

## WILSON VETOES IMPORTANT MEASURES

### KILLS AGRICULTURAL BILL WITH RIDER REPEALING THE DAYLIGHT SAVING SCHEDULE

### ALSO VETOES BILL WHICH PREVENTED AID TO SOLDIERS

Will Now Be Necessary to Repass Bills Without Features to Which President Objects or to Get Two-thirds Vote to Overrule Veto.

### SEEMS HARDLY LIKELY THE BILLS WILL PASS

Washington, July 12 (By Associated Press).—President Wilson today blocked the repeal of the daylight saving law by vetoing the agricultural appropriation bill carrying a rider for that purpose and at the same time vetoed the sundry civil appropriation bill because it would limit the appropriation of money for rehabilitation and training of disabled soldiers.

Both important supply bills carrying millions of dollars urgently needed in government activities and already long delayed by failure in last congress must now be repassed without the features to which the President objected, or repassed in present form over his veto by a two-third vote in both houses, which today seemed unlikely.

Special religious services Sunday will officially bring the exposition to a close.

### YOUNG MEN START DRIVE ON MONDAY

Every citizen of High Point will during the coming week have a chance to contribute towards the fund to equip rooms with Y. M. C. A. apparatus for the use of the young men of the city. If perchance, owing to the small number of workers, you should be overlooked, your contribution will be gladly accepted either by Carl Farris at the chamber of commerce or L. C. Furgerson at the Enterprise office. The cause is a worthy one and deserves the support of every one solicited.

The work contemplated is here outlined again, in order that there may be a no misunderstanding as to what will be done if sufficient funds are raised. The rooms will be in the basement of the First Reformed church, but will have no direct connection with the church, it being an absolutely interdenominational movement for the benefit of the boys and young men of the city as a whole. The hut will at all times be open to the public in general and all baths and games installed will be installed for the use of all men of whatever religious belief.

As to the exact equipment to be installed that, of course, depends upon the amount of funds raised, and it is hoped for this reason that every penny asked will be raised in order that the equipment may be as complete as possible.

The drive starts Monday and every contributor of \$5 and over will have his or her name inscribed on the honor roll that will have a permanent place in the rooms. Every dollar will help and it will be appreciated as much as the larger donation. A full list of donors, if it is possible to compile them in time will appear in next Saturday's Enterprise.

### REVISED FREIGHT RATES SOUGHT BY SOUTHERN STATES

Important Hearing, Arranged by South Atlantic Maritime Corporation, to Be Held at Washington, Railroad Administration to Hear Petitions.

### EQUAL RATES WITH PORT OF NEW YORK WANTED

Washington, July 12 (Special to The Enterprise).—What is considered by many to be the most important rate hearing in the history of the new south, if not of the entire country, is scheduled to take place in this city July 15.

On that date, a concerted effort will be made by influential southern and middle western commercial forces to persuade the railroad administration to so revise freight rates from the middle west that the South Atlantic and Gulf ports can secure their share of business in competition with favored New York. If the railroad administration grants that request, and it is said that the administration is by no means prejudiced against it—the South Atlantic and Gulf ports will experience, it is predicted, an unprecedented boom. Shipping will crowd their wharves, and the hinterland immediately behind them, like the hinterland about New York and other big shipping centers, will share in that prosperity.

This hearing has been arranged by the South Atlantic Maritime corporation—the quasi-public organization formed by the five ports of Wilmington, Charleston, Savannah, Brunswick and Jacksonville and backed by the states of North Carolina, South Carolina, Georgia and Florida—in cooperation with representatives of the Gulf ports headed by William Allen, of New Orleans, who represents in Washington the city of New Orleans in its new policy of aggressive commercial expansion. The hearing will be attended by representatives of practically all the influential southern and western chambers of commerce. The latter are especially interested in securing additional gateways for imports and exports so that they need no longer suffer from the periodic traffic congestion which obtains in the famous "neck of the bottle," the approach to New York.

The specific request filed with the railroad administration is that freight rates should be so adjusted that points west of Pittsburgh, like Ohio, Indiana and Illinois, can ship for export as cheaply through the Gulf and South Atlantic ports as they can through New York. The plea will be heard on behalf of the administration by Edward Chambers, director of the division of traffic, and Max Theiler, director of the division of public service. It is expected that the principal arguments will be made by Judge Harry Covington, of Washington, general counsel for the South Atlantic Maritime corporation, and Luther M. Walter, of the firm of Borders, Walter & Burchmore of Chicago. In addition Senators Ransdell of Louisiana, Fletcher of Florida, Simmons of North Carolina, Hoke Smith of Georgia, and others will also participate.

The hearing is scheduled for 10 o'clock on the morning of July 15 but there will be an important conference of the delegates at the Hotel Willard on the previous afternoon, at (Continued on Page 5.)
