THE FIRE FIEND.

He's always on hand and at every fire. He provokes the firemen's ire of Georgia, has issued his report of As he pushes himself into somebody's analysis and commercial values of And inquires, "Say, where's the fire?" fertilizers-season 1887-88, and ap He wiggles his way through the surging pends the following, which we present to the readers of The Progres- mond. crowd And he won't let up or tire

Of propounding the question o'er and "Can you tell me where's the fire?" At every corner, on every street.

He will stop you to inquire: 'Who got first water and what was the And, partner, where was the fire? Oh, hire the fool-killer to knock him

And we'll build his funeral pyre. And we'll buy him a slab and engrave If the compost is intended for "He at last found the fire."

It will be their heart's desire. Tofcatch him and kick him or club him to death

And send him where there's a fire.

UNSLOW COUNTY.

This county is situated in the southeastern part of North Carolina, Making a ton of bordering on Onslow Bay. Its area These ingredients may be varied is estimated to contain six hundred in proportion to adapt the resultsquare miles. It is intersected by ing composts to different soils or New river. Its surface is generally crops, but either of the above will level; the soil sandy. Corn, cotton, be found to give satisfactory results rice, lumber, naval stores, potatoes, peanuts, beef, pork, fish and oysters our cultivated crops. are its chief products. The county To the above it may be added was formed in 1734 and was named that if the quantity of stable main honor of Arthur Onslow, speaker nure available for composting is of the British House of Commons, either relatively greater or less Jacksonville, formerly Opslow C, than the proportions indicated in H., is the capitol. The county has the above formula, the proportions
