Presbyterians Deny Help to Smokers--Bar Tobacco-Using Candidates From Benefits

\$750,000 GIVEN FOR PASTOR'S AID. "Efficiency Men" Denounced For Interference With Church Work.

Chicago, May 26.—Hereafter any college student who smokes will not receive aid from the Board of Education of the Presbyterian General Assembly. The resolution to this effect was affirmed by Dr. S. C. George, of Pittsburgh, and seconded by Dr. John F. Carson, of Brooklyn, and carried by the Assembly amid shouts of laughter today, because many of those who voted or the resolution are themselves inveterate smokers.

The Ministerial Relief Committee reported today that \$750,000 had been collected in the year toward the \$10,000,000 endowment fund authorized two years ago. Unofficially it was said approximately \$3,000,000 had been raised toward the fund, through bequests and gifts.

"You can't raise \$10,000,000 on a ten-cent basis," said Dr. John R. Davis, of Philadelphia to the Assembly. Four thousand Presbyterian churches gave nothing to the work of this board last year."

PRIZE ESSAY.

"President Wilson's Position on the Mexican Situation."
(By Hugh Hamilton, Winner of J. J. Farriss Editorial Medal.)

In regard to the Mexican situation President Wilson is undeniably in favor of peace. But he now begins to see that matters cannot be settled unless by the Niagara Falls mediators—without American occupation of Mexico. Those who are most familiar with him say that he will order the army to remain in Mexico, and fight if needs must be—not so much because of the refusal of Huerta to salute the American flag, but to pacify the political unrets and especially to settle the great land question.

Undoubtedly Senator Williams voiced the President's opinion when he read a letter which was sent him by one in the government service at Vera Cruz, whose signature Senator Williams, tore off. The letter said, among many other things, "By far the noisiest thing in Mexico is the American dollar." Again, in another part of this letter he said, "It would be better for the United States to let those of her citizen who have taken a gambler's chance and lost rest in peace, than for her to declare war with Mexico." He further inferred that it was not the Mexican nation as a whole, but the cruel, insolent leaders, Huerta and Villa, who had caused the outrage against the United States to be committed.

President Wilson said, "It is not Mexico but Huerta with whom we are dealing." He does not think it expedient for us to declare war against Mexico just because Huerta, the wily Indian, insulted the United States.

He declares that the American government will not evacuate Mexico until a stable government is in sight, until the great economic question is settled.

His idea in occupying Mexico is not so much to make Huerta apologize, but to establish a firm, stable government and the Mexicans welcome with joy the coming of the conign of the American army to establish peace and prevent the Mexicans from the intense sufferings to which they are subjected.

The President's motives are of the best possible and he deserves not only praise and honor but the loyal support of all American citizens.

Useful Citizen Passes DEATH OF N. B. BROUGHTON.

Raleigh, May 26.—The news of the death of Needham Bryant Broughton honored business and churchman of this city, stirred deeply the people of Raleigh today noon, he having passed away in a Philadelphia hospital, where he had gone, accompanied by Mrs. Broughton and his family physician, to undergo an operation. The news from his bedside last night had been that Mr. Broughton had undergone the operation satisfactorily and was recovering nicely.

Mr. Broughton was 66 years old had been one of the most useful citizens of Raleigh and of the State. His health began failing something like a year ago and he gave up his active business connections largely, being still, however, the president of the Edwards & Broughton Printing Co., which he and C. B. Edwards established in 1871. He and Mrs. Broughton had planned for a tour of Europe, especially the Holy Land, as soon as his health sufficiently rallied.

\$100,000 Needed For Winston-Statesville Roads

UNCLE SAM'S EXPERT MAKES THIS REPORT.

Washington, May 26.—The government inspector who went to North Carolina to go over the road between Winston-Salem and Statesville upon which the Federal government is going to spend \$20,000 together with \$40,000 raised by Forsyth, Davie and Iredell counties to make a national highway has recommended that the project be not undertaken unless a total amount of \$100,000 is spent on it. Boy Hurt by Auto

Willard Thomas, aged about 12 years, son of Mr. Thomas, who is chief draughtsman for the Southern Car. Co., was struck by an automobile early last night on North Main street and painfully, though not seriously injured.

The boy was riding a bicycle and going in the same direction as an automobile driven by Edward Armstrong. Willard evidently did not know the machine was behind him for all at once he turned to come back up the street, and collided with the car. He was caught under the wheels and dragged for some distance, receiving cuts and bruises on the elbow, hip and shoulder. Dr. Claude Reitzel, who went at once to his aid stated today that with the exception of slight fever there was no indication of internal injury.

