

BIG GAME TODAY AT 4 O'CLOCK

WHERE THEY QUIT
High Point at Durham.
Greensboro at Raleigh.
Danville at Winston.

SPERO ROYALTY TOO MUCH FOR CAPITALS LOCALS WINNING OUT

Eighth Inning Bating Rally Gave Rubs 5 to 2 Victory Over Raleigh Saturday.

Rube Eldridge, better known as the Duke of Spero, was in splendid form Saturday afternoon and aided by an eighth inning bating spurt on the part of his comrades, hung up a 5 to 2 victory over the fast going Raleigh Capitals. Rubs, although touched up for five safe hits, probably wouldn't have been scored out for some fielding slips at critical times. On the other hand, after the fellows got sort of calm and collected they proceeded to pull off some very heavy recent action killings each ending out a Raleigh attempt at rallying.

Hughes, thought by many to be one of the most effective pitchers in the league, blew good and high in the eighth after having worked splendidly for seven innings. His support wavered a little in this inning and hence Ward could get a rest rather warmly up, the honors of the afternoon had been clinched by the Spero's.

Raleigh started the scoring in the first inning. Dorsey hit the first home run when Spero sacrificed on the second try to lead. Barney failing to handle Fish hurried the ball back across the diamond. Munson hit the box and Dorsey scored when Conley failed to tag him. McNeill single to start the fourth and Holding sacrificed, but was safe on a fielder's choice. McNeill being expunged. Higgins was safe as was Hetter. The latter started off first and a hurried throw nipped him half way between the bases. Fish fell in fielding the ball and Hetter leaped over him, the

score of this in the meantime scoring. The decision of Umpire Corcoran on this play was the source of some little protesting. In the next five innings Raleigh was getting on one, two, three, or more runs in each inning and Eldridge's increasing effectiveness. Hetter wanted to start the second. Partain flew out to center and as Barney was running, Fish stole second. Yeager promptly singled to right center. Fish scoring. The locals got three singles in the third out to have a run with the bases drunk.

Rube's double, doubtless by third, sprang the Raleigh being in the eighth. The contest with a single hit second of the day, and Waldron walked. Conley, attempting to sacrifice, popped out to Kearney, who was in the base. Fish doubled by third. Owl and Waldron counting with the bases full. Hughes, plainly rattled and very high in the atmosphere failed to handle a return from Kearney and Trexler on his toes, galloped across the plate for the third run of the ninth. In the meantime Conley had walked, and when Hetter hit to second Fish counted and Partain reached third. The grounds crowded to second and was ready at first for the final out of the inning.

The defeat would probably have meant Raleigh was out of the pennant hunt but for the fact that the Bulls succeeded in defeating the Twins in a hard-fought game.

SHE'S OUT FOR SELF

DOROTHY FOOKS

NEW YORK—This woman, Miss Dorothy Fooks of Saugerties, N. Y., is making folks sit up and take notice by her independent campaign to win the Republican nomination for representative in Congress from the 27th congressional district. During the war she served as chief clerk in the navy and also was a Liberty Loan speaker. She is a member of the American Legion.

Dorsey will receive \$20,000 for the amount of the gross receipts in excess of that sum.

MAY DEPORT POLE CONVICTED IN CITY

Likely That Isadore Trzeciakiewicz, Convicted of Plotting to Burn Plant, Be Shipped.

An investigation that may result in the deportation of Isadore Trzeciakiewicz, the Polish Jew who was arrested here more than two years ago for conspiracy to burn the plant of the Giant Furniture company where airplane propellers were being made for the United States government, and who was sentenced to serve three years in the Atlanta penitentiary, is understood to be underway. Clerk of Federal Court Lutheram Blalock, at Greensboro, has received a request for information in the case from the inspector in charge of the United States immigration service at Jacksonville, Fla.

The inspector stated that the department has under investigation with the view to deportation, if the facts in the case warrant, Trzeciakiewicz, who was received at the Atlanta penitentiary June 10, 1918, from Greensboro, and whose term expires September 25.

Inspector Kirk wanted Clerk Blalock to furnish certain data concerning the case, which, it is presumed, will be used in determining whether or not the prisoner will be deported at the expiration of his term. The case created quite a sensation at the time and most High Pointers will remember the interest shown in the trial of Isadore for his alleged conspiracy to destroy the Giant plant. The man had been in the city but a short time when he was arrested, fellow workmen being the chief witnesses against him.

CITY COURT HOLDS LABOR DAY SESSION

Minor Cases Reviewed in Regular Monday Session of Recorder's Court.

Despite the general holiday recorders court held its usual Monday morning session with acting Judge J. Allen Austin presiding.

The biggest case on the docket was one against Tom Foushee, charging him with reckless driving. This case was continued until Monday, September 13, inasmuch as Judge Austin is one of the principal witnesses in the case.

John Way, Newell McCordell, Duncan Riteh, Lee Stanton, Worth Bryant, Gene Wood and Ed Stack were all found guilty of being drunk and

WHISKEY BATHS FOR PET CANARIES

DETROIT, Mich., Sept. 6.—Despite protests of Patrick Foley that he was simply conducting a canary ranch, Federal officers searched the grounds of his country home, one mile north of Wayne recently, and say they found two whiskey, rye distillate. Foley, and his partner Bernard Rafferty, asserted that the alcohol was used for giving their canaries daily baths. Nevertheless they were arrested on charges of violating the prohibition law.

Nokol Changes Your Furnace Into a Modern, Efficient Oil Burning, Self-Operative

Nokol can be installed in any good heating plant—steam, hot water or hot air—by merely replacing your coal grates.

A simple half day's work and the trick is done. You are relieved at once from that messy, dirty furnace tending job. Gone are the coal, ashes, soot and grime—and a clean, well heated home is yours.

Nokol's fuel, oil, is kept in a neat compact tank. Gravity compels its passage to the combustion chamber where it is blown into a fine, cool spray.

A pilot light ignites this spray into a white hot flame. Combustion is complete—all the fuel utilized.

Nokol is automatically operated by a thermostat. Set it at the desired temperature and it will maintain that temperature with unerring certainty. When the house reaches the proper temperature, the flame is automatically shut off. You use fuel only when you need heat.

Nokol's staunchest friends are those who have proved its worth in their own furnaces. Nokol is on the approved list of the National Board of Fire Underwriters.
