Keep Cool
KEEP COOL

During these hot days by using ice. It's saving time and wringing dollars to do without the only means of preserving palatable articles of food. Do the wise and cheapest thing by keeping your ice box or refrigerator well supplied at all times with clear, crystal ice. Our ice is made from artesian water distilled and filtered three times. It is impossible for it to be other than ABSOLUTELY PURE. Treat your health as well as your pocketbook right by taking ice regularly. Any inattention on the part of our employees will be dealt with if called to our attention.

SEABOARD TRAIN RUNS INTO EXCURSION TRAIN KILLING 2, SERIOUSLY INJURING MANY OTHERS

THE TWO ROADS USING SOME TRACK WITHOUT NIGHT SWITCHMAN.

(By Leased Wire to the Enterprise.) Raleigh, N. C., Aug. 13.—This morning at 1:10 o'clock the Seaboard Air Line northbound train No. 84 bound for Richmond and Washington crashed into a colored excursion on the Southern track under the shed at the Union Station causing the instant death of one and more or less seriously injury of a score or more of the excursionists, one of whom died later. Several of these injured are in a serious condition but with possibly one exception all will recover. An excursion last night carried about 250 Raleigh negroes to Durham, the train had just returned and run into the Union Station, passengers were beginning to get off when the Seaboard passenger train ran into the rear end, crushing in both ends of the

rear coach. The excursionists became panic stricken, many jumping through the car windows and injuring themselves, who were otherwise unhurt. Will Jordan was on the rear platform and was killed outright. Hugh Perry was terribly mangled and died later. The cause of the wreck is not yet fixed. The Seaboard trains were using the Southern tracks and it is probable that the crew of the Seaboard train knew nothing of the excursion train. The switch was open and it came in as usual, there being no other train scheduled for the depot at this hour. There is no switchman at night and switches are set late in the afternoon for the night trains. There is a block signal man but it is not known at this hour why he let both trains pass him. He did not know however that the Seaboard was using the Southern track.

CORPORATION COMMISSION IMMEDIATELY INVESTIGATES CAUSE OF WRECK AT RALEIGH

(By Leased Wire to the Enterprise.) Raleigh, N. C., Aug. 13.—The Corporation Commission is holding an investigation this afternoon to try and determine the cause of the wreck. From what the Southern railway men say the Seaboard is to blame. The Seaboard men will not talk. The Southern people say that when they agreed for the Seaboard to use their tracks, while repairs to the depot are being made, that they reserved the right-of-way,

and required the Seaboard to slow down in coming into the station so that they could stop instantly. Notwithstanding this agreement the Seaboard train was running not less than 20 miles an hour when the crash came. The excursion train had passed the Seaboard just out of town also, and the crew of the Seaboard must have known there was a Southern train just ahead, an additional reason why they should have been on guard.

GUILFORD BOY BADLY WOUNDED.

Fred Stanley, a young white man who lives near Guilford College, was seriously wounded in a fight, or small race riot, on the Southern's excursion train, section 2, returning to Greensboro from Norfolk Thursday night. Robert Jones, a Greensboro boy, was cut about the head with a bottle and was rendered unconscious for some time. Stanley is now in the hospital in Danville, and while his wound is of a serious nature there are hopes for his recovery.

The fight happened about this way: T. L. Proctor, of this place, had gone into the coach for colored passengers. The two boys were either passing through, or went in just behind Proctor. The latter and one of the negroes got in a difficulty over a bottle of liquor and as a number of the negroes were tanked up the trouble spread. One of the negroes attempted to shoot Proctor, but the bullet struck Stanley in the right breast and passing through his body. In the melee Jones was struck on the head with a beer bottle and rendered unconscious.

The injured boys were laid off at Franklin Junction where they were picked up by section three of the excursion. They had received medical attention and were accompanied to Danville by a physician. Here they were carried to the General Hospital. Jones soon got all right and returned home yesterday at noon but little worse for the encounter.

DESPERADO CAPTURED

Wilmington, Aug. 13.—J. P. Walker, the white desperado who murdered Sheriff Jackson Standland, of Brunswick county, on December, 1908, and who broke jail after being captured, was recaptured yesterday at Cold Springs, Fla., was identified by a photograph. There was a reward of \$2,000 for his arrest.

J. A. CREWS TAKES LIFE BECAUSE OF FAILING HEALTH.

Winston, Aug. 12.—Mr. J. A. Crews, while in a despondent mood, produced by ill health and reverses in business, committed suicide last night at his home in Fairview by shooting himself through the heart.

Mr. Crews was a splendid citizen and for several years conducted a successful mercantile business at the corner of Liberty and Mickey streets. When his health failed he disposed of his interest and retired. At times, for several weeks, his mental faculties were observed to be affected and arrangements had been made to send him to the State hospital for treatment.

JOHN GOSSETT DEAD.

John Gossett a well known negro far and wide in this section as a driver of an old fashioned oak cart and who was quite a freak, having a natural body with legs only two feet long, died at his home near Glenola this week.

