NO. 26.

Towers of Strength!

GEN. SCALDS and Dr. YORK will turn their faces eastward and appointments are made, as far as Raleigh, in this direction. We may hear them yet.

LETTERS will be hard to keep getting into the busy season on the tower, but party will be on the tower, and we shall expect to see the largest party in November that has been known in this State since 1876. A heavy vote means a large Democracy, so let it come.

FROM the quantity of goods arriving by the steamer lines, we are inclined to look for a brisk trade when the fall trade fully opens. All classes of goods are moderately low and our people will have an opportunity to lay in winter supplies at prices calculated to encourage large sales on the part of the merchants who seem to have anticipated them.

Respectfully,
J. C. WHITTY,
CRAVEN STREET, NEWBERN, N. C.

Remember that no well-regulated family can afford to be without a GILBERT FORCE PUMP.

AGENTS FOR

People's Mutual

Life Assurance Company

OF LOUISVILLE, KY.

Issue Policies on Lives, payable in Five Instalments, at from 4 to 10 years intervals, according to the age of the Insured.

The premiums are paid on the assessment plan, as is usual in other Mutual Companies.

There is a new feature in Life Assurance, and enables the party to collect his money during life. It is practically a Savings Bank, in which to deposit small monthly amounts, to be drawn at the end of a certain period with interest.

It also issues Policies payable at death only, if desired. Circulars with full particulars furnished on application. THIS POLICY based on best terms.

OUR EUROPEAN LETTER.

NUMBER EIGHT.

DEAR JOURNAL—My address is large, it not, cosmopolitan, and will give me scope and variety. I hope all my letters have made a voyage across the broad Atlantic. For a while there was a break, that could not be avoided. That was unfortunate, for I received a JOURNAL in which you promised your readers a letter a week. But I have been catching up, and believe I have sent you nearly if not quite, that many. From Interlake I sent you two or three envelopes, and felt sure one will possess much interest as to about Berne.

But my heading is general this time, because my that will not be about travels. Would you not like to know something about a tourist's every day life? I was strongly advised to buy a "Tourist's Guide" for my journey. My adviser had just returned from a European tour, and his experience endorsed the comfort and cheapness of that plan; for he said he was "bleeced" every time he went to Europe, and that "bleeding" was a system of tickets, good for lodging and board at a large number of specified hotels, and costing from \$2 to \$2.50 per day. Another gentleman, of experience, advised against the whole system, and claimed that any judicious person could travel more cheaply. I have tried both; very little of the hotel coupons, however, and don't want any more.

EUROPEAN LIVING.

This differs from ours. In Great Britain, to a large extent, four meals are taken daily. But generally a light breakfast; a luncheon at 1 p. m.; and an elaborate meat and vegetable dinner at 6 p. m. is the practice. In Paris many take only two meals; "dejeuner" at 12 m., and a large dinner at 7 or 8 p. m. The traveler's plan should be to take a simple breakfast at 8 a. m. of coffee, chocolate or fruit, and a light dinner with honey or marmalade, which will cost from twenty-five to thirty cents.

Onslow County Items.

Onslow County Items.

No marriages are heard of, but Walter Murrill says he is going to try it next year if he can.

But what can't he get any of the young ladies to come to see him if it is his year? Perhaps your horse is too fat, or that Arab horse are not fit for this country at all times—get a slower one.

Our farmers are busy picking cotton, and our politicians are busy electioneering. We have had no political speaking since the late election, and it is a pity that it should be so.

Major C. W. McLammy, Democratic candidate for third district, who spoke at the meeting of the school, and Miss E. H. Hargrett, daughter of Mr. C. W. McLammy, returned to Salem to attend to her duties.

Our friends from Ward's Mills forgive the editors of the JOURNAL, for scolding them about their electioneering, and would have more papers to keep them from reading them. It was only a mistake, but we are sorry to hear that some of the papers were not so good as they were some time ago.

Considerable sickness and some deaths among the young ladies of this county, lately Mr. G. Williams of Richards, died at his residence Thursday of this week, leaving a large family, and Mr. William Wilson, aged about 35 years, died at his home on New River a few days ago. Mr. Wilson leaves a wife and several children.

The dog hunt Tuesday with us; about fifteen or twenty dogs were sent out by the young ladies of this county, and Mr. Lee Murrill and father, Edward Murrill, were the lucky ones to catch the dog. Mr. Murrill and Mr. Murrill, Frank Melton and George Ward, all good marksmen—especially the latter—shot and missed their game, but we are sure that they will get it some day.

On Wednesday the convict camp, as usual every day, had a large number of the young ladies of this county, and Mr. E. Sanderlin, Esq., and I tell you if I had not been already married I would have been very glad to have been one of the young ladies of this county.
