## War Department Serves Notice On Mexico--Troops Ordered in Readiness

Special to Enterprise.  
Washington, D. C., Feb. 3.—The war department issued orders today warning Mexico that another maneuver camp might be established along the boundary line. This decision to prepare for an armed demonstration followed the disquieting messages from Gov. Colquitt of Texas to Ambassador Wilson, at Mexico City. The administration hopes that the mere threat of such step will be sufficient. Two regiments in San Antonio provided with marching rations and equipments and three thousand men nearest the border were ordered to prepare for the quickest trip possible to El Paso. The three hundred men now at El Paso comprises too small a force to cope with the situation, is the opinion of the department, particularly should the rebels defeat the federal troops in today's expected battle.

## At Auditorium Tuesday, Feb. 6th

### Great Entertainer and Humorist.

Edwin Brush, magician, has come near disproving Lincoln's famous saying by fooling all of the people all of the time for the last half dozen years, and the people seem to enjoy being fooled, in this way at least. A good magician is popular always and Mr. Brush is plainly in that class.

Those who enjoy a wholesome, forget-your-troubles entertainment should make it a point to see and hear Mr. Brush. He believes heartily in the mission of mirth and holds that a laugh is no less sacred than a tear.

Mr. Brush comes with but one assistant, but he brings with him a large quantity of baggage and stage settings that will please the eye and add to the attractiveness of the entertainment.

## MOFFITT FURNISHING CO. TO MAKE CHANGES.

Mr. Moffitt tells the Enterprise that owing to the increasing demand for ready-to-wear goods that they are going to enlarge their lines of ready-to-wear garments and millinery by devoting more time and capital. The small room now occupied by them will be given up March 1 and all goods in this store room transferred to the larger store. Extensive improvements will be made. Up-to-date millinery and garment cabinets will be installed in which to show these lines. The adjoining store will be made modern in every respect.

## The Approaching Banquet

Those having in charge the arrangements for the annual banquet of the Manufacturers Club which will be held at the Elwood hotel on the night of February 22nd are busy with the details of the event and will be ready to report to a meeting of the board of governors which will be held Monday night. Seats will be prepared for at least 150 people. Incitations have been sent to 50 prominent citizens in and out of the state. This occasion is one in which every member is highly interested and to which he looks forward to with much pleasure. All necessary information will soon be given to members by Mr. C. F. Tomlinson, secretary and treasurer of the club either individually or in a general meeting. The various committees will be announced first of next week.

## A Great Year For Business

The question is frequently asked about the prospects for business during 1912, and to our way of observing, we cannot see anything but the brightest prospects for practically all lines. Any dull season that might come after a sharp decline of a great product, soon passes away as the people come to an agreement with themselves that conditions are settled. There is an upward tendency in all lines of business in the South and nothing short of a general panic can lower it. The people are ambitious, hopeful and are becoming more industrious which state brings about producers and consumers on a satisfactory basis. All that a man has to do in the South today is to know how to do business and have the willingness to push it.

There never has been the opportunity in the South as there is today. But you want see it if you listen to pessimists.

## IN THE SOCIAL REALM

(By I. I. P.)

### Mrs. William C. Jones Hostess.

Tuesday afternoon Mrs. W. C. Jones was hostess at the regular bi-monthly meeting of the W. O. T. Club. The crisp new books were exchanged with eagerness and the game of dominos played with unusual zest. The scores ran very high, but Miss Blanch Bradshaw came out ahead, and was presented with a double jardiniere of embossed bisque clay filled with budding bulbs. In serving the delicious fruit salad course, the gracious hostess was assisted by Mrs. W. C. Beavens. Those present were: Mesdames Alvin Parker, Cyrus Wheeler, W. C. Idol, A. S. Caldwell, Jr., T. J. Gold, J. A. Lindsay, J. H. Tate, Misses Mary Alexander, Blanche Bradshaw, I. Irvin Paylor.

### Music Department.

The Music Department of the Woman's Club won for themselves many new laurels Wednesday afternoon, when they entertained the entire general club.

The meeting was presided over by Miss Blanche Shattuck, the chairman, who was also pianist for the afternoon. The first number was a vocal number, "I Would That My Love," by the department's quartet, Mesdames Kephart and Shipman, and Misses Boyd and Idol, and the second a solo by Mrs. Kephart.

The main feature of the program was a lecture, or to term it more properly, a personal glimpse of famous musical artists of the present day, by Prof. A. S. Hill, director of music in the State Normal College of Greensboro. Prof. Hill is a man of strong and attractive personality and unlike many traveled and lectured men, he is wholly unaffected, and he held the interested attention of his hearers for over an hour as in a well modulated conversational voice he told them of the personal history of the great musicians of the present day.

Beginning with four famous conductors whom he has known, he gave an intimate personal view of the appearance and characteristics of Randegger, under whom he was a pupil for four years in London; Hans Richter, the great conductor of Wagnerian Opera, Anton Seidl and Emil Pauer, the last two of whom are familiar figures to the people on this side of the Atlantic.

Then he spoke of several composers who were his personal friends. Notable among these were Toste, who wrote the familiar song, "Bid Me Good-Bye and Go," and Humperdinck, the composer of Konigs Kinder, which was produced in New York recently with Geraldine Farrar in the title role of the Goose Girl. Mr. Hill has travelled extensively and has had actual experience as an opera singer, so that his reminiscences were entirely of a personal nature. He told many amusing and interesting stories of his connection with famous artists. His first appearance was made with Mme. Adeline Patti, who called him "the big burly American," because in his nervousness and stage fright he stepped on the prima donna's train. Nordica, the de Reskes and Mary Garden are all personal acquaintances, and as Prof. Hill told of them his hearers felt that they were in reality taken behind the footlights where they met the great artists face to face.

Mr. Hill closed his lecture with an appeal to Southern women. He said that the hope of America in a musical way lies in the South and as the North is so cosmopolitan and so little representative of the typical American,

the South should step to the front as representing the typical American in music. It is not often a man of Prof. Hill's wide experience and culture comes to High Point and those who heard him were indeed fortunate, and are most grateful to the music department for making it possible for this elevating pleasure to be theirs. The department deserves the praise of each club woman for making their first appearance in public one of undisputed success. Possibly no other department would be entitled to quite so much glory, even should the success be quite the same, for mere reason that this department was organized in the vacation time, after many of the other departments year's work was planned. Then another thing the chairman and many of the prominent workers have other duties that must come first. During the social hour that followed light refreshments were served.

(Concluded Monday.)

## STORIES OF SUCCESS

J. M. STUDEBAKER  
From the very first the subject of this sketch understood the difference between being a clerk and a capitalist. To the goal of success the sturdy blacksmith struggled on and on until he stands forth today as one of the great captains of industry of the world. In a wagon built by his own hands he traveled overland to California at a forty-sixer, and on his return invested every saved penny of his digging into the gigantic wagon business which today spreads its name world wide.  
A'ways and always he saved for some new investment, realizing in the full that wealth must have new vitality.
