THE JOURNAL.

NEW BERNE, N. C. NOV. 3, 1887.

Kinston Items.

The racket store has the biggest wall "ad." just beyond Tuckahoe over seen in these parts.

C. H. Brown, Esq., is attending court at Trenton. He has a good practice in his native county.

The Singer Sewing Machine Co. is the only one represented in Kinston. Would it not be to the interest of other companies to secure agents here.

Dr. H. D. Harper attended the Eastern Dental Association at Goldsboro on Tuesday. We are pleased to learn that he is taking high rank among the brethren of the dental profession.

Mrs. Goodale of Louisiana delivered a lecture in the opera house Friday night which was unique in all respects particular. If you think a woman can't speak in public, I am sure you have never heard Mrs. Goodale.

Dr. Alf. Fields is spending some time in the country recuperating from an attack of malarial fever. He speaks in high praise of the wise treatment of Dr. Gates, another of our junior boys, who though twenty miles distant.

Dr. John Pollock has removed one of the oldest houses in Kinston from the corner of Caswell and Macilvaine streets to the rear of the same lot fronting Macilvaine. This leaves a splendid lot for a companion building to Mrs. King's handsome residence.

J. J. Cox of Jones county has been supplying our market with some very fine turnips. We saw one weighed which made the scales tip at 3½ pounds. Who can beat that. Let Lenoir try her hand. She is generally equal to the best in all that is good and useful.

On Tuesday of last week Queen street beheld one of the finest displays of fine turnouts that we have seen in some time. Dr. Pelletier with his bride from Trenton was in the lead, accompanied by a number of their friends. We bid Mrs. Pelletier welcome in behalf of Kinston and hope she has exchanged good for better or best in giving up Trenton for Kinston as a home.

The Hookerton Union of the Disciples was held at Eden church, Green county, on last Saturday and Sunday. Dr. Harper of Kinston attended. Resolutions were passed appropriating all the funds on hand towards building a church in Raleigh and special arrangements are to be made for occasional meetings by some of our ablest preachers. The next Union will be at Wheat Swamp, Lenoir county, the 5th Sunday in January and Saturday before.

Kinston postoffice should be furnished with lock boxes. We should have a little town pride in this matter. What do you suppose a visitor from some one horse town which has lock boxes thinks when he comes here and beholds our pidgeon hole outfit? Whose fault is it? Are the business men to blame? If so let a sufficient number promise to rent them and we are sure that our clever postmaster will put them in. It would do away with this push and shove, harum-scarum pell mell way of getting our evening mail.

The Disciples held a very largely attended Union at Haskins Chapel, Jones Co., on 5th Sunday and Saturday before. H. C. Bowen reported a new church organized at Prospect, Duplin Co., and a house in course of erection. J. L. Burns preached on Sunday to a densely packed house from the Scripture, "Ye are a royal priesthood, a chosen generation, a peculiar people." In words to that effect. He takes the work of State Evangelist, and J. B. Parsons of Carteret county is expected to succeed him in Onslow and Jones. They are to visit the churches together on the 2d and 3d Sundays in November.

Stonewall Items.

Rain, rain, all the time for the past two weeks, and still continues. No chance to have any kind of crops. The cotton crop of Pamlico will be at least 50 per cent less than last year, and it was not more than two thirds of an ordinary crop. Sweet potatoes at least 50 per cent below an average crop.

I heard a gentleman not far from Falling Creek, who has just bought a herd of Jersey cattle, say that their looks made him think of a pretty, nice dressed young lady. I kinder think that if he had been at the Fair and seen Joe Kinsey's girls he could never have used such an expression. There is no accounting for taste.

Ye itemizer has just returned from the Goldsboro fair, where he met many old acquaintances, both soldiers and citizens, which I assure you was very gratifying. I saw some excellent stock in all the departments except sheep and not a single one on exhibition. That is what the miserable curs do for our State. Will we ever have any redress? Col. Davis was there with his school battalion, and well did they perform their part both as soldiers and gentlemen. Then came Joe Kinsey with his school misses and completely eclipsed Col. Davis's show. His turnout was simply magnificent. They both deserve the success that they are receiving and may it increase.

GREEN MANURING.

NUMBER 13.

The subject is so intimately connected with Hog raising that the health of the pig which is reared on to consume a portion of the green crop becomes a matter of great interest to every farmer. The loss to the country from swine disease has been enormous, and has in many cases discouraged the farmer from attempting to raise his pork. Many remedies have been placed before the public, but the disease is so rapid and so fatal in its work, that the remedies have not been satisfactory.

What is needed, is how to prevent the disease and to feel some security that the hogs will remain healthy, and will repay the owner for the care and expense of raising them.

Much has been written on this subject, by men who claim that cholera can be prevented, and that by using intelligent precautions they have raised hogs with success.

