## MARBLE WORKS, WALTER'S Photograph Gallery.

Having purchased a large stock of Marble, and the demand for same being small, I now offer to the merchants and jobbers at 10% below market price. Cash on delivery.  
NEW BERNE, N. C.  
G. E. WILLIS is my authorized agent.

## MONUMENTS TOMBS

And all kinds of Marble and Granite work.

## ITALIAN AMERICAN MARBLE

Orders will receive prompt attention and satisfaction guaranteed.

**JOE K. WILLIS, Proprietor:**  
Cor. BRAD and CRAVEN STS.  
NEW BERNE, N. C.

## CIGARS FOR SALE AT COST.

Having purchased a large stock of Cigars, and the demand for same being small, I now offer to the merchants and jobbers at 10% below market price. Cash on delivery.

**R. N. DUFFY**

### EDITORIAL NOTES.

BLAINE is off to Michigan.  
SMALL pox is raging at Buffalo, New York.

WKT Blanket Blaine has met with a cold reception in the West.

THE Georgia State election has just taken place. Democratic of course.

THE Richmond exposition was opened last Wednesday. The attendance is very large.

A BILL has been introduced in Congress to reduce letter postage to one cent an ounce.

THE Senate has passed a bill granting a pension of \$3,500 to the widow of General Sheridan.

BLAINE has found that the best use he can make of wool is to pull it over the eyes of the people.

MR HARRISON says he has no objection. It is an old saying that "murder will out," and it is true.

ANTI-SLAVERY contributions to the funds of the Democratic Campaign Committee are dropping in at a lively rate.

DEMOCRACY is fast disappearing. The Morians are becoming satisfied that further resistance to the will of law is useless.

It is said that Kitchin skinned Poskey at Taylorsville a few evenings ago and had the hide in the yard before breakfast.

THE commercial outlook in New York is reassuring. The business season was opened well and an unusually large trade is expected.

THE World suggests that if any one has a spare copy of a history of the American tariff, it would be an act of kindness to send it to Mr. Blaine.

MR BLAINE has not made the sensation that his friends predicted. He was expected to serve as an electric light, but has proven to be a wet blanket.

THERE has been snow in Virginia and frosts in many of the States of the South. This justifies the hope that the yellow fever will soon pass away.

WILLIAM L. SCOTT is the richest man in the House of Representatives. He served as a page in Congress in the days of Clay, Webster and Calhoun.

WINTER has taken an early start. Frost in nearly all the States, and snow in Virginia, New York, New Hampshire, Vermont and Michigan, and throughout England.

MR. MORTON, the Republican candidate for Vice President, has given to the public his letter of acceptance. It contains nothing new, but keeps harping on the tariff.

ON the first of October the United Labor party of Illinois issued a circular endorsing Gen. Palmer, the Democratic candidate for Governor, and urging workmen to vote for him.

It is now said that the County Democracy and Tammany are again at peace, and Mayor Hewitt will be re-nominated for Mayor of New York tonight at a meeting in Cooper Union.

CROP reports from the north-western States show a great harvest of corn, but a rather small crop of wheat. It is hoped that the big yield of corn won't tempt Southern farmers to keep their corn cribs in the north-west.

THE trouble with Mexicans on the Texas frontier, that lately extended, has passed away for the present. These annoyances are occurring a little too often, and may provoke severe measures of retaliation at no distant day.

SOME enthusiastic devotee of truth, having in his mind directed to the various accounts of bets made in New York on the Presidential election, has made a careful investigation of the matter and concludes that the bets are "an average of 19 to 2 on Cleveland."

Business going to pieces, did you say? See here. All of the window glass factories in the Western Association, twenty-nine in all, resumed operations last Monday after a six weeks shut down. Thirteen hundred men were offered work in Pittsburgh alone.

UNDER the idea of making a clean breast of everything, it is in order for General Harrison to announce that in the event of his election, Mr. Blaine is to be his premier. But there is no need of it, inasmuch as the contingency is too remote to be seriously considered.

THE very complete summary of election betting reports from all parts of the country published in the New York Times, shows a decided preference for the Democratic candidates. The latest wagers are five to four on Cleveland, but in many cases larger odds are given on our nominees.

