

EITHER UPHAM OR HAYS LIED ABOUT FUND ASSERTS COX

Hays Either a Perjurer or Upham a Falshier Asserts Democratic Candidate

ASKS HARDING QUESTION

Wants to Know if Opponent is Opposed to U. S. Having Moral Obligation

MILWAUKEE, Wis., Sept. 4.—Invading Wisconsin on the second day of his western tour Governor Cox today continued his attack on republican campaign contributions and his discussion of the league of nations.

In his addresses here Governor Cox asked Republican Chairman Will H. Hays concerning alleged quotas in the "official bulletin" of the republican treasury and concluded with this observation: "If you told the truth on the stand under oath then Mr. Upham (republican national treasurer) in his official capacity misrepresented you. This contradictory circumstance shows that you are either a perjurer or Mr. Upham is a falsifier. If the latter be true then it is your duty to discharge him as treasurer. If you do not do so then the American people can draw their own conclusions."

Governor Cox also asked Senator Harding some questions concerning his stand on the league of nations. Calling attention to the senator's speech of August 28, in which he said that congress technically could keep the nation out of war, but morally could not do so, Governor Cox said:

"Answer this Senator Harding: you or no? Do you mean that you are opposed to our assuming any moral obligation to our international relations?"

CHICAGO, Sept. 4.—Governor James M. Cox arrived here early today on a route from Kalamazoo, Mich., where he completed the first day of his western tour yesterday in Milwaukee. The governor will deliver two addresses in Milwaukee one at noon and the other at 8 o'clock tonight.

The governor planned to continue discussion of the league of nations and republican campaign contributions.

BOSTON, Sept. 4.—The resignation of State Treasurer Fred J. Burrell, announced last night, was the principal topic of discussion in political circles here today. Burrell, who was elected on the republican ticket as November, resigned as a result of repeated allegations that he had solicited advertising from banks for an agency which he conducted.

In announcing his resignation he said: "I do not do this because I did any wrong but because of the anguish that has come to my aged mother and my family because of the unwarranted attacks on me and to prevent causing any further pain to an ailing mother."

With Dying Mayor

MRS. TERENCE MACSWEENEY

LONDON, Sept. 4.—Mrs. Terence MacSweeney has cabled to President Wilson on appeal in behalf of her husband, the Lord Mayor of Cork, who for several days has been in a critical condition which began August 12 and which he is continuing.

Mrs. MacSweeney asks Mr. Wilson to "use your influence with the British government to prevent an outrage on civilization." She declares her husband is "dying in an English prison."

MacSweeney was much weaker this morning.

WHY GOVERNMENT WILL NOT RELEASE MACSWEENEY

LONDON, Sept. 4.—The reasons why the government will not release Lord Mayor MacSweeney, of Cork, are given in an official statement issued today. They are that fresh attempts would be made "to continue with added activity the long series of murders of policemen," and "would open the way to many persons in prison for any similar offense to use the case of the lord mayor as a precedent with good hopes of securing release and the opportunity to repeat the acts which led to his incarceration."

CHAMPION ALL SET FOR MISKE BATTLE

Dempsey Says He is Ready to Go 50 Rounds at Top Speed.

Miske Confident.

BENTON HARBOR, Mich., Sept. 4.—Official announcement as to the referee of the 10-round bout here Monday afternoon between Jack Dempsey, world heavyweight champion, and Billy Miske, challenger, was expected today. Indications seemed favorable to the selection of Jim Dougherty, of Philadelphia, a personal friend of Dempsey, but official announcement was withheld pending the arrival of Miske's manager from Cleveland. He indicated that last night he might oppose the selection of Dougherty.

Although the men finished their hard training yesterday they will continue to work in public this afternoon and Sunday to satisfy the big crowds that have jammed their training camps.

Dempsey looks to be ready, and is anxious for the battle. "I feel as if I could go 50 rounds at top speed. I will be glad to get into the ring to convince my enemies that I am as good if not better than when I defeated Willard," he said.

The ruddy cheeked Miske is winding up his training supremely confident that he will hold the championship even and that Dempsey will not muss him up. The challenger is trained to 190 pounds of bone and gristle.

The lights of the strange car blinded Mr. Beck and caused him to lose control of the car he was driving. It ran into Frank Munsacker's automobile parked in front of the Elks' home. Both automobiles in the collision were damaged while a car belonging to Ernest Walk, parked nearby, lost a hub cap in the mix-up.

At the "campaign fund" hearing, Will H. Hays, Republican national committee chairman, said: "I take no stock in such stories. They come from irresponsible persons. The day should be past for accusations of that kind."

Britten, goaded by the Senate "slush" investigators, admitted: "I have no evidence to support my charge."

Left to right—Senators Edges, Spencer, Kenyon (chairman), Pomerene and Reed. Lower left—G. O. P. Chairman Will H. Hays, being quizzed about the Republican millions; and right, Congressman Britten.