We all think that an harm is come to us and it is quite natural to look out to use means to prevent it; but in this case it is only prevention that can be relied upon, as there seems to be no practical cure for the disease.

A writer in the Southern Planter of Richmond Va. says: the Commissioners of Agriculture "I place in your hands one hundred dollars to pay for hogs if they should die with the so called hog cholera, if you will have tested the following remedy, which I have used with great success. Take a sack of salt, and a barrel of hard wood ashes, (hickory or oak preferred) mix the salt and ashes thoroughly together and in any convenient area put it under cover where the hogs can have free access to it at all times and keep it supplied with mixture in it. This mixture will cost you one dollar, and a meeting house will be sufficient for several hogs for one year.

Objectors will say, I have tried everything and if the disease is going to come it will come. I think that this remedy is no better than what I have used.

It is quite certain that there is no danger of hog cholera now, than at any previous time, and it is the interest of every man to carefully take steps to prevent the disease from destroying his hogs. It is not sufficient to mix ashes, salt and some ashes and give it to the hogs and pay no more attention to them for a month. In order to test the remedy, the directions must be followed, which are to keep a supply of the mixture always within reach of the hogs, and the day in a month, but every day.

It will not prevent hogs from taking the disease if they are allowed to come in contact with diseased hogs or are permitted to eat hogs that have died from the desease, and may not cure it. Farmers try this hog cholera preventative is cheap. *It is practical.*

Buchlen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by R. N. Duffy. dec16 1y

Papers with the Journal—Club Rates.

We have made arrangements with the following publications among the ablest and most valuable of the country whereby subscribers to the JOURNAL can secure any of the following papers at the following low rates cash in advance.

JOURNAL and American Farmer	$2
" " Am'n Agriculturist	2
" " Southern Cultivator	2
" " Demorest's Magazine	3
" " Scientific American	4
" " St. Nicholas	4
" " Country	3
" " Detroit Free Press	2
" " Texas Siftings	2
" " North Amer. Review	5
" " New York World	2
" " Star	2
" " Country Homes	2
" " Home and Farm	2
" " Southern Bivouac	2
" " Courier Journal	2
" " News and Observer	2
" " Harper's Magazine	4
" " Weekly	4
" " Young People	2
" " Atlanta Constitution	2
" " Chicago News	2

Old subscribers receiving the JOURNAL, and desiring to take any of these papers can, by making application to the office in person or by letter, have a statement of their account or books showing what they will have to remit to entitle them to any of the above publications they may select.

FURTHER INDUCEMENTS.

Every subscriber to the New York World clubbing with JOURNAL receives a handsomely bound illustrated History of the United States.

To Our Patrons.

We have begun to send out statements of amounts due for subscriptions, and we send them out for the purpose of collecting the money. We cannot give longer indulgence, as we are in arrears. So please remit at once or be prepared to for our next visit.

The price of the WEEKLY JOURNAL has been reduced to $1 cash in advance. The Presidential canvass and election will be on hand the coming year. The JOURNAL proposes to keep its readers posted in the progress of the campaign as well as in the general news of the day. Send one dollar and a half and get a valuable newspaper for one year.

CITY AND VICINITY.

Read new advertisement of the U. S. & C. S. steamers between New Berne and Norfolk.

The Railroad mills below Hancock street is being enlarged and getting ready for big work.

Twenty prisoners are now incarcerated in Craven county jails. Four of these are chargeable to the United States.

The schooner A. J. Marine, Master, master, arrived Saturday from Charleston, S. C., with a cargo of phosphate for E. H. & J. A. Meadows.

Schooner Eugene Arendalls, Youmans master, is in port from Charleston with a cargo of fine wood consigned to E. H. Meadows.

From the Elizabeth City Carolinian we see that Mr. Adolph Cohn of this county was awarded the diploma for the best display of plug tobacco at the Fair in Elizabeth.

Howard & Co. are offering special inducements for the fall trade in clothing and gents furnishing goods. They have a large and well selected stock, a notice of which appears in this issue of the JOURNAL.

Our Green Manuring article talks about hog cholera in this issue. The remedy proved is simple, and we think is not unlike the same that our Jones county correspondent has urged before. It must be remembered that is a preventive and particularly a remedy after the hog has taken the cholera.

D. B. Walker is evidently in a Hungarian settlement. He now issues a paper published at Hickory, Pa., the Swan-Hungarian. In my opinion an account of the arrest of the ingenious postmaster in which Walker acted a prominent part would be quite interesting to tell what it was about, and will keep some of the present unfortunates of Walker showing him. We think the writers are just together a mixture, as a communication was never received and Walker who was formerly postmaster was the man who received it.

Burgess Good Work

Mr. C. T. Randolph will take a number of the Legislature from Carteret next week. The people of that county will have an opportunity of examining his work and purchasing in first class bricks.

