it at Smith's Creek, near Morris & Har- pondent is correct in his conclusions, well understood. We have long favored thousand dollars solvent credits in the county, and as soon as the holders of these credits are convinced that a cotton factory will pay better than the present investments they will be converted into such an enterprise. Our business men do not invest their capital for the gratification of a mere seatiment, but life.

Bear time a well the converted into three fourths of a mile of each other. It is literally a village of saw-mills.
