New York's "Underworld"—Again Laid Bare—Startling Confession

SHEA CONFESSES DESPITE SYSTEM.

"Higher-Ups" Lose Bitter Fight to Silence Gambler-Collector.

New York, Feb. 26.—Agents of the System who last Saturday afternoon persuaded Ashley Shea gambler and gambling collector, to silence yesterday lost their battle when the prosecutor obtained a full confession. Shea had intended to tell everything he knew last Friday because his wife had urged him to it. When he went to the office of the District Attorney that day he promised he would go before the Grand Jury with his story on Monday.

Next day, when the news of his "squel" arrangements was told, the system—that is, the Harlem branch of it—pulled every wire and exerted every influence at its command to head off Shea.

"Don't fall for Whitman's arguments," said one of two men who visited him—a man he believes to be a policeman—"don't let him bluff you into the idea that he has anything on you. He couldn't convict you in a thousand years. Hold out, and you will see that he can't do a thing."

Shea, despite the pleas of his wife, decided to revoke his promise to the District Attorney. When the time for his appearance before the Grand Jury came Monday he refused to fulfill his planned part in the proceedings.

"You can't frighten me," he defied Whitman. "Why, you can't even indict me. There is nothing you can prove on me. Even if you do stick an indictment on me I have good friends who will bail me out. Take it from me, I won't spend a single night in jail."

"We will see about that," said the District Attorney.

The gambler did see, and in less than an hour after he had given his dare. He stepped behind Captain Thomas W. Walsh, who had gone into court to plead guilty, to answer to an

indictment for bribery. His counsel stood beside him. Louis Friediger, and sought to have the bail fixed at \$500, or at the most \$1,000.

The District Attorney demanded that the bail be set at \$10,000, and it was to this figure that Justice Goff agreed. Shea went to the Tombs in the expectation that his friends in Harlem would be able to have him bailed before supper.

System Fails to Rescue. But \$10,000 seemed to be far in excess of what the System could raise, and Shea spent Monday night in jail.

A NEW EDUCATIONAL FEATURE.

The great terminal station in New York promises to be educational as well as ornamental. In one of the great vaulted rooms there is to be presented a section of the heavens as seen during the months from October to March, or from Aquarius to Cancer; sweeping across the ceiling from east to west are two broad bands of gold, representing the ecliptic and the equator; the figures and signs are in their relation to one another, and to the ecliptic and the equator, and as nearly as possible astronomically correct, and will extend on a segment of a circle across the entire ceiling. The signs of the Zodiac will be given progression, so that the wayfaring man, though he run, may acquire a knowledge of the heavenly bodies.

Mass Meeting

ARCHDALE WANTS CAR LINE.

There was a meeting at Archdale last night for the purpose of encouraging the building of a car line to that attractive village. We understand that the people of that entire section are interested in the movement and will give it substantial aid.

We would like to see the car line extended in that direction, through Archdale and on to Trinity.

The meeting last night was very enthusiastic. Dr. Dred Peacock made a speech which was highly appreciated and very much enjoyed. At the close on motion of Dr. Tomlinson, Dr. Peacock and J. J. Farris were made honorary members of the Archdale Municipal committee.

Relief from Exorbitant Rates

Victory Due Largely to E. J. Justice—He Has Urged the War Since Glenn's Administration 8 Years Ago.

Raleigh, Feb. 27.—The legislative committee and the corporation commission accepted the proposition of the railroads in the matter of freight rates because the solution proposed will give the North Carolina commercial interests absolute control of all territory in this state. Col. A. P. Thom, general counselor of the Southern Railway, speaking for his and the other roads, offered to discontinue the shipping of freights from western points through North Carolina to Virginia cities, these shipments being routed a different way.

The present local rates from Virginia cities to North Carolina points will be retained, but the state will get a lower proportional rate from western cities—that is, North Carolina points will pay the same proportion that Virginia points pay. This will make it impossible for Virginia jobbers, paying the local rate into North Carolina, to compete with North Carolina jobbers who get their shipments proportionately as cheap as do the jobbers of the old Dominion.

The details of the agreement are to be worked out in conference. It is considered a victory for fair rats and will correct the chief cause of agitation. The corporation commission already has suits before the interstate commerce commission to correct this abuse, but it is hoped the matter will be decided before the cases would come to trial.

The Raleigh school commissioners have decided to erect in Glenwood, a popular residential suburb, a 25,000 school building, as fire-proof as possible. The contract will be awarded soon.

FIRST BRICK LAID

A large force of hands began work today on the new Crown Hosiery Mill building. The building will be of best mill construction, and will be a type of building creditable to the town.

One of the attractive arrangements for Ither Goose on Friday night is the using of colored lights on certain tableaux. These are furnished by Mr. C. C. Muse.

SKATING RINK

Parties have opened the Pickett Warehouse for a first class skating rink—new skates have been ordered and a full supply will be on hand for all. The building will be comfortable and will be well lighted. Free to ladies tonight. Admission to gentlemen, 50c. Skate tickets 15c.

Can teach you to transpose your music easily.—Mrs. D. L. Clark.

Much speculation has been indulged in as what the Kress Bros. would do with the desirable piece of property on South Main street near the post office, which they purchased from Mr. J. Elwood Cox a few months ago. This lot fronts about 50 feet on Main street and about 40 feet on Rankin street, making it very desirable for any high class business.

The Enterprise is pleased to know that the owners have decided to build at once. Mr. Cox received a letter from Mr. Kress to that effect this week.

This will make the last of the old buildings on that block to go and nearly half of it has been built up within two years. With a few more improvements which are contemplated the block will be one of the most attractive in the state.

It is also highly probable that this class of buildings will continue to come down the street on the Ragan property which is now on the market.

Local Briefs

The inauguration rates go on tomorrow the 28th. See about your reservation in advance.

GENERALS PROMINENT IN MEXICO CITY COUP D'ETAT

The photograph at the top shows General Blanquet and his famous "Death's Head" battleflag. General Blanquet and his force of 1,200 men had been fighting in the outskirts of the capital during the early part of the nine-day battle, but returned to the National Palace ostensibly to reinforce Huerta's troops. In the centre, wearing a straw hat, is General Huerta, who was in command of the forces at the National Palace when Madero was deposed. General Huerta is one of the higher-class Mexicans and owns valuable ranch property. He was born in the state of Chihuahua some fifty-six years ago, and at the age of seventeen entered the military academy at Chapultepec. He has always been loyal to the federal government, and opposed Madero when Porfirio Diaz was president. At the top is shown General Aubert, and at the bottom General Castro, who were prominent factors in the Mexico City campaign.
