

THE JOURNAL.

NEW BERN, N. C., APRIL 24, 1884.

WEST VIRGINIA Democrats declare for TILDEN for President notwithstanding that gentleman says he will not qualify if elected.

THE Democratic State Convention meets in Raleigh on June the 25th. The Liberals and Republicans on May 1st. The National Greenback Labor party has not yet announced the time and place of their State Convention.

A Correspondent of the New York Sun writing from Beloit, S. C., gives a woeful account of the condition of the people of that State in the district visited by the severe drought last year. We think the picture is rather overdrawn, if not, their necessities are as great as the food or cyclone sufferers. But South Carolina has monied men who are undoubtedly liberal enough to keep their people from suffering from bread.

SENATOR VANCE is making things warm for some of the witnesses before the Danville investigating committee. He proposed to show by a witness, a lady of Baltimore, that Col. W. E. SMES, a defect candidate for the Legislature in the Danville district, instead of being a man of good character, was a thief, having stolen bonds of the witness, and that his defeat was not owing to intimidation and violence. SMES wanted the privilege of summoning witnesses to prove the moral character of VANCE. This raised old Zep's ire, and he defied the whole "chill-fired" crowd to assail his character or any where else.

FROM present appearances ABEVIE will be stood aside at the Chicago Republican Convention. He is not able to carry his own State, several congressional districts having already ignored him. BLAINE seems to be gaining ground. The State Convention of Pennsylvania, while it endorsed ABEVIE's administration, passed a resolution favoring BLAINE for President and LINCOLN for Vice-President. This ticket will secure state harmony and have work to do. Illinois is solid for General LOGAN, and by the way the general has been fortunate in securing the nomination from the Republican National Conventions. Friendships formed through such means and privations are hard to eradicate.

EXPOSITION VIEWS. At the Cotton Exchange may be seen photographic views of the North Carolina exhibit at Boston, and also of the drawings of the Exposition Building to be erected at Raleigh. The building is to be 336x335 feet, of handsome architectural design, finely ornamented and will of itself be sufficient to remunerate a visit to the city to see.

The North Carolina Car Company are to put up the building and conduct from the penitentiary are to prepare the ground, and are now at work on them.

The Exposition promises much to our people, and we are gratified at the general interest manifested throughout the State, and although it is several months ahead, we already hear of preparation being made by individuals to have something interesting on exhibition. Messrs. DALE BROS. will arrange to have a bale of cotton from their farm in Greene county, grown and prepared expressly for the purpose. And other farmers should begin now to keep records and statistics in reference to any product they may wish to exhibit, so as to be able to give a full account of all matters connected therewith.

BOOK FARMING. There is a strong prejudice among even intelligent farmers in regard to what is often called "book farming." On our recent visit to Hyde county Dr. MILTON SELBY, a very intelligent farmer near Lake Landing, gave us a good sound lecture on this subject. He referred to a paper once published by a Mr. RUFFIN, of Virginia, who owned a large farm, and told how he would come out every month with advice to farmers about keeping their mules fat; about moulting fowls, and various other things which he failed to practice on his own farm. After giving us this little history of Mr. RUFFIN's paper, and an illustration of his practical work on the farm, the Doctor advised us not to put such stuff in our book.

We don't know that we exactly understand what the Doctor means by "book farming," unless it is setting down and writing out practical theories without any practical knowledge on the part of the writer of what he is saying. If it is that we join him in saying that it is a failure, and those who attempt to carry out these theories, easily written on paper, will, as a general rule, make failures. But there are many farmers to dab every advancement in agricultural implements, every introduction of labor-saving machinery, new and better modes of cultivation, improved seed, etc., with the miserably "book farming." If an improved mode of sowing or binder were to be put in one of those level, stumps where fields are of eight or ten hands, and do

it much better, would not the Doctor think it practical, common sense farming? And if Messrs. GEO. ALLEN & Co. or J. C. WHITTY can sell him a cultivator or manure distributor that will do his work at one-third the cost and much better than the old way, would it not pay him or any other farmer to bear the odium of being a "book farmer" and purchase one of those machines? We have never seen a finer country for the use of improved machinery than that around Matamoras Lake, and we assure the Doctor we are not a "book farmer" but learned the old way.

