BONE GURED

LITHONIA, Ga., August 11, 1887.

THE SWIFT SPECIFIC: O., Atlanta, Ga.:
Gentiemen—I have been afflicted with ulceration of the heaver since I was a child, the disease uncoubtedly being hereditary, as my mother suffered from scroful-ous symptoms. As I advanced to manhood my affliction increased until the malady became harrassing and painful beyond the power of words to describe. My right leg particularly became fearfully involved, the left leg being less painfully affected. Finally, about fourteen years sey, the ulcers on my

particularly became rearting involved, the left leg being less painfully affected. Finally, about fourteen years ago, the uicers on my right leg had eaten through the fie h into the bone. In order to save my life the doctors determined to numputate my leg below the knee. The operation was successfully performed by Dr. H. V. M. Minier, of Atlanta, and Dr. W. P. B. nd. of Lithonia. But the loss of my leg gave ne only temporary realistics. The poison was still in my system and life. The poison was still in my system and

loss of my leg gave me only temporary re-lief. The poison was still in my system and soon began to know itself egain. In a short time after large ulcers appeared on my left

by the blood which cozel from the huge ulcers, and the sores and rottening holes were so offensive that my fellow-workmen could not stand the stench and would move sway from me.

were so offensive and would move away from me.

Last winter I was persuaded to try S. S. S. As a last effort I consented to do so, and about seven months ago I began taking the Specific. I soon began to feel the good effects of the medicine, the offensive running began to grow his and less and finally censed, the ulcers healed, my fiesh became firm and solid, and to day, after using twenty-one bottles. I am as help and stout a man of my age as there is in Georgia. I am seventy-one years old, but feel now younger 2nd stronger than I did when I was twenty-hve. I weigh about 10 pounds. Nothing is to be seen of the terrible disease, or to remind me of the torture I suffered or so many years, except the sears of the perfectly healed ulcers.

I want the world to know of the almost miraculous cure effected on me by S. S. S., and I call upon those who wish to know the particulars directly from me to write, and I will consider it a pleasure as well as a duty to answer their letters. I refer to Dr. W. P. Bond, of Lithonia, as to the truth of my statement.

Very gratefully yours.
