HAT IN THE RING.

It is quite apparent now that Colonel Roosevelt's visit to Washington was for the purpose of beginning the Progressive campaign. Without him the party can make little progress and no one knows it better than he. He will take the stump ostensibly in behalf of Pinchot and others of his trusted lieutenants and inaugurate a movement for his own nomination two years from now.

The Democrats had just as well realize that Roosevelt is the man they will have to cope with and that he is the one factor in the Republican party who carries great strength. The masses of the people have never lessened their ardor in his behalf. They became a little shaky on him at one time but he has been able to demonstrate, as in the case of Woodrow Wilson, most of the tight on him has come through the interests whose affairs and methods he has antagonized. He is the only hope of the Republicans and has gone to work with the approval and good will of the rank and file of his party.

The National organization of of the T. P. A. will make no mistake in electing our esteemed townsman, C. F. Tomlinson, president of that organization. He can fill creditably any office to which he may be elected. He is unassuming and modest but he has an executive equipment of the higher order and equipment counts.

USEFUL OCCUPATION.

At the recent meeting of the Board of Examiners, 87 young women applied for licenses as trained nurses. This profession is proving advantgaeous to women who desire to make their own way in the world and at the same time be of great use to the human race. A graduate nurse is well paid, the salaries being far above the average as compared with other lines of work open to women. It is very significant that the number of gradnates has increased so largely during the past few years. We cannot have too many-the way is open for those who really master their profession.

The local lodge of Elks certainly put High Point on the map yesterday at Winston.

President Arthur Lyon seems to come in for criticism lately, but he notified the clubs and the public in the beginning that he was going to have clean ball and a square deal all around. The question of fines is not for public discussion. That is a matter best decided in private among the officials and the teams. The public is interested only in good, clean ball and not in the management of the league.

We are satisfied, knowing Mr. Lyon as we do, that if any member of the League thinks he has been unjustly treated, he can get fair treatment at the hands of Mr. Lyon.

THE EDITORIAL MEDAL.

As was stated in a general way Tuesday, the editorial medal was won by Hugh Hamilton with two other contestants close seconds. This is one of the most difficult medals to win-in other words it requires general reading on current topics. No contestant has the least idea what the subject will be when he enters the contest, therefore those who contest will necessarily keep posted on all. Then the time limit for writing the editorial will teach readi- Prices are all right, too.