The JOURNAL, besides giving the news, seeks to be beneficial to the farmers especially, and we know of no letter plan than to allow them to interpose views through its columns. Every progressive, practical farmer should have one or more experimental acres, and report the result of his experiment, whether it be a success or a failure, to the JOURNAL, and his brother farmers will have the benefit of his experience. In this way information would be gathered directly from practical farmers, and not from "book farmers."

LENOIR and the EXPOSITION. It will be seen from a communication published in this issue by the committee to formulate a plan for exhibiting Lenoir's resources at the Exposition, that the county commissioners have refused to make the appropriation voted by the magistrates. We had hoped to see a fine exhibit from Lenoir. Being out of debt, and in a prosperous condition, we know of no county better prepared to make a complete display of her products and natural resources.

The county commissioners of every county are held responsible for the condition of the finances of their counties, and where there are so many demands on the treasury unknown to those not familiar with the duties of the commissioners, it is but natural that they should be judged lenient or wanting in public spirit when appropriations are withheld.

Now we know nothing of the means at the command of the commissioners of Lenoir county, but the justices of the county, to whom the commissioners are directly responsible, have voted an appropriation of five hundred dollars, and now the question is, how far are the commissioners bound by this action of the justices. It will hardly be disputed that it is, notwithstanding the action of the justices, discretion with the commissioners as to whether they will make the appropriation or not.

Our ideas about matters of public interest is that whatever is for the benefit of the public should be paid for by the public, and that county commissioners, in the exercise of their powers, should handle the county finances with as much care and economy as they would their own. If the commissioners of Lenoir are right now in refusing this appropriation, then their judgment is at fault when they first voted it and called the justices together to pass upon it.

But should this action of the commissioners prevent Lenoir from making an exhibit at the Exposition? We hope not. It may dampen the zeal of some, but the people of Lenoir are too enterprising to let slip such a fine opportunity of advertising their resources. The people of Craven are burdened with a heavy debt, so much so that the county commissioners have not been asked to make any appropriation, but Craven will be there, and we predict will make as fine an exhibit as any county in Eastern Carolina. We have a few enterprising men who know too well the value of advertising not to improve this the greatest opportunity ever offered us.

PARTISAN PAPERS—MISREPRESENTATION.

The Statesville American, in its zeal to out the Democratic party in North Carolina that the Republicans may again get in, very often refers to matters in Craven county as a text to show how oppressive and intolerant the "Bonbon Democracy" of North Carolina can be. Of course we understand that all partisan papers, both Democratic and Republican, are inclined to be unscrupulous on the eve of a political campaign, and will seize every opportunity to impress their readers with the belief that if the opposite party succeeds the country will be totally ruined. The people have learned pretty well how to estimate the assertions of these bitter partisan sheets, and therefore, it will be a waste of time to pay any attention to their misrepresentations. But the Journal, in its last issue, has made a mistake based upon a little episode that occurred among the Democrats of this city in their nomination of Commandant of the 3rd Ward, that is calculated to do harm, not to the State, but to the party, and to the State by circulating the same abroad that there is no freedom of opinion in North Carolina.

This contest in the 3rd Ward among the Democrats was pretty warm. A few days after it was over a gentleman who was on the side of the successful candidate, was also Mr. TREWHELL's. He made a report about the city that Mr. TREWHELL had been deprived of a job on account of his vote in the Ward Convention addressed the following note to this paper:

Mr. Editor: I learned today that the showing of one pair of the city's horses had been given to a Republican blacksmith instead of Mr. P. TREWHELL, a good Democrat who has been

the work. If this is true, will the Committee on Fire Department explain to the citizens of New Bern why this change was made?

The gentleman who made this inquiry, while he is a Democratic voter, is not an active politician. He served in the Federal army during the war between the States, and has been an assistant in business here. His inquiry of the following explanation was promptly made:

WILLIAM H. OLIVER, New Bern, April 22, 1884. Mr. Editor: In your issue of Monday you published a calling upon the Fire Department Committee to explain their action in appointing to the 3rd ward a Democrat. As the business of a committee is usually attended to by its chairman, I have written a letter directed to the committee, and I have enclosed a copy of the same to you.