Death of Capt. Appleton Oaksmith.

The remains of Capt. Appleton Oaksmith passed from Morehead to Carteret county, on the train Saturday night to Havelock. Capt. Oaksmith died in New York on Wednesday night last. In many respects Capt. Oaksmith was a remarkable man. A true history of his life would be quite an interesting little volume.

The Cash vs Race Question.

A correspondent writes us that a race will be run at Fair Grounds on Wednesday next for a purse of $100, and that will close the New Berne fall race season. There is much to be said in favor of the cash system, and we hope that the time is not far distant when the race track will be a thing of the past. Let the money be given to the Fair Association, and let the people have the benefit of the exhibition of fine stock, fine poultry, fine fruits, fine vegetables, fine ladies, fine everything, and not fine horses alone.

Is There a Duty

A correspondent writes us that a case is now pending in the U. S. Court at Wilmington, in which the question is involved whether or not a duty is to be paid on the importation of fertilizers. Whether the case is decided one way or the other, it is important that the duty be paid, as the money is needed by the government. We are prepared to say that all fertilizers that are imported into this country are subject to a duty of 20 per cent ad valorem.

Death of Mrs. Mary Hughes.

The many friends of Mrs. Mary Hughes will regret to learn of her death, which occurred at her residence on Middle street, Monday morning last. Mrs. Hughes was a most estimable lady, and was loved by all who knew her. She was a member of the Baptist church, and died in the full faith of a glorious immortality. She was the mother of Mrs. Mary Hughes, wife of Mr. Wm. Hughes, Jr., and Mrs. Hughes has the sympathy of the community in the loss of her mother.

Fourth Quarterly Meetings of New Berne District.

Their Business Booming.

In reply to our item the other day, that a general revival of trade at R. N. Duffy's drug store was their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption, Coughs, Colds, Throat and Lung Troubles, we have received from them the very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. Every bottle warranted. For sale at R. N. Duffy's drug store.

No Conspiracy.

The attempt to prove a conspiracy on the part of the Craven county canvassers in the U. S. Circuit Court on Monday signally failed. We feel sure that Attorney Hughes will make short work of the matter. The Supreme Court has decided that the canvassing board is not invested with judicial powers and a jury if twelve intelligent and honest men have said that the members of the board were legally elected. Let us abide by the law and be a little more charitable in our estimate of the motives of our fellow men.

Hyslinson.

The marriage of Miss Mary H. Ipock to Mr. William Moss Mason of Newbern took place at the residence of Wilkes Ipock, Esq., on Wednesday morning last.

The bride looked charming in the arms of Mr. H. W. Ward, but not so much the groom with Miss Hodges sister of the bride, moved up the aisle at the time appointed, while Mendelssohn's Wedding March pealed forth from the organ under the skillful touch of Miss Nannie Hughes.

The fair Mr. Smith got them as the best and the beautiful were only at the church was packed and the reception at the residence of the bride's parents was a brilliant affair. The bridal party at once took the train for their future home in Norfolk.

The very many friends of the happy bride part with her with regret, and the unanimous wish is that happiness and prosperity may ever attend the pathway of the newly married pair.

Send Another Invitation.

The Newbern Conference of the M. E. Church South will convene in Fayetteville next week. Bishop Key of the North will preside.

At the last annual conference the question of New Berne's claim to the next session was discussed, but would finally be left to the executive committee to be decided. It has been seventeen years since the body assembled in New Berne. It is perhaps the largest representative body of christians that convenes once a year.

Our Methodist friends will doubtless receive the hearty co-operation of all our citizens in their efforts to entertain this body, and we hope therefore an earnest invitation will be extended.

New Berne needs visitors, we want people to come and see us and carry the news with them, and that the old town is not dead but fully alive and growing better as well as older. Invite the Conference, and our farmers will raise a special coop of poultry and our oystermen will wash their gardens with increased interest.

Jones Superior Court.

The superior court of Jones county convened at Trenton on Monday, Judge Philips presiding. It was a rainy, slippy day and but the afternoon a heavy rain commenced. Therefore with the exception of the usual number of cases, there was nothing unusual in Jones county. But the crowd took in their fully appreciative of the fact, which had not rested during their week of rain.

There was not a large criminal docket, at least the court had but little work in the civil. It was while the grand jury furnished business. The people of Jones are progressive when it comes to matters only indirectly connected with their own farms. If there is a road to be established, which the interest of the public demands, the commissioners are sure to find and pay current expenses.

The cases were but little interesting to the party not of record. They don't know how to run a contest. They gave the court much trouble by appealing every decision from the chair. Even the Judge was appealed to by the chairman of the board of commissioners.

The court adjourned Friday evening, and the people of Jones will not be troubled with another session for a year.

Will It Pay?

