steadily increased, which has led to lower prices. The demand for export continues light. Cotton has met with a very limited demand, especially in the Southern markets, which are more or less unsettled.

There has been no essential change in financial matters. The loan market has been without animation. On demand loans upon good collaterals, the rate continues 1½ a 2 per cent. Discounts are dull; the current quotations for "gilt edged" paper are 5 a 6 per cent for sixty and sixty days; 6 a 7 per cent for four months' acceptances. Supreme dullness reigned in the stock market early in the week, and fluctuations were within a narrow range. Speculation was stimulated later on by the various contradictory reports of the electoral count, but the market assumed a quiet tone towards the close. The market of sterling exchange opened dull, but the rates were advanced ½ cent on Wednesday, and ½ cent again on Thursday, owing to the advance in the Bank of England rate of discount, but the latter advance was not maintained. Advices by cable from London state that further shipments of specie have been made to New York.

The Colored People.

There is reason to believe that there is—absurd as the suggestion may seem—a genuine apprehension among the less educated among our colored fellow-citizens that the election of Cleveland is in some mysterious, undefined way of ill omen to them. With some this shadowy fear takes the form of a return to slavery. The result is a general feeling of unrest, which shows itself in various manifestations of discontent and a general disposition to brood and sulk.

These poor people have been so long misadvised and misled that they are incapable of emancipating themselves from the moral and intellectual bondage in which they have been held, and of reaching an independent judgment of their own. They are greatly to be pitied, and should be treated with forbearance, instructed as to the truth and reassured back to their normal amiability.

There is not a responsible white man in America, North or South, who would restore slavery if he could. The election of Cleveland is of no more significance to the one race than to the other. To both it insures honest and frugal government. The rights of no colored man, woman or child in any part of the country will be injuriously affected by so much as the weight or breadth of a hair.

Among our colored population there are numbers of educated men who should make it their particular business to dispel the misgivings of those who are not so intelligent. It is sadly to be desired that the black vote should be divided, and the white vote, and [illegible] the colored [illegible] The Courier-Journal [illegible] sincerely say to its colored readers and friends that there has never been a time when their interests were not safe in its keeping. He is no true man, be he black or white, who would raise up imaginary griefs or fears on either side. There are reciprocal obligations and ties and duties which are never to be obscured for any length of time.

In a few days the election excitement will pass away, when everything will move on as smoothly and serenely as before. All parties should be of good cheer. Cleveland is an honest man. He has been elected by a great outburst of patriotism and will not make a partisan or sectional, but an upright, national administration, of which the whole country may be proud. —*Courier-Journal.*

About Woman's Work.

The Art of Seeing.

In everyday life it is much more important to be an accurate observer than a mere book learner. I have frequently seen the latter made to blush for her deficiency by the most unlearned, says a correspondent in an English contemporary, for in a contest between eyes and no eyes, eyes have generally got the best of it. Nature has given us such an inexhaustible store of interest that those going through life without "seeing" lose much of the zest of it. The savage who necessarily depends upon his keen eye and quick ear, cultivates those faculties to an extraordinary degree; for does he not see indications and hear sounds which to an unpracticed observer would be utterly unintelligible? So also with all persons who live near the heart of nature. The English shepherd, while perhaps ignorant of the very formation of the alphabet, stores up a fund of interesting knowledge derived from observation.

He can give you simple, nevertheless [illegible] astronomical facts which might astonish a scientist, as well as trustworthy information on natural history and events. His present [illegible] leads him to study nature in all its varied phases. [illegible] that he can tell you that the arrival of the swallow is to be expected on the 11th of A[illegible] the 14th. He will tell you the time for [illegible] the flight of birds and that nearly every bird has a different manner of flying, and that each has wings adapted to its different habits [illegible] those like the swallow, who catch their food while in the air, have long pointed wings, while round [illegible] wings are only for birds who have slow and short flight. He will tell you how the tiny [illegible] worms him to [illegible] closing tightly [illegible] slightest indication [illegible] thousands of [illegible] to a student [illegible] teresting.

