

NEW BERNE, N. C., THURSDAY, APRIL 24, 1888.

SENATOR VAN K has introduced a bill to repeal the 1856 law. He is thoroughly in accord with his party in North Carolina.

A CHURCHMAN from York county was found short in his accounts of several thousand dollars. He was about getting off for home when arrested by an officer.

JOHN SHERMAN will be the successor as Senator from Ohio. The expected break in the Republican ranks is not so important in the public camps as they are in the Democratic.

SPEAKER CALHOUN'S North Carolina one chairman of the House Committee. General Cox is made Chairman of the Committee on Reforming the Civil Service. We hope he holds this same year on this subject with Senator VANER.

SEVERAL members of the North Carolina delegation in the House have introduced bills to establish the internal revenue tax district. This is in accordance with the sentiments of the Democratic party of North Carolina which has been assembled.

THE New York World, the paper that harped on North Carolina barbarism in hanging burglars is now mourning the fact that New York citizens are imprisoned for poverty. That is, if a man gets poorer than State aid must pay, he is sent to Ludlow street jail.

Among the seven hundred fifty bills introduced at Congress on Tuesday last was one providing for the erection of public buildings at Charlotte, Wilmington, New Bern, Asheville and Salem. New Bern is not left out in the cold this time. But it is an easy thing to introduce a bill, getting it through is the important work.

THE BLAIR education bill will again pass the Senate unless several Senators have changed their views. We presume it will also pass the House this session as the Democrats all over the country told the people during the Presidential canvass that the reason the Democratic House did not pass it was for want of time. They have plenty of time now.

It seems to be difficult to understand exactly how the Hon. WILLIAM MAXWELL EYARKE, the talking Senator of New York, stands on the silver question since his talk at the Boston dinner. He has a peculiar tact for making long sentences and leaving everybody in doubt. The silver men, notwithstanding the Senator's doubtful position, are in high spirit and feel confident that the coinage will go on.

SENATOR HOAR has introduced a bill to fix the time for the meeting of Congress. It provides that the meeting of Congress in 1886, and every two years thereafter, shall be on the first Monday in October, and in 1887, and every two years thereafter on the second Monday in November. Mr. Hoar urges the necessity of this change upon the ground that the business of the country is increasing so fast that longer sessions of Congress are necessary.

A NEW STADIUM. The Washington Gazette informs us that a syndicate composed of Messrs. J. H. BARSTKY, EDWIN A. GASKILL, HERBERT T. FENTON, JAMES W. WORK, JAMES M. MANES, and W. W. GOODWIN, represented by Mr. K. M. EVANS, has purchased the Washington & Jamesville railroad, and the papers have been recorded. The report has been current for some time that the Pennsylvania Central was the purchaser of this property and would, in a short time, extend the line northward to Suffolk, Va., and southward to New Bern. Whether the gentlemen there named have any connection with the Pennsylvania Central or whether they possess the means of carrying out the proposed extension of the line, is not informed. But they are likely to be their object as set forth in the Gazette, make a line from New Bern to Suffolk, Va., and extend it to New York.

The extension of the line of railway from New Bern to Suffolk, Va., and thence to New York, is a project that has been discussed for some time. It is a project that will do much to develop the resources of the State.
