All American Delegates Refuse to Bind Nation to Arbitration

ENGLAND INSISTS ON ACTION AT THE HAGUE

London, Jan. 13.—The International Conference on Safety of Life at Sea, which has been sitting here since last November, is in danger of splitting on the same rock that wrecked the first international commission to settle the Alaskan boundary dispute in 1899.

In the boundary case the American, Canadian and English commissioners foundered on the question of arbitration, and the same disturbing element menaces the fate of the present commission.

With the Panama tolls question in mind, Great Britain has demanded that all disputes under the proposed convention and all violations of the shipping laws shall be arbitrated between the parties in dispute.

(winbetter)

"America Always Wins"

The French and German representatives also opposed this plan on the ground that "America always wins her contest at that Tribunal through the desire of the other nations to preserve peace and harmony with her."

The French and Belgian committees suggest a conciliation board, reserving to America the right to resort to the courts if the results of the board appear to be purposely or violently wrong. This middle ground for a compromise now is under debate, but its progress practically is barred by the American opposition to the arbitration feature, and by the insistence of the United States delegates that any violation of the convention or treaty must be treated by the American courts as a violation of American law, and punished accordingly.

\$13,000,000 Titanic Damage Case Argued

HALF DOZEN MOURNERS OF DISASTER HEAR PLEAS IN SUPREME COURT

Washington, D. C., Jan. 13.—Half a dozen mourners of the Titanic disaster sat in the Supreme Court today listening to arguments on whether the liability of the owners of the ship shall be limited to less than \$100,000 or shall cover full damages aggregating \$13,000,000.

The mourners did not make themselves known, and were unrecognized.

Overman to Insist on Hammer's Appointment

Washington, D. C., Jan. 14.—

As soon as Attorney General McReynolds can get time to talk about the matter Senator Overman will call at the department of justice and further urge the appointment of W. C. Hammer as district attorney for Western North Carolina. The case remains just where it was when Congress adjourned for the holidays. So far as is known no action whatever has been taken by the department and probably will not be until Senator Overman has another talk with Mr. McReynolds. It is not expected, however, that the appointment will be disposed of for some time, probably February.

Senators Simmons and Overman have arranged to see Secretary McAdoo tomorrow in an effort to override the ruling of Assistant Secretary Newton in ordering Collector Wats to reinstate the negro janitor, Fred Chambers, whom Wats dismissed for conducting a tailoring business in the federal building at Statesville. Many telegrams were received from the state today by Senators Simmons, and Overman, protesting against Newton's action in reinstating Chambers. If Newton has his way Capt. Gregory, a Confederate soldier with a fighting record, will be forced out of a job.

HUERTA GOVERNMENT DEFAULT ON INTEREST PAYMENTS

Inform World That No Payments Will Be Made in Six Months—Says He Needs Funds for Pacification—Announcement Astonishes Bankers Here—Diplomats in Washington Are Aroused.

Mexico City, Jan. 13.—The Huerta Government announced today that Mexico will default in the payment of all interest on the bonds of the internal and external national debts which now remains unpaid or which will fall due in the next six months.

The decision was reached in a meeting of the Cabinet which began early last night and lasted until early in this morning.

The foreign government were informed of the decision by the Mexican Foreign Minister, Querida Mohena.

It has been the practice of the Government to make weekly remittances to New York, London and Paris to apply to its interest payment periods arrived the money would be in hand.

These weekly remittances have now been suspended, the explanation being that the Government requires all available funds for pacification purposes.

The principal internal and external loans of Mexico are held for the most part in the United States, Great Britain, France and Germany.

Their denominations and dates of payment of the coupons are as follows: \$48,329,250 consolidated internal 3 per cent silver bonds. Coupons payable on June 30 and December 31.

Ninety-six million two hundred and twenty-two thousand dollars 5 per cent internal redeemable bonds. Coupons payable April 1 and October 1.

One hundred and thirteen million five hundred thousand dollars 5 per cent external consolidated gold loan of 1899. Coupons payable January 1, April 1, July 1 and October 1.

Forty million dollars 4 per cent gold bonds of 1904. Coupons payable June 1 and December 1.

Serious Accident

Miss Grace Royster Struck by Train.

A very serious accident occurred this morning at 6.30 o'clock at or near the crossing at Tomlinson Chair Co.

Miss Grace Royster in crossing the track was struck by the work train, knocked down and received bruises about the face and body. She was picked up in an unconscious condition and taken to the waiting room, where medical attention was immediately summoned. Soon afterwards she was taken to her home and at last accounts was resting easy.

From the best information we could get it seems that Miss Royster was watching one train when the work train on another track, coming close on her struck her.

The attending physicians do not think that there are any permanent injuries, although there is a probability of disfigurement of the face.

CHANGE AT HOME BANK

Col. D. H. Milton, cashier of the Home Banking Co., having resigned, the directors yesterday elected Mr. Crawford of Winston-Salem to succeed him. Mr. Crawford comes here well recommended and we welcome him to the city. Col. Milton has not yet decided the business in which he will engage but his numerous friends hope that he will remain in High Point. Col. Milton has made many friends since his residence in the city all of whom have formed a warm attachment for him. The "old man" is all the boys call him, must remain with us. He is a splendid citizen and we can't give him up.

