

THE REPUBLICANS continue to long for JOHN in effigy. Why not DR. BURGHARD?

THERE is already a rush for rooms at Washington by those who want to see CLEVELAND inaugurated.

It seems that poor Dr. BURGHARD is to bear all the blame of BLAINE'S defeat. We would sympathize with him, but we think when a minister of the gospel goes leading into politics he ought to bear that which he sows.

The New York World urges the Democratic members of the Legislature to join Republicans, since they cannot elect THOMAS COX into the Senate. The proposition is said to be a disturbing element in the Republican camp.

We learn from the Manufacturers' Record, of Baltimore, that a large iron furnace, of Birmingham Ala., has just closed a contract for 5,000 tons of coke pig iron to be delivered in Philadelphia, and that the Woodstock Iron Company, of Anneton, has just sold the same amount of charcoal iron to be delivered in a city in the center of Pennsylvania iron district. "Pig Iron" KELLY will have to get protection against Southern manufacturers next.

It will be a great step in advance for the colored people when they divide politically as the white people divide. They will then have some respect when it is seen that they are not, as a matter of course, mortgaged to one party.

The principle of Democracy, the principle which commands it to the great body of wage earners, deserves and must receive essentially the hearty support of the colored people. — N. Y. Sun.

THE JOURNAL has always advised the colored people of the wisdom of dividing their vote. But they have rather inclined to the idea of drawing the color line where they are in sufficient majority to do it, and we believe the Democrats, that is the politicians, are beginning to like it. The idea of negro supremacy brings many Democrats to the polls who would otherwise stay at home and dig potatoes.

A FAIR AT NEW BERNE. The Journal has several times pressed the propriety of having a fair at New Berne, the principle which commands it to the great body of wage earners, deserves and must receive essentially the hearty support of the colored people. — N. Y. Sun.

THE JOURNAL has always advised the colored people of the wisdom of dividing their vote. But they have rather inclined to the idea of drawing the color line where they are in sufficient majority to do it, and we believe the Democrats, that is the politicians, are beginning to like it. We wish to instill deep into their hearts a genuine love for their native State; therefore we must learn to sing, to sing of her advantages, of her great men, of its mild climate and fertile soil. Learn the children to sing.

HOW TO MAINTAIN PROTECTION.

The Baltimore Manufacturers' Record suggests that associations be formed all over the country to influence Congressmen against any reduction of the tariff. It strikes us that if Congressmen do their duty to all classes they will guard the tariff so to raise a sufficient revenue for the government, economically administered, and no more.

They have no right to pile up money in the treasury beyond the actual needs of the government, but for several years they have been doing this. In order to maintain the present tariff they must either abolish the internal revenue tax, or spend more money or continue to pile up a surplus in the treasury.

Which will they do? There is a goodly number in favor of abolishing the internal revenue tax, and by several years they have been doing this. In order to maintain the present tariff they must either abolish the internal revenue tax, or spend more money or continue to pile up a surplus in the treasury.

Which will they do? There is a goodly number in favor of abolishing the internal revenue tax, and by several years they have been doing this. each system of education, and to teach its how to read and write, and to sing, to sing of her advantages, of her great men, of its mild climate and fertile soil. Learn the children to sing.

THE BARNWELL PEOPLE.

The Barnwell People are a very innocent looking set of men who had been waiting twenty-eight hours for a Lake Superior boat, and who was told to be at foot of Woodward Avenue at noon yesterday. It came slouching down to the wharf at about 4 o'clock P. M. and merrily queried:

"So the boat isn't in yet?" "No, sir, she's anchored and got in before noon and will be here by 10 o'clock P. M. and merrily queried:

"So the boat isn't in yet?" "No, sir, she's anchored and got in before noon and will be here by 10 o'clock P. M. and merrily queried:

"So the boat isn't in yet?" "No, sir, she's anchored and got in before noon and will be here by 10 o'clock P. M. and merrily queried:
