Guam Branch Items.

Our mails do not come regular and we do not get our news as we ought. Mr. M. F. Leach, of Raleigh, one of the directors of the Quaker Bridge Road, was here last week in the interest of the road and said he thought it would be finished by the first of September if the weather continued favorable. If Mr. Leach makes as good a director as he looks a good looking man, I should like to see him in a convict's outfit. We gave him the best we had, and hope he will come again to see us.

Our mail (Quaker Bridge) is progressing nicely. Capt. Meeker is the right man for the job, but some of the Jones county people seem to be envious of his position. He is a very capable man, and he will do the job well. He is a very capable man, and he will do the job well. He is a very capable man, and he will do the job well.

Another cold snap this week almost another frost, and the crops feel it severely. Mr. Fred Hazel has the largest stock of corn in the county, and he is a very successful farmer. He is a very successful farmer, and he is a very successful farmer. He is a very successful farmer, and he is a very successful farmer.

The superior quality of the hair and scalp which it restores can be attributed to its pure and natural ingredients. The preparation is made in England, and is sold by all druggists and chemists.
