STORIES OF SUCCESS

J. M. STUDEBAKER

From the very first the subject of this sketch understood the difference between being a clerk and a capitalist. To the goal of success the sturdy blacksmith struggled on and on until he stands forth today as one of the great captains of industry of the world. In a wagon built by his own hands he traveled overland to California at a forty-niner, and on his return invested every saved penny of his digging into the gigantic wagon business which today spreads its name world wide.

Always and always he saved for some new investment, realizing in the full that wealth must have new vitality.

Money begets money. Without capital you will be slow to rise.

Start a savings account, a dollar opens it, and our 4 per cent. interest compounded semi-annually, makes it grow.

We earnestly await your coming. May we not expect you soon.

President's Message Read In Both Houses Today

Special to Enterprise.
Washington, D. C., Feb. 2.—The message of the President of the United States concerning the work of the Interior Department and other matters was submitted to both branches of Congress today. The message was a lengthy one dealing with government reclamation work—the coal fields of Alaska—water power sites—bureau of national parks—an international commission on the cost of living—the misbranding of importing goods, and a building for public archives.

EARTHQUAKE DESTROYS 20 PEOPLE.

Special to Enterprise.
Athens, Feb. 2.—Advices received here today say that an earthquake caused much damage to Ionian Islands yesterday. Twenty-two reported killed.

ROOSEVELT ANSWERS RE- PORTERS.

Special to Enterprise.
New York, Feb. 2.—When asked his opinion regarding the action of the New York county committee last night endorsing Tait, Roosevelt replied if the attempts to cross question him were not abandoned he would refuse to see all reporters.

SUB MARINE IN SUNK WITH ELEVEN ON BOARD

Special to Enterprise.
London, Feb. 2.—Submarine A No. 3, was sunk in a collision with the torpedo boat Hazard off the Isle of Wight today. This is the same place that submarine A No. 1 sank with a loss of 13 lives. Submarine A No. 3 carried eleven crew, which it is feared perished.

SEN IENCED TO ROAD FOR KEEPING LIQUOR IN CLUB.

Special to Enterprise.
Winston-Salem, Feb. 1.—L. H. Davis and D. G. Pepper, white men, were convicted in Forsyth Superior court today of keeping intoxicating liquors in a club house and Judge Daniels sentenced Davis to the county roads for fifteen months and Pepper twelve months. The defendants gave notice of appeal to the Supreme court, and their bonds were fixed at \$1,500 each.

CHARLOTTE HAS SOME- THING NEW.

Occasionally Sol rises on something new in spite of the adage that "there is nothing new under the sun."

In the present instance the new thing was a scheme to raise money, conceived by a man announcing himself to be "J. A. Adkins."

Adkins' plan is possibly without a precedent in this or another age. He began operations by securing a horse and buggy from a livery stable, under erroneous representations concerning himself, but when he arrived in the neighborhood of Chadwick and announced that he was an officer of the law with a batch of warrants against citizens of that section, and that said warrants charged the said citizens with maliciously, wilfully, and with force of arms, operating a blind-tiger contrary to the statutes made and provided, and when the fictitious officer demanded ample bond money from his victims, and pocketed the change with rare grace, the limit was reached. The nerve which accompanies this Get-Rich-Quick Wallingford has made all those who have heard thereof to stand back aghast at the amount of boldness displayed by the pseudo-officer.—Observer.

GOVERNMENT SLANDERS (?) GROUND HOG.

Washington, D. C., Feb. 2.—Because the ground hog is "totally unreliable" Uncle Sam's official weather prophets today didn't endeavor to discover whether the animal saw his shadow. "The ground hog story is absurd foolishness and rank superstition," said acting Director Williams, "we don't take any stock in such a yarn anyway. The animal is totally unreliable."

GROUND HOG DAY.

Did the ground hog see its shadow this morning. If so, look out for the weather during the next 40 days.

He has a big advantage over the weather man at the government observatory in that everybody believes the prophecy of his hogship, although he has been known to make quite as bad breaks—if not so many—as the official weather observer. Mr. Hog, who has been enjoying a long sleep in very comfortable underground quarters all the winter—and, it may be mentioned, escaped some pretty fierce weather hereabouts recently—starts out at high noon today to investigate above-ground conditions, to ascertain if it will be safe for him to give up his winter-quarters and seek a site for his spring and summer habitation, where, if the outlook is all that he desires, as to the weather, he gets busy making provision for his comfort for some months to come.

If when he leaves his hole he sees his shadow—that is to say, if the sun is shining—he will tumble back as though he had received an electric shock, so unpromising a thing, as to weather probabilities, does he regard his shadow, it meaning to him—and everybody believes he knows—forty days of bad weather, which he feels no disposition to face. If he didn't see his shadow—if it is a cloudy high noon—he will wave adieu to his hole, on the theory that the back of winter is broken, and that there is plenty of good weather ahead.

DISTRESSING ACCIDENT.

Sometime yesterday forenoon Mrs. N. G. Kinley, who lives in Davidson, caught fire and burned to death. She was found about 10 o'clock by her husband. The deceased was a sister of E. T. Hedrick and H. H. Hedrick of this city. She will be buried today.

