

## If You Were an Expert, What Car Would You Buy?

The time has passed when automobiles can be sold to you on their appearances or claims. This is a day when you and every purchaser must be shown what the car for which you pay your money will actually perform; what it will do. Beware of an automobile salesman who attempts to beguile you with a pleasing story. Tell him to show the goods and *prove* to you that his cars are worth the money. Find out whether his car is a real car or only an assembled automobile built to sell.

You have a right to your money's worth, but it is up to you to see that you get it. Deeper than all appearances, there are a few expert tests which ought to be applied to every car.

Who makes the car? Is it an assembled car or made from top to bottom by one manufacturer? What kind of a guarantee is on it? Does the manufacturer respect his own product with a real guarantee, or does he want you to take the chance? What do parts cost you and how conveniently can you get them? How many cars of this make are in service and how many are giving satisfaction? Questions like these go deep into the heart of the case, and if you put them rigorously upon any car you will find out with a certainty whether or not that car is worth its price.

We are selling Studebaker E-M-F "30" and Flanders "20" cars because we know that, dollar for dollar, their equal is not sold in the market today. The records of many thousands of cars in all kinds of service have convinced us absolutely. Studebaker E-M-F "30" and Flanders "20" cars are built to run, and because they run they sell. If we cannot prove to you under the most searching test that Studebaker cars are absolutely the best automobile values in the market, we do not want your business; but we *can* prove it, and your neighbors who drive these cars will tell you the same thing.

Be an expert when it comes to buying a car. You can, by getting from us some further ideas on real tests of an automobile. Clip the attached coupon and send it to us now because we have something new to tell you which you ought to know, whatever car you have in mind.

## Telegrams and Cablegrams May be Sent by Telephone

**ANOTHER STEP FORWARD**  
**THE TELEPHONE AGAIN SUPPLEMENTS THE TELEGRAPH**

At night, on Sundays, or on holidays, when your local Western Union office is closed, or if there is no Western Union office in your town, you may send a telegram or cablegram to any part of the world, even to ships at sea, by forwarding it by Long Distance Bell Telephone to the nearest "all night" telegraph office, and by paying the usual telephone toll charge.

To do this simply call "Telegram". The operator will connect you with "Long Distance" who will give you the telephone charge. If you are a Bell telephone subscriber the cost of both the telegraph and telephone messages may be charged to you, or to the addressee.

Telegrams addressed to you will be read to you over the Long Distance telephone by the Western Union company when your local telegraph office is closed, or if there is no Western Union office in your town, if you will pay the telephone toll from the nearest all night telegraph office.

This charge will be small since a number of additional "all night" telegraph offices have been opened to care for this service.

The telephone company, however, undertakes only to place the subscriber in communication with the telegraph office—it assumes no responsibility for errors in transmission.

**TO TRANSMIT TELEGRAMS BY TELEPHONE SAY "TELEGRAM".**