John was reliable and honest and had many friends among the white people.

INKEYS AND SIZZERS.

Those who attended the ball game Thursday were pleased with it. There were some good plays on both sides.

Score	R. H. E.
Inkey Dinks	6 8 7
Sizzer Belles	4 5 4

The game started slow but improved towards the middle and during the last five innings was a first class exhibition, and should have drawn a better crowd.

Home run by Hilliard and pitching of Jones for Inkey Dinks were features, while Kirk on third and Manager Carrick acquitted themselves well for the Sizzer Belles.

St. Mary's Episcopal Church.
Sunday School at 9:45 a. m. Services at 11 a. m. by Rev. W. L. Mellichampe.

DESPERATE FLOOD SITUATION

Tokio, Aug. 13.—Forty thousand persons are homeless and facing starvation and pestilence, and the capital of Japan is threatened with submersion of over half its area as result of floods of river Sumida. Situation is desperate.

DESTRUCTIVE FOREST FIRES ARE RAGING IN THE NORTHWEST

(By Leased Wire to the Enterprise.) Washington, D. C., Aug. 13.—The federal authorities present a busy scene of action today, and are bending every effort to fight the forest fires in the northwest especially in Montana and North Dakota. Major General Wood held a conference today with the representatives of the forestry

service and the Indian Bureau regarding the situation. Alarming reports of extent of the fires were received today. Several thousand are now engaged in fighting the fires, said General Wood.

There has been protracted drought and fires are extremely dangerous.

REAL ESTATE DEAL.

An important real estate deal was made a few days ago when Mr. D. A. Hammer sold his store and stock of goods at Mechanicsville to C. B. Welch. It is understood that Mr. Hammer made a good profit on this deal, but the exact consideration is not made public.

Mr. Hammer is now in Washington, D. C., but expects to return soon and will engage in business here, opening up the first of the year.

SPECIAL COMMITTEE.

Seashore Hotel, Wrightsville Beach, N. C., Aug. 12.—The special committee appointed to straighten out the tangle in the Sixth Congressional District, got down to work this morning at 11 o'clock with all members present, except Hon. R. A. Doughton, who wired that he could not attend. Ex-Governor Jarvis, who is chairman of the committee, stated that the committee would hardly complete its work of examining witnesses before tomorrow night. All sessions are strictly private and only one witness is examined at the time. Nothing will be given out, of course, until the finding of the special committee is laid before the State Democratic Executive Committee.

From the attitude of a congressman Cowles it appears that the committee will not be able to adjudge the tangle unless a congressman Cowles is either declared to be the regular nominee or fit-plan for a primary adopted, in fact he practically said this today.

IT'S A WIRELESS.

For the information of those included to ask questions, we will state that the apparatus on the Elwood hotel is part of Mr. Alderman's wireless telegraph "line" he is erecting.

COL. RUFF HENDERSON TALKS POLITICS—SAYS COWLES IS SURE TO WIN

COL. RUFF HENDERSON.

Col. Ruff Henderson, a leading spirit in Wilkes county, a prominent Republican who keeps abreast of the times and is always willing to express his opinion whether you agree with him or not, was here this morning with his family, returning home from a visit to the family of Mr. Guyer, near town.

The Enterprise raised the ire of Col. Henderson at the first pop. "Well, I suppose Bob Doughton will be elected in the Eighth, Col. Henderson?"

"Not by a long shot," snapped the Colonel. "We have had the Eighth for sometime by a good majority and since the State Convention adopted the local self government plank in the platform there is no question about Cowles' election."

"How does that help matters?" "Well, the people in the mountains have thousands of bushels of apples rotting on the ground and are deprived of the right to make them into brandy, while the eastern farmers who make grapes are given the privilege of making wine. The people of the mountains will not stand for this."

"What do you mean by local self government—how far does it

THE STATE FAIR.

We are in receipt of the Premium List of the Fiftieth State Fair. The premiums are very attractive indeed, a number of counties already entered to compete for the attractive premiums. From all parts of the State are coming special requests for premium lists for all departments, requests in addition to the distribution through the regular large mailing list. The new concrete Horticultural and Agricultural building will be ready. The building is 60x150 feet and all the exhibit space has been let.

CONTRACTOR ARRIVES.

J. D. Porter, superintendent of the concrete work on the new government building, arrived here today and will take charge of this work and push it rapidly to a finish. Mr. Porter comes direct from Salisbury, where he has been building the new post-office, which is one of the prettiest in the state.

Underwear, neckwear, hosiery, overalls at reduced prices at Cannon-Fetzer Co.

The Enterprise had a call yesterday from George W. Matton, a student at Trinity, who has been engaged in some special work at the college this summer. He will be at home for a rest of two weeks before entering upon his studies. Cowles is making a fine record at college.

APPRECIATED.

We are proud to be able to say that our friends and the entire public have appreciated our efforts to please all. The large patronage and the many expressions of appreciation from those taking advantage of our big clearance sale, told the story. Cannon-Fetzer Co.
