

The daily Enterprise of New Berne has made its appearance and, in a handsome, well edited paper.

THE Greenbackers of the State once declared them to be broke and wanted an asylum for them.

THE Durham Plant MAN, "Young Democrat" means a Democrat under 29 years of age. That is the reason we have no old men's Democratic clubs.

BAILEIGH is exercised over the capture of Scott Martin, a murderer who has been at large for thirteen years. The particulars of the murder is given in another column.

AND the Irish vote of New York that stood ready for Blaine will desert Harrison on account of his Know Nothing record. Harrison will soon wish that his record had been burned years ago.

It is said that the Farmers Alliance is raising money to establish a cotton house in England for the sale of their cotton. We are of the opinion that the Grangers made an effort in this direction but signally failed.

GOVERNOR NORTON has formed an alliance, offensive and defensive, against the aspirants. A letter to Col. Crozier of the Economist on the subject shows that the Governor means business.

THE New York Times, the most decent of Republican New York papers and the ablest editor, will give Cleveland and Thurman a warm support. Their election is a forgo conclusion, because as is a necessity.

THE trade in Southern delegates at the Chicago Convention would have been break and interesting. If the O. P. should survive another defeat the position of delegate to the National Convention will be as anxiously sought as for Congress in the second district.

THE workingmen of the country will not overlook the fact that they have just received from Democratic administration the official recognition they have long asked for in the establishment of the Department of Labor as a branch of the executive government of the United States. President Cleveland will support his new idea as well as the new idea of an organization of the Department of Labor as well tender of great and permanent service to the industrial masses of our people. They will appreciate the advantage that the new department will bring to them and its existence will favor to them an additional reason for voting to continue in power honest and labor protecting Democratic administration.

THE Goldsboro Argus makes the point that the Republicans of North Carolina acted wisely and consistently in nominating a tariff rate lawyer and a man wanting in scholarship, being entirely ignorant of educational methods and needs, for Superintendent of Public Instruction as they are opposed to education. The point is well taken. If they are anxious to keep the public schools up to their present standard and advance the cause of education they would have offered to the people of North Carolina a candidate for this important position a first class scholar, one familiar with the ideas and methods of teaching and warmly devoted to the cause of education. A plain man as Major S. M. Finger and every friend of popular education ought to rally around him as a superior man as Mason is represented.

IN HIS STRONG CANDIDATE Harrison has made a very bad mistake. His platform endorses the lockout and the strike. His platform opposes Chinese immigration. He is a "W. S. S."

Well, the next is to defend the Greenbackers of the West that that vote is put down against him and again he favors the continuation of the present unjust tariff which is taking more money from the people than the government needs. We thought before the nomination that Harrison was the most dangerous man for the Democrats in the country could name, but we confess that we were so acquainted with his record. The Star has put him down as a strong candidate. But is he strong? Perhaps it is well so regard him if it will arouse the Democrats to renewed exertions to elect Cleveland and Thurman.

WAR CLOUDS European skies are again darkened. The military preparations of Russia and Austria, the restlessness of France, and the various acts in regard to Germany, awaken serious doubts whether the peace of Europe be really in jeopardy.

The military preparations of Russia and Austria, the restlessness of France, and the various acts in regard to Germany, awaken serious doubts whether the peace of Europe be really in jeopardy. The military preparations of Russia and Austria, the restlessness of France, and the various acts in regard to Germany, awaken serious doubts whether the peace of Europe be really in jeopardy.

One or more of the Balkan States are dissatisfied with their present governments. Appeals have been

made to King Charles, but they are disregarded, and Russia has been asked to intervene. Russia and Austria troops are applying the Balkans. A single regiment of Russian troops has been sent to the Balkans.

The Russian troops are applying the Balkans. A single regiment of Russian troops has been sent to the Balkans.