WORK ON NORFOLK SOUTHERN TO CHAR- LOTTE WILL BE PUSHED

Raleigh, Feb. 1.—At a meeting of the stockholders of the Raleigh, Charlotte and Southern Railroad this afternoon in the offices of Merchants National bank, directors were elected preparatory for pushing through the construction of sections and linking up the new Norfolk Southern line from Raleigh to Charlotte, the latter city having met all the demands on which carrying the road on from Concord to Charlotte was conditioned. The directors elected were E. T. Lamb, Norfolk; Frederick Huff, New York; W. A. Chadbourn, New York; Caldwell Hardy, Norfolk; and E. C. Duncan, Raleigh.

THE WEATHER.

General fair tonight, Saturday colder.

Special to Enterprise.
Cambridge, Ill., Feb. 2.—Miss Minnie Burrows, age 50, and Miss Nancy Dean, age 80, were killed today, and Mrs. Susan Burrows was fatally injured by an acetylene gas plant exploding at a farm residence near here.

New Factory Sites

The extension of the Southern railway tracks in the south end of the city is a great boon to High Point. It means the opening up to our city a large number of factory sites, which in turn will contribute to the town's upbuilding immeasurably.

RECEIVES CHARTER

The High Point Motor Company, of High Point, with an authorized capital of \$50,000 and \$3,000 subscribed by George Wilson and S. L. Davis, of High Point, and Roy Stowe, of Winston-Salem, was chartered today by the secretary of State.

BANK OF DENTON INCREASES ITS CAPITAL STOCK TO \$10,000

At a special meeting of stock holders of the Bank of Denton the capital stock was increased \$2,500 making a total of \$10,000. The bank has been in operation less than two years, and has enjoyed rapid growth, the first year's earnings, less expenses, being about 7 per cent. The most experienced business men and most substantial farmers of county are among the stockholders.

Hook Worm Dispen- saries

The counties of Johnston, Craven, Gates, Bertie and Beaufort have the State and County Dispensaries in operation for the free examination and treatment of hookworm disease. The work in Johnston county is being conducted by Dr. B. W. Page, assisted by Mr. L. H. Swindell, Microscopist; that in Craven by Dr. C. F. Strozier, assisted by Mr. W. C. Riddick, Microscopist; that in Gates county by Dr. T. E. Hughes, assisted by Mr. L. M. Hales, Microscopist; that in Bertie by Dr. P. W. Covington, assisted by Mr. F. W. Connor; and that in Beaufort county by Dr. C. L. Pridgen, assisted by Mr. C. L. Pridgen, Microscopist. The above named physicians are the district directors of the hookworm campaign.

Big Fees

Judge Boyd has issued an order causing the appointment of G. S. Bradshaw and Thomas S. Beall as attorneys for the receivers of the Rhode Island Cotton mills and the Spray Woolen mills, both of which were adjudged bankrupt Tuesday. The receivers for the two mills are J. Elwood Cox and E. D. Pitcher.

Mr. Bradshaw is also attorney for the receiver of the Lilly mills, also of the Spray string for which the American Warehouse corporation was the holding company, and from the three it is estimated that he will receive a fee of \$3,000. In consequence of the big litigation growing out of the Spray failures a number of Greensboro lawyers will receive good pickings, it being estimated that fully \$200,000 will be distributed among lawyers mixed up in the numerous cases and that half of this sum will be scattered about in Greensboro.

There are fully a score of local attorneys lined up in the cases, and it is said that one attorney here who is directing the fight of the Marshall Field interests, will receive a fee of not less than \$20,000. The referee, receivers, special master, etc., will also come in for good pickings.

Contract For Belt Line Is Awarded

Southern Spends \$40,000 On Track
Extension—Will Open Up Many
New Factory Sites

The contract for the proposed Belt Line was let today, being awarded to Contractor M. E. Elkin, of Macon, Ga. The route of the track begins near the Southern Car Company's plant, extending in a southerly direction, and passes near the Pickett Cotton Mills and connects with the Asheboro road opposite the plant of the North Carolina Oil Co. The contract calls for the building of approximately one and one half miles of track with 75 pound rails. The work to be completed within 90 days, which will begin at once. Mr. Elkin arriving today with a large force and equipment.

The engineering work is in charge of Mr. Lacy Moore, under Chief Engineer W. H. Wells, of the Southern.

MISS GILMER RETURNS HOME.

Miss Arline Gilmer, of Statesville, who entered the High Point hospital some weeks ago, for an operation for appendicitis, returned today to her home, accompanied by her father.

A GREAT SHOW AT THE EAGLE.

The show for the last half of this week is one of the best that has ever visited High Point.

Mr. Grover C. Rosey, who styles himself "The Black Devil" does a very good singing and talking blackface act. "Curking a Joker," the comedy sketch put on by Al Knight and Miss Edwina Ranson, is a novelty sketch above par. It is out of the ordinary, and a "scream" from beginning to end. The audience showed their approval by giving them a hearty reception.

The pictures are intensely interesting, the Luck of Reckless Reddy Wild West Flirts, Pathes' comedy.
