Some people can't distinguish between density of judgment and bad habits.

President Taft is-now a tenant at sufferance till March 4.

SOUTHERN APATHY

A contemporary wants to know why Americans should seek homes in Canada when there is an empire of fertile land awaiting them below Mason and Dixon's line. The question has been variously answered, but the truth seems to reside in the fact that in some sections the South they make no special effort to attract immigration. What is worth having is worth working for, but the South holds to the policy of the farmer who was too lazy to go after his cows, but sat down in his ten acre lot and waited for them to back up and be milked

NOT SO BAD AS IT LOOKS.

There were frequent fluctuations in the stock market last week, and in many issues, we are gravely informed "that new high levels for the year were established on call loans." The continued marking down of values and increased interest rates were accompanied by a more intense degree of apprehension than has existed at any previous time during the year. The investing pub lie and the speculative interests often committed to the bull side have been forced out of the market till after the great crops are moved.

In the mercantile trades, for ex-

ample, during last week of flurry and worry, "business got back into its customary lively swing.' There were "good shipments of lumber and an improving movement in coal." "Collections were reported satisfactory in all lines." There was an increase of nearly \$10,000,000 in the surplus of the banks. The cotton market ad vanced. There was "increased activity in oil," "A prominent Wall Street banker and a Woodrow Wilson advocate "believes that the market will show a distinct improvement from this time on," and "within the last few days there have been more inquiries, if not actual orders, from outsiders regarding the intrinsic value and market possibilities of considerable number of standard as well as the so-called lowpriced railroad and industrial issues than has been noticed at any time since the severe decline in prices started some months ago."

All of which is very interesting to the tender-foot (?) business world of the south which is not worrying anyway-because the country was never more prosperous and somehow or other it will work out with its credit unimpaired and its "securities" worth all they can earn.

OUT HERODING OLD HEROD.

It recently developed in a neighboring state, that a corporation lawyer already holding a large retainer from one public py and comfortable, for we know utility company, accepted a like not when ours may be in same retainer for a year's service from a public utility company which the cheerful giver. was in opposition to the otherin other words he put himself in a position where if one of these companies stied the other, he would be on both sides of the question-holding money paid adults, 25c. him for one year's service from both defendant and plaintiff. In order to lift this charge of duplicity and hypocracy towards the public, the attorney, plead that though the people thought that the two public utility companies were opposing each other, one held preferred stock in the other, and that he was virtually representing one corporation-one interest.

Naturally enough the bar association of his own state took the matter in hand. The two util- 11-27-6k

ity companies to save themselves from the people denied that they have the same mutual interestwhile the attorney swears that he was given to so understand. The disbarment of this crook, which of course took place, was justly applauded by the general public in behalf of the honest citizenship of the community.

RED CROSS SEALS PROVIDE FRIENDS IN NEED

A large, rugged-looking man stopped before a Red Cross Seal booth "and looked at the display of seals with more than usual in-

And those will help the folks that are suffering with consumpthat was the idea.

"Then," he said, reaching down in his pocket, "here's where I get some seals. My wife," he explained, "died the year after we were married. She died of consumption. We were so happy, and I had done everything I could for her, but I didn't have much money then, and times were hard, I lost my job, too, because I got to work so late. You see, I had the housework to do, and that took a lot of time, and they docked and finally fired me. I couldn't blame the company, but it was pretty hard. Right in the dead of winter, too! I could not get her the things I would have liked to, and there was no one to help me. Not a soul, for I was a stranger in a strange city, and so was my wife. She died in the spring," he added, ts a tear trickled down his face. "And now I'm going to buy some of these seals so some other poor fellow can get help if he needs it like .I needed it." And he did.
