School House Burns

Cause of Fire Unknown. DeLane Academy, five miles northeast of the city, was burned to the ground last night about 8 o'clock. Fire was discovered in a closet. Some think it was set on fire, others that rats got hold of a match. A corn shucking was in progress nearby at the time and consequently a crowd soon gathered. The library and individual school books and a few benches were saved. The organ was destroyed.

DeLane Academy is known far and wide. Years ago a high school was conducted there and some of the finest singing classes were conducted by the late Prof. Davis and others. It was a two-story wooden structure, 30x40 with porches, nicely painted and otherwise a model rural school.

Built in 1902, it was the first graded school to be erected in Guilford county. Miss Parish was the teacher in charge. There was \$500 insurance on the building. Mr. Will Horney, one of the committeemen, thought it quite likely that another building after the "State school" plan would be erected just as soon as the committee could get together and the insurance adjusted, so as to again open the school by the 10th of January, 1915.

W. L. Stamey, who happened to be at the home of Mr. A. C. Davis, saw the blaze and went to the fire in his automobile with Mr. Davis and he gives the Enterprise an account of same

Boston, Nov. 13.—The old plantation songs, "My Old Kentucky Home," "Oh, Susannah," "Massa in de Cold, Cold Grounds," are insults to the negro race, according to speakers, both negro and white, who appeared today at a hearing before the School Committee.

As a result of their protest, the committee voted immediately to withdraw from the schools a book of forty songs recently compiled by the musical director. The objections to the songs were based partly on the use of the words "darkey," "nigger" and "coon."

England Calls For Men and Money

England Asks Additional 1,000,000 Men and Issues \$1,000,000,000 War Loan.

London, Nov. 13.—It is reported in the parliamentary lobbies that Premier Asquith will on Tuesday ask parliament's sanction for the raising of one million additional troops for the purpose of war, thus bringing the total up to 2,200,000 men.

Much interest is shown in the financing of the war. It is understood that the government intends to issue a war loan of \$1,000,000,000 or more probably at 4 per cent and redeemable within ten years.

It is estimated that Great Britain is spending \$35,000,000 weekly on the war.

Opposes Civil Success For Europe

Los Angeles, Cal., Nov. 13.—While efforts were being made to raise funds here to succor the war victims of Belgium, Dr. Milbank Johnson, president of the Municipal Charities Association published a statement today declaring that relief sent to Europe meant prolongation of the strife and suggesting that charity should begin at home.

"Scientific methods of war," said Dr. Johnson "as exemplified in Europe, have brought to the combatants realization of the potency of suffering women and children in compelling the conqueror to sue for peace. If Europe is determined upon a war of extermination, relief efforts may only prolong hostilities."

"War in Europe has thrown thousands in this country out of work. The consequent suffering and privation are appalling. Charity should begin at home. Has it occurred to many who eagerly hearken to Europe's cry that they have not contributed to the relief of our own unfortunate?"
