denomination in the town is cordially invited to attend every service. Next Sunday in Thomasville will be an eventful one and one long to be remembered.

Sunday morning the Military Company returned from Morehead City, where they had been attending the State Encampment for the past week. Three of the Company made marksmen and a number made first class shots. They report a delightful time, they all behaved well made a good showing and received many compliments from the State officers. All in all Thomasville has a company of which she is justly proud, and the next encampment they will make a great effort to be the best in the regiment.

There are two cases of Pellegra in Thomasville, one a girl ten years old, who has it in advanced form, the other a lady about 25 years old and she has had it for two years. The physicians in charge will be glad to have any physician who is interested and would like to see the case, come and look at them as they are both typical cases.

The Southern Power Company has completed its work in this

area.

(Continued on fourth page.)

AUNT JANE

"Honey, I can't write, I only wish I could. It used to take a whole week for me to write a composition when I went to school at Springfield, high on to 60 years ago. But I see so many things going on these days that I look so strange to me that I would like to express myself sometimes. I can't help feeling uneasy as well as sorry for the young people these days. When I think how the girls used to do and then see how they do now. I just have to leave a sigh and hope for the best."

"When I was growing up it was considered an honor for a girl to help her mother around the house, no matter what it was. She was taught to cook, sew, make preserves, clean up the house and wash the dishes; whenever it was found out that a girl did not do these things it was against her in the neighborhood and her chances for marrying was powerful slim. We thought that a girl who was no help to her mother would be less help to her husband, because her mother would likely put up more with her shortcomings. I don't understand the change. It certainly does not make a girl any more attractive not to work. When all the girls in my day would come out to meet with their nice freshly ironed gingham and calico dresses and their sunbonnets, they were a pretty set. Their complexions were natural and pretty, their lips as red as a peach and they looked the picture of health. Now it is very different—the powder and corset strings, feathers, and chewing gum have taken the place of these common sense things I speak of.

"I do wish the girls would change."

"Do you suppose they ever will Aunt Jane?"

"I am afraid not, the world is getting far along and the thing they call style and fashion seems to have them in their clutches. But hear me—the world would be better off, if we could carry our children back and teach them a few of the old ways. I believe I am right."

THE MIGHTY HAAG SHOWS COMING.

The fifteenth trans-continental tour of the mighty HAAG RAILROAD SHOWS will be one long remembered by its friends and the public. For fifteen years the Haag Shows have traveled the country by wagons, every year enlarging the shows and adding new features until it has grown too large for wagons and is traveling this year on its own special trains of cars. All these years Mr. Haag has never broken a promise to the public and this year he has come with more shows, more clowns, more music and more fine horses than ever before. THE MIGHTY HAAG RAILROAD SHOWS will exhibit at High Point on August 9th.

Mr. and Mrs. McCarthy have returned from an extended trip to Chicago and the West.

MISCREANTS SHOOT

Three boys were loafing around the water tank on the Railroad between here and Trinity. They had a pistol with them and as a passenger train passed they shot at one of the car windows. The report reached this office over the telephone from Mr. J. J. Farris who was on the train and he stated that the bullet came near killing a woman.

NOT IN BANKRUPTCY.

In reference to the case of the Greensboro Furniture Co., the Greensboro News Says:

"In the United States District Court yesterday, Judge Boyd heard the final arguments in the case of an application of a receivership for the Greensboro Furniture Company. He appointed R. M. Reese, of this city, receiver, and authorized the receiver to continue work until the material now in process of manufacture was completed. His bond was fixed at \$3,000.

This was the case in which the application was so bitterly fought by the defendant company. It is sincerely hoped that the receivership will work out the salvation of the company which it is claimed is perfectly solvent.

This action which merely puts Mr. Reese temporarily in charge to ascertain the true condition of the plant seems to be agreeable to both sides. The appointment of Mr. Reese as receiver does not mean that the company is in bankruptcy.

The rain came in good time. It was badly needed on the farms and on the lawns and gardens.

Sporting News

CAROLINA ASSOCIATION.

The "Boys Wonder" came into his own yesterday afternoon when he blanked the Spartans with three hits.

And that victory put the Spinners even with the Twins for third place.

A double header in Greensboro this afternoon. First game called at 3 p. m. Dem and Laval will officiate on the hurling mound for the Twins and Ridgeway and Eldridge for the Champs.

Charlotte expects two new twirlers soon. They go by the names of Peterson and Garman.

Walters still has possession of his horseshoe, his four leaf clover, and his rabbits' foot.

Tommy Stouch is hunting the thief that stole his.

There are very few pitchers in the league that have it on McCarthy of Anderson.

If Brooklyn paid \$1200 for Lee Myers, the Anderson shorty, Dr. Schmick must be worth \$10,800 for Lee only plays one position well while the Dr. plays nine just as well as Myers does short.

National League.

After holding down the Reds 4 to 2 yesterday for seven innings, Camnitz, Pittsburg's star pitcher, weakened and was hammered off the rubber and the Cincinnati's won, 6 to 4.

That defeat put the Cubs the nearest they have been to the Pirates in six weeks.

Mike Donlin says he hasn't come to any dealings with the Phila. club as yet in reference to his becoming manager.

The New York and Boston teams played seventeen innings to a tie yesterday, 3 and 3, which is the National League record for this season. Ames did the twirling for the Gothamites and Mat-tern was on the rubber for the Beaneaters. Ames had a shade the better of the contest.

DEAR MADAM:—

A careful comparison of style, quality and value reveals the indisputable fact that this store has no competition. Our offerings are worthy and reliable. White India Lawns at 5c. White Bed Spreads at 98c. Extra large double thread Turkish towels at 22c. Heavy linen laces at 10c. Splendid paragon frame umbrellas at 98c. Beautiful gauze hose at 25c. Fine English repp at 19c.
