STORIES OF SUCCESS

CORNELIUS N. BLISS

Power is never very far from us. The vigor of the human mind quickly appears when there is no longer any place for doubt or hesitation. In after years, when the name of Cornelius N. Bliss was one to inspire respect from New Orleans to Boston, he acknowledged that the necessity to make not only his own success, but to provide for a large family of brothers and sisters, gave him the sense of thrift to which he attributed the realization of his dreams.

When the opportunity was given him to make a small investment in his employer's business, this boy of eighteen was ready. Constant saving and careful financing developed the young clerk into the master merchant of his day. System in saving brings independence. Push, pluck and perseverance are as strong as an army when backed by the battery of thrift, industry and economy. Start a savings account today, for it is what you save that counts. A dollar in the bank is worth two in the pocket, and the interest on it grows and grows. **WACHOVIA BANK & TRUST CO.**

GIVING HIM TAFFY.

may please him, but try serving him a dinner without ice and see how quickly his demeanor will change. It is annoying to the housewife to be without plenty of ice during the warm months. No iced deserts or toothsome ice cream, no crisp vegetables or tempting butter without good ice. Let us serve you—we do it at a fair price. The quality of our ice and system of delivery is the BEST.

Special to Enterprise. Washington, D. C., July 8.—Formal demand that Judge Robert W. Archbald, of United States Commerce Court, be impeached for "misbehavior and high crimes" and misdemeanor was made to the House of Representatives by the judiciary committee in exhorting phrases the committee declared Archbald's "sense of moral responsibility has become deadened" and that he has prostituted his high office for personal gain. Thirteen articles of impeachment were presented in the resolution committee report on investigation. It bristled with bitter denunciations of Archbald.

EQUITABLE'S PROMPT PAYMENT OF LARGE CORPORATION POLICY

Mr. S. Bryant, special agent of the Equitable Life Assurance Society has just shown us the following telegram: "Charlotte, N. C. July 6, 1912. "Jamison \$50,000 corporation policy delivered June 25th. He was instantly killed June 28th. Check dated July 3rd paid his corporation July 5th. J. P. Quarles & Co., Gen. Agts."

More Belt Line

Upon the completion of the grading of the one mile of Belt Line from the Pickett Cotton Mills to the Mattalic Bed Co., by the Southern Railway Co., the company has now decided to add another very important link to the line, forming a wye. This will call for an additional track-ledge of about 1200 feet and an additional expenditure of some \$10,000. By this arrangement and the forming of the wye all the incoming Asheboro trains can enter the city by way of the Pickett Cotton mills and go out by way of the old route. The rights-of-way have all been closed with property owners along the route, and the grading will begin at once.

Great Demonstration

The demonstrations of cooking with gas which have been going on for a week under the supervision of Mrs. Whitted closed Saturday evening. Hundreds of people, mostly ladies, attended these demonstrations and are highly pleased with it.

The prize of a thirty dollar range fell to Mrs. M. J. Freeman, being drawn from the box by little James Turner. These demonstrations had the effect of showing the people what a great advantage in every way it was to use gas for cooking and the company placed a large number of orders. It is necessary to give yours if you expect to use gas at all so that the pipes may be run on the street on which you live. If this is done now it will save much trouble.

The show rooms will be open from 7 a. m. to 10 a. m. next to Home Bank for the convenience of those who may wish to see the ranges.

You will be sure to use gas sooner or later and it will be of advantage to consult the demonstrators now.

NOTICE. The Enterprise office has had quite a strenuous time day and night for sometime. This week we are putting in some new machinery which requires a general re-arrangement of the office. The job department will be in operation about all the time during the week, probably tomorrow, but we will have to miss an issue of the paper at least on account of moving our linotype machine. All telegraphic and special news will be bulletined.

Mr. and Mrs. Zollicoffer have moved into their new home. It is a beautiful little home and they are to be congratulated.
