High Point Lodge of B. P. O. Elks Carry Away Honors at Winston Yesterday

GREAT PARADE.

High Point Elks did themselves proud in the great parade at Winston last night. One hundred strong, all dressed alike—dark trousers, white shirts and black ties,—carrying torches and fancy umbrellas, they were cheered all along the line. The boys went in to win and carried off the loving cup held by New Bern which was given to the lodge having the greatest number of men in line and making the best appearance. The details of the parade were arranged by A. T. Wishart, O. E. Wilson, Arthur Lyon and others. The arrangements were perfect. Every man was ready and in his place at the proper time and entered the contest with much enthusiasm. Everyone there was proud of the High Point lodge.

The other lodges showed up splendidly and the parade as a whole was highly creditable. Winston turned out en masse to see the boys.

Several of the Elks will go back today to attend the barbecue.

Wants New River Put On Map

Challenges Critic to Disprove Report on the Duvida.

Washington, May 27.—Proclaimed tonight before a great audience of scientists from many cities as "the discoverer of a river in South America 1,000 miles long," Colonel Theodore Roosevelt assured the National Geographic Society that he had put this river on the map, and challenged all the cartographers in the world to disprove his achievement.

The Colonel had appeared before a Washington audience on a previous occasion as an explorer, but never as a discoverer, and he was cheered to the echo as he declared that the cartographers, geographers of all nations were wrong in their maps of the wilds of Brazil, where he found and traced the "Duvida River," or, as now more familiarly known, "the River of Doubt."

The Colonel described in detail the hardships of the trip into the Brazilian wilds, and particularly the hardships endured in navigating the rapids of "the River of Doubt." In the upper part of the river, he said, the rapids were so severe that it required 42 days for the party to traverse one degree from 14.5 south to 10.45 south. During that hazardous trip they lost nearly all their food and belongings.

"Forced to Eat Monkeys." "We were forced to eat monkeys to eke out our rations," declared the Colonel. "Don't shudder for I assure you that after this experience you might leave me in the monkey house without my making any mistake."

Rockefeller and His Ohio Tax

Personal Property There Assessed at \$311,226,347—Most of it in Stocks.

Columbus, Ohio, May 27.—John D. Rockefeller's personal property, on which he will be assessed for taxation in Ohio, is worth \$311,226,347, according to announcement made here today by the State Tax Commission, after hearing from District Assessors William Agnew and John D. Fackler, of Cuyahoga county. Of this amount, \$285,000,000 is alleged to be Standard Oil Company stock.

"So far as we have been able to determine, not a dollar of this amount has been returned for taxation in any other State," said Assessor Agnew in his communication to the Tax Commission. "We have data to show conclusively Mr. Rockefeller's ownership of securities and other personal property for this amount. We expect to see him pay taxes on the amount for which we have listed him."

Rockefeller's taxes at the rate of \$5 a \$7,000 would be \$1,556,137.

T. R. Preparing For 1916

Tells of Plans to Help in Pennsylvania and California.

Washington, May 27.—Colonel Roosevelt, at a conference with forty Progressive Senators and Congressmen at Natooan headquarters in the Munsey building, at 11 o'clock tonight, after a strenuous day, announced formally that he would jump right into the Pennsylvania and California political fights and that so far as was physically possible, he would get around through the country this summer, making speeches and meeting as many different interests as he could.

Colonel Roosevelt went to the conference from the National Geographical Society meeting in the Convention Hall. About 40 Senators and Congressmen attended the conference. The conference was preceded by an informal reception the Colonel chatting with one after another of his adherents. Here is the Colonel's statement:

"I came here to attend the National Geographical Society, but I also wanted to see the Progressive Senators and Congressmen. I feel a peculiar debt of gratitude to them for what they have done under trying circumstances; men who face a crisis are either overwhelmed or grow stronger. You men have been exposed to attacks on both sides; you have won the respect of enemies; I don't even have to feel sympathy for you. You have my admiration and envy. I am greatly obliged.

"I shall take part in the campaign this year. I can't be in nine places at once. Lewis and Pinchot want me to open the campaign in Pittsburgh, and I have agreed. I have also written to Governor Hiram Johnson, of California that if my presence is desired, I will fight for the ticket there. I will do all else I can, but I can't particularize; I want to distribute my speeches around the country; I want to meet as many different interests as possible."

Wonderful Speed

Doux Travels at Near 100-Mile Clip in Setting Auto Race Record.

Indianapolis, Ind., May 27.—Jules Doux, winner of the 500-mile auto race here last year, broke the record for one lap at the motor speedway this afternoon, when he circled the two and a half mile course in 1 minute 31.71 seconds, a speed of approximately 98.13 miles an hour. In performing the feat Doux beat the records set earlier in the day by Teddy Tetzlaff and Joe Dawson.

The French driver had declared several times during the last week that he could make the circuit in less than 1 minute and 32 seconds, and refused to attempt it in his practice spins, but in his first trial in the elimination laps he sent his car straight away at a speed estimated at 118 miles an hour, the fastest that has ever been seen here.

Rev. Sam Small Sunday Night

Noted Lecturer Coming.

Rev. Sam Small has been secured for an address in High Point on Sunday evening, May 31st, at 8 o'clock. Enough said—he ought to have a crowded house. Dr. Small is one of the most ardent prohibition supporters in the whole nation, in fact many like the late President McKinley think him unsurpassed in this field of leadership. He will speak here on National prohibition, a subject which just now ought to enlist the interest of everybody, whatever individual views may be entertained.

The address here will be given at the Graded School Auditorium, and the churches of the city have agreed to unite together in the service at the school, so that all may have the privilege of hearing a man of whom the Washington Post says: "There are not half a dozen men in the country who are equal to him in popular power as a public speaker." There will be no admission charged. Everybody is invited, and everybody interested is asked to assist in advertising the meeting.

The following is from the Detroit Free Press: "Those who heard Rev. Sam Small at the Auditorium yesterday afternoon were held spellbound by his powers of logic, wit and earnest eloquence. He quickly finds the seal level of his audience and then he moves it to tears, laughter or applause at his will. Perhaps the liquor traffic never before, in Detroit, received a more drastic going-over than it got in Dr. Small's speech."

Don't Be Deceived by Cancer Cure

Board of Health Deprecates Too Much Faith in Radium.

New York, May 29.—"Cancer as a Menace to Public Health," is the title of the Department of Health's monthly bulletin, which will be placed in general circulation today. Among other warnings, it urges the public not to place too much faith in so-called cures by radium.

"X-rays and radiums often are valuable adjuncts to surgical treatment," the bulletin says, "but alone they are useful only in the skin cancers and other superficial forms."