RECORDER'S COURT NOTES

Arthur Haney was committed to jail in default of \$1000 bond, being bound over for perjury. It was alleged that Haney swore to a false material statement of facts in the prosecution of Logan Chambers, charged with selling liquor.

CONCLUDING HODGIN CASE TODAY

The federal court is still occupied with the suit brought for \$6,000 by John A. Hodgkin vs. the Southern railway. Speeches of counsel will be concluded today and the judge's charge given. Following the suit District Attorney Holton will bring forward the matter of suits filed by the United States on distiller's bonds, which has been held up on account of the present case in court.

ANNOUNCEMENT

Mayor Mitchel of New York Asks Congress \$13,000,000 for Harbor

Death and Suffering in Wake of Blizzard

Intense Suffering Among the Poor—City Lodging House Swamped—1716 Homeless, Some Women, Seek Shelter—Rivers and Bays Frozen Solid. Street Traffic and Shipping Hampered.

New York, Jan. 15.—Death and widespread suffering yesterday accompanied a descent of the thermometer to the lowest level it has reached in fifteen years.

At midnight, the icy blasts out of the west had driven the mercury four degrees below zero.

Not since February 11, 1899, when six below was reached, has this mark been touched.

A chauffeur was frozen to death as he sat in his machine in front of Carnegie Hall, waiting for his employer to come out from a concert. Three other deaths due to the cold occurred in New York city.

Newark Bay, from Bayonne to Newark, except for a narrow channel, was frozen solid for the first time in many years. The Hudson at Tarrytown was frozen. The ferryboat Flushing, putting out of Nyack, was held prisoner for two hours in a huge ice floe, finally making its way back to the west shore.

Great South Bay, from Rockaway to Shinnecock, was coated with ice, stopping completely the great oyster industry there.

A WORD OF EXPLANATION

Mr. Editor: The notices published recently concerning the entrance of children in school at this time of year seems to have been misunderstood. It is very unfortunate if any of the good fathers of High Point think he is not allowed to send his child to school.

I have only wished to discharge what I believed my duty and responsibility to parents by saying that a child who has never been to school before and who is entered into school in the middle of the term does not get the chance he would get if started at the beginning of the next year. But because I think this does not debar any child from school, and if any parent differs from what I think, he has a perfect right to send his child regardless of my opinion. The parent and I both have the interest of the child at heart, but we look at it from a different viewpoint. What I think and what the law allows are quite different, but because the law allows it does not make it best for the child. The law allows many things which are not best for one.

These are public schools, and the parents pay the taxes, and all of them have a right to enter their children whenever they like. I do hope this makes matters clear, and if not I will be glad to talk over the situation with anyone who would like.

Yours very truly,
Thornwell Haynes,
Supt. City Schools.

HOUSE COMMITTEE GIVES HIM OVATION—PRESIDENT'S LUNCHEON GUEST.

Washington, D. C., Jan. 14.—Mayor John Purroy Mitchel, at the head of a delegation of New York shipping men, today urged the Rivers and Harbors Committee of the House to recommend an appropriation of \$13,000,000 to clear the East River channel of all obstructions and dredge it to a depth sufficient to accommodate ocean-going vessels of large tonnage.

Mayor Mitchel was given an ovation when he appeared before the committee. Bursts of applause greeted him time and again. He told the committee of the plan for relieving the congested condition of commerce in New York harbor. He said the idea was to move the smaller vessels up the river and reserve the water in the lower Manhattan and Brooklyn for vessels of deep draft.

He asserted that every foot of water front from the Battery northward could be utilized if the reefs and rocks were removed from the channel. He said the dredging tubes to connect Brooklyn and New York are to be built directly under Counties reef, and unless the Government take steps at once to blast out this reef it could not be done without damage to the tubes.

When the improvements proposed by the Mayor are made, he said, battleships and vessels drawing thirty-five feet of water will be able to leave the East River through Long Island Sound, or by the lower bay, and in the event of a war the Sound would be of immense strategic advantage to the Navy.

W. O. W. INSTALLATION

Thursday evening, January 8, 7.30 o'clock, Piedmont Camp No. 92 Woodmen of the World of High Point, N. C., held their annual installation of officers. The hall was packed with choppers and the following officers were installed: E. G. Barbee, council commander; T. W. Stoner, adviser; lieutenant; J. A. Johnson, banker; R. T. Chappell, clerk; Frank Beck, watchman, and D. E. Andrews, manager.

The ceremony was performed by the outgoing council commander, J. D. Koonce, who had faithfully served the camp eight years.

Mayor Tate in fitting words presented Sovereign Koonce with a gold chain and charm, given by the camp as a token of their appreciation of his faithful service.

Mayor Tate then gave one of his rousing addresses in which he expressed himself as being proud of the record of "woodcraft." Sovereign J. W. Clinard spoke of the growth of the W. O. W. and was followed by an interesting talk from Sovereign Kline of Greensburg, Pa.

The entertainment committee served delicious refreshments and splendid music.

The closing address of the evening was made by Rev. H. C. Byrum, who was at his very best, and entertained us for quite a while.