Mrs. Scott's Potato Bank.

Mrs. Scott, the honored wife of the lamented Hon. Jas. G. Scott, who died in January, has been farming about thirty years. Mr. Scott attended to the law and took very little on himself about the farm, which was carried on to suit Mrs. Scott. She told me a few days ago that she had never lost [illegible] As soon as dug, she piles up about twenty bushels in a bank, puts on straw and then covers with dirt two feet thick. She says be sure and get it two feet, for the hands are apt to fool you, if you don't look out. Mrs. S. begins at the bottom of the bank and puts the dirt around two feet thick and runs it up two feet thick as they go. When through, smooth the bank up by patting it and cover in pine straw, which keeps the dirt in its place. I think she leaves no air holes. By-the-by, I saw *The Southern Cultivator* lying on her centre table. She is a very intelligent woman, and has been reading your monthly for years. The consequence is she knows what is what."

Will Mrs. W. H. Pruitt, of Eufaula, Ala., be so very kind as to tell us how to get rid of ants in the house. They certainly give my good wife more trouble than all things on earth, except myself. They get in the sugar, in preserves, the honey, and when she makes preserves and puts them in the flower yard to sun, as good house wives do, to harden and bleach, she has to put the legs of the table in four cups of water to keep the ants out. I don't believe they are good swimmers.—E. W. FONVIELLE, in *Southern Cultivator.*

An Arctic Song-Bird.

It has often been remarked that there is no *music* in nature's solitudes of ice. Mr. W. H. Gilder, who accompanied the sledge expedition of 1879 through Great Fish River and Hayes River regions, alludes with some feeling to the one little scrap of living song that he met there, and the struggle it cost him to lay violent hands on the only species of Arctic creature that has a tuneful voice.

I shot two of an apparently distinct species of snipe (he says), to preserve their skins for the Smithsonian Institution Collection. One of them was distinguished by a sweet, simple song, somewhat similar to the lark's, its silvery tones gushing forth as if in perfect ecstasy of enjoyment of sunshine and air; at the same time rising and poising itself upon its wings.

It seemed almost inhuman to kill the sweet little songster, particularly as it was the only creature I saw in the Arctic that uttered a pleasant note. All other sounds were such as the scream of the hawk and the gull, the quack of the duck, the yell of the wolf, the "oogh," "oogh" of the walrus, or the bark of the seal —all harsh and unmelodious, save the notes of this sweet little singer. Nothing but starvation or scientific interest could justify the slaughter of such artless innocents.

I believe I shut my eyes when I pulled the trigger of my gun, and I know my heart gave a regretful thump when I heard the thud of its poor bleeding body on the ground. —[illegible]

GENERAL NEWS.

A nine-ton lump of coal, claimed as the largest ever mined, will represent the coal interests of Birmingham, Ala., at the New Orleans Exhibition.

PARIS, Nov. 13.—Prime Minister Ferry communicated dispatches to the cabinet this morning from which it would appear that General Gordon had been shot dead while passing from Khartoum to Berber.

CONTOOCOOK, N. H., Nov. 13.—A shock of earthquake was felt about 7.50 o'clock last night in Hopkinton, Hillsborough, Bradford and Warner. It was particularly severe in the latter town, where things were generally shaken up.

SHANGHAI, Nov. 11.—Two Chinese iron-clad cruisers are preparing to leave here for the purpose of attempting to force the French blockade of the island of Formosa. The Chinese have bought nearly the whole stock of English coal in Shanghai.

LONDON, Nov. 11.—The *Times'* Han-Kow correspondent telegraphs that the situation of five of the inland treaty ports is very dangerous on account of their isolation. There is only one man-of-war to defend foreigners at Han-Kow.

EBENSBURG, Pa., Nov. 11.—Seven prisoners escaped from the jail here this afternoon. Three of them were afterward recaptured and the other four are still at large. The escape was made by taking the keys from the jailer and placing him in a cell, while they broke the locks on the door of the jail yard.

