

THE JOURNAL

Published at the Post Office at New Bern, N. C., second-class matter.

COLONEL FRED D. GRANT, the son of General U. S. Grant, was defeated for Secretary of State in New York by about twenty thousand.

THE success of the Democratic ticket in New York has given President Cleveland another boom for a second term. His nomination by the next Democratic convention is a foregone conclusion.

ALSHING AROUND LOOSE. According to the New York Times there are some 10,000 or more voters in that city known as Independents who "alsh around loose," who may be found voting according to circumstances.

THE result of last Tuesday's elections renews the confidence of the Democrats of their ability to re-elect President Cleveland. But much depends upon the work to be done by the first session of the Fiftyeth Congress.

THE Raleigh Signal thinks Hon. F. M. Simmons should bolt the Democratic caucus if it nominates Carlisle for Speaker because they do not agree upon the repeal of the internal revenue laws.

CONVICTS ON PUBLIC ROADS. The Progressive Farmer is contending earnestly for convict labor to be used on our public roads. The principle is unquestionably right if it can be shown to be practicable.

THE Progressive Farmer but voices the sentiments of the JOURNAL uttered seven years ago when it says that our so-called system for working our public roads is not only shamefully inefficient, but is grossly unjust.

NO INCONSISTENCY. The inconsistency is that the tax on whiskey, beer, wine, apple-jack, cigars, etc., is declared to be odious and that there are newspapers that are willing to fasten this "odious" system upon the people of the State for all time.

THE Southern undertook to show that the JOURNAL was inconsistent in wanting the system changed from a Federal to a State system. The JOURNAL has never declared in favor of any such thing.

plus in the treasury is more dangerous and corrupting than free whiskey and tobacco. The JOURNAL is not in favor of free whiskey and tobacco.

TO us it seems a little inconsistent in newspapers who adhere strictly to the doctrine of State rights, oppose anything like a "paternal government," and at the same time proclaim that whiskey and tobacco are free unless the money collected from the same, by a Federal system, goes into the treasury at Washington.

THE EAST AND THE WEST. The following paragraph is from the Statesville Landmark: "The letter of Congressman Simmons, of the second district of this State, on the internal revenue system, which letter is printed on the first page of this paper, has the ring of true metal."

THE present system of convict government. "No man liveth to himself and no man dieth to himself." Yes, Mr. Simmons has the good sense to see that no section in North Carolina can afford to resist the extension of the present system of convict government.

THE great aim of a political party should be to do right. Wrong may succeed for a time but it will eventually rebound on the perpetrators. Partisan legislation is a two edged sword; whenever it is made to cut in one direction the time will soon roll around when it will make a swipe in the opposite direction.

THE river is in the order for the timber men who are busily engaged in cutting and preparing for market. The proprietor of the French eating saloon at Trenton has moved his saloon next door to M. T. Smith's store.

THE news has been sent out and scattered broadcast over the State that the people of this section wanted to saddle the A. & N. C. R. with an additional debt of \$700,000 for the purpose of extending it only fifty miles.

GERRYMANDERING INFAMOUS. The Wilmington Messenger denounces the gerrymandering of New York State by the Republicans which enables them to elect a majority of the members of the Legislature, notwithstanding the State is largely Democratic.

Pamlico County Debt. EDITOR JOURNAL.—Although Pamlico county has voted against the proposition to issue bonds for the settlement of the railroad debt, still the plain fact states her taxpayers in the face, that something must be done to rid them of this heavy tax.

THE plain fact states her taxpayers in the face, that something must be done to rid them of this heavy tax. The tax must be paid, but the debt has been satisfied. Other counties are free from debt, have handsome public buildings, and have money in their treasuries.