We understand the parents attach no blame to the driver of the car.

MORE ABOUT THE RACE PIGEONS.

The 1,500 race pigeons liberated Sunday morning have attracted a good deal of attention here. The pigeons were owned by the Calumet and Monumetal Clubs of Baltimore, who are members of the Concourse Association. Each pigeon had a band on its leg. DEADLY ASSAULT.

Two negro boys became involved in a quarrel this morning with a white man, when one of the negro boys picked up a large part of a brick throwing it at the white man's head. He was only about ten feet off when he threw it and but for a timely dodge the blow would have probably killed anyone it struck, as it made a heavy dent in the side of a building. The assault was a vicious one and the negro should be taught a lesson commensurate with the responsibility of his act.

Revolution For Venezuela

Hernandez Disappears Suddenly From Port of Spain and Rouses Venezuela.

Port Au Spain, Trinidad, May 26.—General Jose Manuel Hernandez, the Venezuelan revolutionary leader, who is known as "El Mocho," disappeared suddenly from here today and is understood to have gone to Venezuela.

Hernandez, it is assumed, to carry out his daring enterprise, took advantage of the temporary absence of the Venezuelan war vessels which had been detailed to watch the coast since the discovery of the presence here of General Cipriano Castro, the former Venezuelan dictator.

The avowed purpose of Hernandez is to start a revolution against the government controlled by Juan Vicente Gomez, who recently temporarily retired from the Presidency to qualify for reelection for another term of four years.

Hernandez, who is regarded as the leader of the National Liberal party in Venezuela, has issued a manifesto from Venezuelan waters urging his countrymen to take up arms against the government, which he charges, is tyrannous.

Hernandez had been here since April 22, when he arrived from New York with the intention of later proceeding to Venezuela.

MR. PATTEN WRITES FROM MASONIC HOME.

Mr. Editor and Brethren:
My text will be found in the 45th Psalm, part of the 1st verse. "My heart is inditing a good matter, my tongue is the pen of a ready writer." This sounds well, and I do not doubt David meant just what he said. The first part of the text is all right, but I never was a "ready writer." It is so hard to write naurally, to know how to make a good beginning, and best of all a good ending.

We have been here in the "Home" now just four weeks tomorrow, but it seems more like four months. We were terribly homesick the first week, there is no use denying it, but we are convalescing now, and I trust out of danger. We are very pleasantly situated and everything is done by Supt White and his good wife, to make it seem home-like to us. The "Home" is a beautiful brick building, modern in every respect, with a good water (Continued to Page 2.)

Spectacular Blaze

Fire on "L" Line 75 Feet Above Ground Halts Traffic.
New York, May 27.—Traffic on the Sixth and Ninth avenue elevated lines was suspended for half an hour yesterday when a fire, starting in a worker's tarpaulin under the rails, threatened to destroy the structure of the station at 100th street the highest point on the system.

The platform is seventy-five feet above the ground there, and the firemen were greatly handicapped. Before it was under control the fire ate away the insulation from a feed cable carrying 650 volts to the third rail, burned a section of the platform and about twelve feet of ties.

A cigarette thrown from the platform on a train on the downtown side started the blaze.

The Delicious Sparrow

When you do not know any other way of getting rid of a pest, eat it! This is the height of wisdom to which the Department of Agriculture has reached in its latest attack upon the ubiquitous English sparrow. "When sparrows are boned, broiled, buttered and served on toast, they are as fine as quail," says the pamphlet. This is an insult to both toast and quail. As food sparrows would be about as satisfactory as the four-and-twenty blackbirds set before the king. And when boned, broiled and buttered, it would take at least four-and-twenty sparrows to add an appreciable weight to the dinner-pail.

The sparrow is an admitted nuisance. It is noisy, filthy, and destructive. It drives singing-birds and other valuable worm-destroyers from the country. Occasionally it is a service in eating insects that feed on crops, but on the whole it is neither decorative nor useful. Yet eating is too noble an end for its ignoble career. And as between enduring it as an unwelcome guest and putting it on the bill-of-fare, most people will be content to choose the present ill rather than fly to those they know not of.

A wise man has said that "Birds that men love die young," and the longevity of the sparrow proves how little real affection is bestowed upon its dun personality.