DETROIT, Nov. 9.—The *Free Press* to-night received a report from Calhoun county that the Butler votes of that county had not been counted, and it now claims that the present plurality will be materially reduced, and that the Fusionists may secure a few electoral votes.

Eighteen ravens were captured near Gridley, Cal., a short time ago in a somewhat curious way. A flock of 300 swooped down on the backs of a number of sheep that were grazing, and in the birds' eagerness to get away eighteen of them got their talons fastened in the sheep's wool, where they were held captive until secured by lookers-on.

PARIS, Nov. 9.—The cholera epidemic in Paris is increasing, especially in the Eleventh and Nineteenth arrondissements. During the 48 hours ending at midnight last night 186 new cases and 63 deaths were reported. At Montreuil 10 new cases were reported during the same time. To-day one fresh case has been reported at St. Nazaire, and there have been four deaths from the disease at Nantes.

CHICAGO, Nov. 11.—In the hearing of the Storey will case to-day Judge Trumbull, counsel for Mrs. Storey, at the request of the Court, produced a will antedating the present one, by which the entire estate, including the *Times*, was bequeathed to his widow. The provision that she was not to remarry, which the later will contains, was not in the previous will.

WELLINGTON, N. Z., Nov. 11.—The Parliament of New Zealand has passed a resolution appropriating $75,000 as the share of New Zealand in the expenses incident to insuring British protection in New Guinea. A vote was also passed postponing the final consideration of the proposed scheme of colonial federation until the next session.

PARIS, Nov. 13.—From midnight to noon to-day there were 33 deaths from cholera in Paris, 19 of which occurred in the hospitals. A revised report for yesterday gives a total of 81 deaths, all but 20 of which occurred in the hospitals; 84 fresh cases were received at the hospitals yesterday. Fifty-eight deaths from cholera are reported as having occurred since midnight, of which number 30 were in the city proper, the remainder being in the hospitals. Two deaths are reported at Oran, Algiers.

FORT SMITH, Ark., 11.—Deputy Marshal Merston's posse has just returned from a trip to the Indian Territory, where they had a fatal encounter with a party of Indians who attacked them. In the fight thirty United States prisoners under arrest for various crimes escaped. Two of the attacking Indians were killed and others were wounded. Two of the Marshal's posse were seriously wounded. Nineteen prisoners were brought in by the posse.

CAIRO, Nov. 11.—Rumors of the fall of Khartoum and the death of Gen. Gordon are now arriving by the way of Massowah.

A committee of Khartoum merchants residing here is being formed to obtain recompense from the Egyptian Government for their losses of property incurred through the rebellion. They are not likely to succeed.

Another attack was made by the rebels on Suakim last night, which was promptly repulsed, and the Egyptian cavalry is now in pursuit of the enemy.

There is now a total force of 2,000 British troops in Dongola.

HAVANA, Nov. 6.—Gen. Castillo, ex-Captain-General of Cuba, will leave on Nov. 15 for Spain. Gen. Suances has been intrusted with the Government of Porto Rico until the arrival of Gen. Luis Daban, the recently appointed Governor-General, who takes the place of Gen. Fajardo, the latter having been appointed Captain-General of Cuba. Gen. Fajardo's appointment was opposed by some citizens because he married the widow of a Cuban General who took part in the late insurrection. Cable despatches on the subject were sent to the Minister of the Colonies at Madrid, but the latter replied that Gen. Fajardo enjoyed the fullest confidence of the Government.

Mr. [illegible] when he began the work [illegible] Commissioner for South Carolina, found that his time was frittered away by idle callers. Walking down the street one day, a well-dressed female in a store caught his eye, and, wondering why the lady tarried so long, he approached and discovered that the figure was a dummy. Just here an original idea struck him. He was sure that no one, at least no Southerner, would attempt to interrupt him while he seemed to be talking to a woman. has had in his case. I think his bl[illegible] have contained the humor for at least [illegible] years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.