So far as we can ascertain, the Democrats have gained in all the State elections but one. In Alabama, Arkansas, Georgia, Connecticut and Maine the cause of Democracy has been grandly sustained. Only in Vermont have the Republicans made any gains, and those attributable to the groundless fear of Canadian invasion.

### REPUBLICANS ARE SAYING THAT

Tammany has backed down. Not at all, gentlemen. Tammany has simply defined, so far, to place a candidate in the field against Mayor Hewitt. Tammany always prefers to have a Tammany man in office, but never fails to work for the Democracy. The election of Cleveland and Hill is paramount, and will be kept steadily in view by both Tammany and the County Democracy.

CONGRESS has been heard from. The Democrats hold their own everywhere, and made heavy gains in the towns heretofore Republican. The loss of Redwood, Governor Lombardy's place of residence, and of Stamford, where the Hon. Samuel Bessenden of the National Republican committee has held the political leadership for years, has had a demoralizing effect on the Republicans. In the city of Hartford the Democrats won every position of importance.

THE present is the longest continuous session of Congress ever held in Washington. The longest preceding session was that of 1859, which ended Sept. 30, 1860, but no man can tell when the session will end. It may be longer, and it may be shorter, but it is being considered a Congress for revenue only. But the pay of members is not materially affected by the length of their sittings, it is regulated by the Congress for themselves.

### PROGRESS OF THE CANVASS.

One more month and the campaign is over.

The National Committee, looking over the whole field of contest, and observing the unanimity of the supporters of the Administration, anticipate the largest possible vote, and the greatest possible triumph.

Democratic leaders have the utmost confidence in the success of their national ticket. The States that voted for Cleveland in 1884 will do it in 1888, and there is great reason to believe that several States heretofore Republican will join the Democratic column.

The Democratic campaign has been steadfast to principles—true to the party platform and the policy of the Administration. The Republican campaign has been vacillating—perpetually shifting to catch the popular breeze, and always missing it. The consequence is the Republican party has lost ground, and it is now too late to retrieve their fortunes.

In North Carolina the Democratic ticket is very bright. Our candidates have visited every part of the State, and have been met by the people with every demonstration of approval. The joint discussions have come to an end, and the Republicans have refused to renew them. They cannot meet the issues in debate before the people whose suffrages they are seeking.

The Prohibition party is cutting a poor figure in this campaign in North Carolina. Thousands of our people—we believe a majority of them—would gladly witness the destruction of the liquor traffic, but they have no sympathy with the Third party, and will not support it. A few good men will vote with that party, believing that they are doing God service, but we do not believe the Democratic party in North Carolina will lose five hundred votes on account of prohibition. Everything indicates the election of the Democratic ticket.

The Democratic party ought to have an unbroken delegation in Congress from North Carolina, and such a result is confidently expected. Mr. Simmons ought to be elected by a handsome majority. He has made himself especially obnoxious to Trust by his heroic efforts to protect the farmers from their oppressions, and he has aroused the ire of monopolists by his advocacy of the Mills bill. If ever there was a man in the Congress of the United States who deserved the gratitude of his constituents that man is F. M. Simmons. We know that as a general rule men are not entitled to thanks simply because they do their duty, but when a man stands out as the bold and uncompromising opponent of wrong in all its forms, and the gallant and unflinching champion of right at all times and at all hazards, he deserves every expression of confidence and devotion that his constituents can bestow.

Simmons has never hesitated to serve the humblest of his people, and he has never hesitated to attack the proudest and most powerful of his oppressors. It has been said that money has been sent into the district to defeat Mr. Simmons. Well, it may as well be understood at once that there is nobody here for sale. The people in this section sell horses, cattle and hogs, but not a man, woman or child can be bought. Come, now, none of that! We won't stand it. Every man will vote for Mr. Simmons, and they won't be sent to Africa for it either. A fair vote and an honest count is Democratic doctrine, and under it we will elect our full ticket, National, State, county and congressional.

CHINESE EXCLUSION.  
On Monday, October the first, the President sent to Congress his message approving the Chinese bill. In the language of the message the object of the bill is "to more effectually accomplish by legislation the exclusion from this country of Chinese laborers."

