Buckingham Whiskey A Really Pure Stimulant.

This whiskey is controlled entirely by Venable & Heyman, N.Y. It is distilled in Maryland in the sliate water regions of that State, from the small grain grown there. The distillation is superintended by a gentleman who understands his business thoroughly. Nothing deleterious is allowed to enter into its composition, and none of it is allowed to be sold until it is fully three years old in order that it may be entirely free by evaporation from the fusel oil. Venable & Heyman offer these goods as perfectly pure to fill a long felt want for medical purposes. It is their own brand and they stake their reputation on the truth of this assertion.