The question is with a railroad from Washington connecting with the road from here to Onslow county, and from there to Wilmington, New Berne and Craven county.

The success of the undertaking depends upon the future of the Atlantic & North Carolina railway from Norfolk to Wilmington and the South, which the building of these roads will unfoubtedly settle in the near future, the writer confidently believes the road would be a success from the start, and the amount of our business, under the Onslow branch. Why, there are three articles that will yield enough freight to much more than pay expenses. Never will the time that fuel is corn will be so high as it is at the Southwestern and the State prison at Wilmington. Wilmington now buys from the west that she could supply to N. C. & W. R. R. Now Berne and Wilmington are the nearest points to the west that can supply the Atlantic & North Carolina railway. Then there is the lumber business. Why, there are millions of feet of lumber on the line of the railroad that can be brought to market. Then there is the naval stores business. Why, there are thousands of barrels of rosin and turpentine on the line of the railroad that can be brought to market. Then there is the fish business. Why, there are millions of fish that can be caught in the waters of the sounds and rivers on the line of the railroad that can be brought to market. Then there is the oyster business. Why, there are millions of oysters that can be brought to market. Then there is the truck business. Why, there are thousands of barrels of truck that can be brought to market. Then there is the cotton business. Why, there are thousands of bales of cotton that can be brought to market. Then there is the passenger business. Why, there are thousands of passengers that can be brought to market. Then there is the mail business. Why, there are thousands of mails that can be brought to market. Then there is the express business. Why, there are thousands of packages that can be brought to market. Then there is the telegraph business. Why, there are thousands of messages that can be brought to market. Then there is the telephone business. Why, there are thousands of messages that can be brought to market. Then there is the electric light business. Why, there are thousands of lights that can be brought to market. Then there is the water business. Why, there are thousands of gallons of water that can be brought to market. Then there is the gas business. Why, there are thousands of gallons of gas that can be brought to market. Then there is the oil business. Why, there are thousands of gallons of oil that can be brought to market. Then there is the coal business. Why, there are thousands of tons of coal that can be brought to market. Then there is the iron business. Why, there are thousands of tons of iron that can be brought to market. Then there is the steel business. Why, there are thousands of tons of steel that can be brought to market. Then there is the copper business. Why, there are thousands of tons of copper that can be brought to market. Then there is the silver business. Why, there are thousands of ounces of silver that can be brought to market. Then there is the gold business. Why, there are thousands of ounces of gold that can be brought to market. Then there is the diamond business. Why, there are thousands of carats of diamonds that can be brought to market. Then there is the pearl business. Why, there are thousands of pearls that can be brought to market. Then there is the ruby business. Why, there are thousands of rubies that can be brought to market. Then there is the sapphire business. Why, there are thousands of sapphires that can be brought to market. Then there is the emerald business. Why, there are thousands of emeralds that can be brought to market. Then there is the opal business. Why, there are thousands of opals that can be brought to market. Then there is the turquoise business. Why, there are thousands of turquoises that can be brought to market. Then there is the amethyst business. Why, there are thousands of amethysts that can be brought to market. Then there is the topaz business. Why, there are thousands of topazes that can be brought to market. Then there is the garnet business. Why, there are thousands of garnets that can be brought to market. Then there is the jasper business. Why, there are thousands of jaspers that can be brought to market. Then there is the agate business. Why, there are thousands of agates that can be brought to market. Then there is the onyx business. Why, there are thousands of onyxes that can be brought to market. Then there is the chalcedony business. Why, there are thousands of chalcedonies that can be brought to market. Then there is the carnelian business. Why, there are thousands of carnelians that can be brought to market. Then there is the sardonyx business. Why, there are thousands of sardonyxes that can be brought to market. Then there is the bloodstone business. Why, there are thousands of bloodstones that can be brought to market. Then there is the heliotrope business. Why, there are thousands of heliotropes that can be brought to market. Then there is the chrysoprase business. Why, there are thousands of chrysoprases that can be brought to market. Then there is the prase business. Why, there are thousands of prases that can be brought to market. Then there is the plasma business. Why, there are thousands of plasmas that can be brought to market. Then there is the heliotrope business. Why, there are thousands of heliotropes that can be brought to market. Then there is the chrysoprase business. Why, there are thousands of chrysoprases that can be brought to market. Then there is the prase business. Why, there are thousands of prases that can be brought to market. Then there is the plasma business. Why, there are thousands of plasmas that can be brought to market.

Preserve Your Eyes.

It is simply wonderful the reputation Hawkes' Spectacles and eye glasses have attained throughout the United States, they are known from the Atlantic to the Pacific, and their reputation is built upon real merit. Testimonials from the most eminent men of the country are given, who have had their sight improved by their use.

All eyes fitted and the fit guaranteed at the drug store of F. S. Duffy, New Berne. sep 5 1m