The justification of this action is found in the fact that the experiment of blending the social habits and mutual race idiosyncracies of the Chinese laboring class with those of the great body of the people of the United States has been proven by experience to be unwise, impolitic and injurious to both nations.

If there is one thing more clearly taught by the law of nations than that, it is the admitted and paramount right of every government to exclude from its borders all elements of foreign population which retard its prosperity, and are detrimental to the moral and physical health of its people.

Admitting this canon of international law, the only question to be determined is, does the admission of Chinese laborers into America retard the prosperity, and injure the moral and physical health of the people?

History is philosophy teaching by example. Now, where are the examples that illustrate our sub-

### THE YELLOW FEVER.

JACKSONVILLE, Oct. 2.—The prospect is a bright one. For the 24 hours ending 6 p. m. not one death from yellow fever has been reported. This is the first instance of like record in many weeks. Number of new cases today was only one. Total cases to date 2,897. Total deaths 294.

A message from his suburban home brings news of Col. Daniel's death. He was a native of South Carolina, and resided in Florida for over forty years.

NAVSVILLE, Tenn., Oct. 2.—A special to-day from Decatur, Ala., says that eighty cases are now under treatment, and two of them will be dead before morning.

JACKSONVILLE, Fla., Oct. 2.—At a meeting of the executive committee of the Board of Health, the committee reported that the number of ration tickets was being rapidly decreased, and that the work of the day was being carried out and corrected as fast as consistent with maintaining the good work of his department.

STARK, Fla., Oct. 2.—An expert was needed at Temple Hill Station, on the Florida coast, to examine the condition of S. Temple, proprietor of the mill, as it was believed he had yellow fever.

Edwin Martin, of the Times Union, left his office today at twelve years of age, but is suffering from prostration. He has no symptoms of fever, but is suffering from prostration. He has no symptoms of fever, but is suffering from prostration.

JACKSONVILLE, Oct. 3.—The situation today presents no new features, the subject uppermost in the public mind being the death of Col. J. Daniel. He had been resident of Jacksonville since 1841, and no man in the city was more highly esteemed for his integrity, public spirit and moral worth. He was a member of the law firm of Fleming & Daniel, leading attorneys of Florida; one of the firm members of the firm, Capt. Frank Fleming being the Democratic candidate for Governor. The Auxiliary Association, of which Col. Daniel was president, met today and passed suitable resolutions on his death and adjourned without transacting any other business. The banks have been closed during the day, many buildings were draped in mourning, and business generally suspended. Any bright features which the situation presented are dimmed by the gloom and grief connected with the death of this large hearted man.

Dr. Neal Mitchell, President of the Board of Health, issued the following official bulletin on the subject of yellow fever: "Total cases to date, 2,897; deaths, 294. Total cases to date, 2,897; deaths, 294. Total cases to date, 2,897; deaths, 294."

There is a movement on foot to raise a fund for the erection of a monument to the memory of Col. J. Daniel. The Times-Union will tomorrow give its strongest possible endorsement, editorially and otherwise, to the friends of the dead philanthropist in whatever part of the country they may chance to be. There can be no doubt of the success of the movement, and it is confidently expected that many thousands of dollars will be raised. A market house at Jacksonville has never been raised a shaft to Confederate soldiers, and now regarded as eminently fitting that the first monument of this kind should be raised to one whose life was so closely identified with the welfare of the city and of the State of Florida.

JACKSONVILLE, Oct. 3.—The suggestion of the Times-Union, this morning, that a fund be raised for the purpose of erecting a monument to Col. J. Daniel, who fell a victim to yellow fever, and who had been very near to the heart of the people, has resulted in the calling of a mass meeting to be held Saturday next to take public action in the matter. The committee on resolutions will then report, and a board of trustees of the fund will in all probability be organized. A market house, nearly five thousand dollars is ready to be pledged as soon as subscription books are issued.

The situation today is more hopeful, but quite warm. Dr. Mitchell, President of the Board of Health, issued the following bulletin on the 24th hour ending at 6 p. m.: New cases 75; deaths 10. Total cases 2,897; deaths 294. Total cases 2,897; deaths 294.

DR. J. DANIEL'S DEATH.