Canada Will Export 10,000,000 Barrels Of Flour

WINNIPEG, Man., Sept. 4.—More than 10,000,000 barrels of flour will be sent to foreign countries by Canada this year, according to estimates by agricultural and milling experts.

The total capacity of Canada's 720 flour mills is 142,642 barrels a day. Back in 1876, when the Hudson's Bay company, which is closing out its remaining lands to colonists, erected a mill sixty feet high with a capacity of 1,350 pounds a day it was the marvel of the Western agricultural world. Today even the smallest of the mills have a 100-barrel a day capacity.

It is estimated that each person in Canada consumes about a barrel and a half of flour, or six and a half bushels of wheat a year. Therefore to supply Canadian demands the mills must produce at least 9,750,000 barrels of flour. Last year Canada milled 18,225,000 barrels of flour from 82,012,000 bushels of wheat, making it possible to send to foreign countries 9,500,000 barrels of flour. The big grain crop this year, it is said, will result in much greater exportation of flour.

6,000 STRIKE IN ALABAMA FIELDS

BIRMINGHAM, Sept. 4.—Six thousand men have quit work in the Alabama coal fields following the order for a general strike made public Wednesday by John L. Lewis, president of United Mine workers. Recognition of the union is the chief issue involved although the miners' claim some operators have failed to raise wages in accordance with the award of President Wilson's coal commission last March.

JUDGE COULD SEE NO STRONG APPEAL IN IT

NEW YORK, Sept. 4.—The prima donna of an uptown burlesque show sang "Come to My Arms and Kiss Me" to Magistrate Simms in the Harlem court yesterday.

Whereupon he, without hesitation, fined 19-year-old Charles Seicher \$5 for climbing over the theater footlight: to answer the same call of the same singer last Monday.

Solicher, charged with disorderly conduct following an "explosion of emotion" when he mounted the stage from his first row seat after the song had been "sung at him" declared he could not resist the appeal.

Magistrate Simms decided that first hand information was best, and decreed that "Come to My Arms and Kiss Me" be rendered in court.

HEROIC FIGHT OF SUB CREW TO SAVE LIVES IS RELATED

WIG-WAGGED FOR HELP

Large Air Intake on S-5 Failed to Close on "Crash Dive" Cause of Near Disaster.

PHILADELPHIA, Sept. 4.—The United States submarine S-5 went to the bottom because a large air intake valve failed to close when the boat made a "crash dive."

This was revealed today in the official report of the accident made by the commander of the destroyer, Deaver.

The Deaver is standing by the battleship Ohio which today is towing the ill-fated submarine to the breaker, creeping along about three miles an hour and it is expected she will arrive at the break-water late today.

Briefly, but revealing the desperate plight of the imprisoned men, the Deaver's report tells of the accident and the work of wreck.

It discloses that it was largely through the work of the imprisoned men under the guidance of Lieutenant Commander Charles M. Cooke, Jr., that they were saved and that it was their own desperate efforts and not a telephone buoy that attracted attention of the rescue ship. The crew learned the stern of their boat was above water and working as they never worked before, they gouged a small hole through the iron hull through the side of the ship standing at an angle of about 60 degrees.

Through this hole they thrust a pole, a sailor's white undershirt tied to it and wig-wagged signals of distress which were seen by the ship Albatross, the first ship to pass 27 hours later.

QUERY CHARGE CUBS LAID DOWN IN GAME

President of Chicago National League Club to Quit Report on Tuesday's Game

CHICAGO, Sept. 4.—President William Veck, of the Chicago National league baseball team, today began investigation of charges made here today that the Cubs had deliberately lost last Tuesday's game which Philadelphia won 3 to 0 and that professional gamblers "cleaned up" in a betting coup as a result.

Mr. Veck said he had no evidence either to prove or disprove the charges but would make every effort to sift the matter to the bottom.

The basis of the charges made in connection with Tuesday's game is that Detroit, Boston, Cincinnati and Chicago gamblers are said to have placed \$50,000 on Philadelphia, forcing the odds on Tuesday's game from 2 to 1 on the Cubs to 3 to 1 on the Phillies.

More Whole City Several Miles. POCAHELLO, Idaho, Sept. 4.—The entire city of American Falls is to be moved, bag and baggage, several miles from its present location. American Falls is a modern city of several thousand population and is situated not far from here on the Oregon short line railroad in southeastern Idaho. The transplanting of the city is made necessary in order to construct a huge reclamation dam on the site of the present town.

This modern miracle will be engineered at an early date. Laying out of the new township has been completed by experts and the owners of property in the present town will exchange their holdings for property similarly situated in the new city. This method has been adopted to prevent speculation. The present American Falls will be completely submerged when the dam is finished.

Governor D. W. Davis, of Idaho, files in American City.
