Kinston Items.

The Improvement in every direction are [illegible] the rapid rise in town rain.

Mr. J. D. Heath, joined the European [illegible] from Morehead City on last Saturday morning. A pleasant trip and safe return is the wish of many friends.

Wheat crops in Pink Hill township are turning out rather poorly. That which was not thrashed when the rains set in is sprouting in the field and it is feared will be much damaged.

Mr. R. W. McGowan has removed his turpentine distillery from near Beaverdam in Pink Hill township to Sandy Foundation where he will be nearer the center of the turpentine district.

Rev. H. C. Bowen, Disciple, and family removed this week to Williamston, Martin county, where Mr. Bowen will engage regularly in the ministry. He is a true man and an able advocate for the faith once delivered to the saints.

A big time is expected on the Fourth of July. The Farmers' Alliance will be in session, Gov. Hogg, Texas, will deliver a public address and a good short sprinkling of the old Confederate veteran will be on hand to organize a Veteran's Association.

Kinston's police force appeared Monday morning in their new uniforms. They are quite bodied gentlemanly looking and present a real city appearance. This is right. Every town should have its police force to appear like gentlemen. It will be hard to find a town with two finer looking policemen than Kinston.

The board of county commissioners and board of education in joint session on Monday last elected the talented W. D. Pollock, Esq., county superintendent to fill the unexpired term of Capt. W. S. Bird, deceased. Mr. Pollock is a graduate of Chapel Hill, is a young man full of vigor and ambition to succeed in whatever he undertakes. We predict that the educational interests of the county will not suffer in his hands.

In Pink Hill township there is a custom of advertising all grassy crops to shoot off at a shooting match on a certain day. Several have already been shot off, and under the ruling of the judges the poorest shot had to take the crop. Under this ruling at a recent shooting match Kate Jones, Esq., fell heir to a rice patch and Mr. Richard Noble, though near on to eighty, won a cotton patch. Others will be put up soon if the rains do not stop.

The A. & N. C. Railroad is still the topic of discussion with our people. They are earnest in their desire that that popular, energetic and able man, Hon. F. M. Simmons, shall be the next President. They want him for two reasons: 1st, because they know he is an indomitable worker and pushes to success whatever he undertakes and 2d, because they know he can aid in thanking Governor Fowle's administration the most popular in Eastern Carolina of any that has preceded it.

The county commissioners were in session on Monday and put in a big day's work. The following jurors were drawn for the August term of the Superior court. First week: Eq. Hart Sutton, E. M. Hodges, Jas. F. Hill, W. C. Fields, J. L. Alberston, M. B. Johnson, J. F. Stricklin, W. F. Stanley, O. A. Dudley, J. H. Cunningham, J. M. Phillips, Abe Oettinger, J. R. Croup, James Harper, W. W. Fuller, J. R. Hodges, Thos. Dawson, J. J. Howard, Jesse Fields, J. W. Rhem, W. H. Worth, J. H. Bell, Vincint Jackson, A. J. Barfield, I. B. Perry, Jno. N. Walters, Alonzo Quinn, J. A. Rhem, Lemuel Fields, Geo. T. Brown, C. K. Aldridge, A. J. Kilpatrick, M. H. Kilpatrick, F. M. LaRoque, Geo. West, A. W. Bird, Jr., Second week: A. M. West, S. H. Reighd Jr., Dempsey Wood, D. S. Davis, Allen Patrick, W. R. Phillips, J. W. Rice, T. M. Aldridge, Alonzo Rouse, W. H. Waller, J. F. Hartsfield, J. O. Cox, Franklin Turner, J. T. Faulkner, Zack Howard, C. A. Jenkins, W. J. Hardy, J. L. Hartsfield.

Stonewall Items.

Mrs. Ann E. Cherry and S. H. Baxter have been luxuriating on green corn for the past few days, and J. B. Quick had his first tomatoes on 20th ult.

It is in anticipation that all the old Confederate soldiers will meet in Bayboro on the 4th inst. Messrs. W. T. Dahl and R. D. McCotter have been requested to address them.

Rev. O. L. Wyche, the Methodist circuit rider for this section, with the assistance of Rev. Mr. Buss and others, are having quite a success in storming the breastwork of his satanic majesty in Stonewall. Several conversions reported and plenary material left to work on yet.

The Illiterate person would be perplexed to find in Webster's unabridged words to express the discomfort that the farmers are meeting with by rain, rain, expensive rain. Oats are raining in fact work on crops is suspended and it is utterly too wet for frogs or crawfish.

Capt. Wm. S. Simmons of Brant Island light house, has moved his wife and children to our place and occupies R. H. Baxter's new house. Zach Swindle has purchased the house and lot on which R. H. Baxter now lives, and I have been told that Capt. Simmons is about to purchase the A. H. Hamlin house, and Dr. Jno Parson has purchased a lugger and log soon the new mill. It seems that there is a little life in Stonewall yet.

Cotton Seed as Feed.

There is an astounding statement published to the effect that 1 bushel of the cotton seed of the cotton States will produce more beef, butter, milk and cheese, more wool and mutton, than all the clover and blue grass of Tennessee, Kentucky and Ohio. And yet it appears to be true. An Atlanta firm fattened 3,000 beeves last year on cotton seed hulls at a profit of $80,000. Two train loads of these beeves were shipped from Atlanta to Philadelphia and sold there in competition with Chicago beef. This same firm will fatten 10,000 steers next winter.

Mr. Joel Chandler Harris, an authority on foxhounds, bees and Jerseys, is feeding his herd on cotton seed hulls and says the result in milk, butter and beef is amazing. In the Southern Farm, Mr. W. M. Towers, of Rome, writes of a test between corn, cotton seed hulls, in which the latter produced vastly better results.

And yet until a year ago cotton seed hulls were used as fuel for engines or cast away as worthless. Of all the plants that grow, cotton is the most valuable, and its wonders are not yet tried. Its little black wrinkled seed is as full of meaning as an old Hebrew verb.—Atlanta Constitution.

Also Women Praise B. B. B.

The suffering of women certainly awakens the sympathy of every true philanthropist. Their best friend now over is B. B. B. (Botanic Blood Balm).

H. L. Cassidy, Kennesaw, Ga., writes: "Three bottles of B. B. B. cured my wife of scrofula."

Mrs. R. M. Laws, Alaba, Fla., writes: "I have never used anything to equal B. B. B."

Mrs. C. H. Hay, Rocky Mount, N. C., writing: "Me. A day for 15 years was [illegible] from headache. B. B. B. entirely relieved me. I feel like another person."

James W. Lancaster, Hawkinsville, Ga., writes: "My wife was in bad health for eight years. Five doctors and many patent medicines had done her no good. Six bottles of B. B. B. cured her."

Miss S. Tomlinson, Atlanta, Ga., says: "For years I suffered with rheumatism caused by kidney trouble and indigestion. I also was feeble and nervous. B. B. B. relieved me of some although several other medicines had failed."

Rev. J. M. Richardson, Clarkston, Ark., writes: "My wife suffered twelve years with rheumatism and female complaint. A lady member of my church had been cured by B. B. B. She persuaded my wife to try it, who now says there is nothing like B. B. B. as it quickly gave her relief."

Among the portraits which adorn the walls of the Teachers' Assembly Hall at Morehead city there is none to excel that of Major S. M. Finger, drawn by Miss Aurora Mace of this city.

The time for holding the convention of the State Press Association at Lenoir has been changed by the executive committee to the 24th of July—one week later than previously announced.

Matthew P. Wallace of Fort Barnwell brings news that there was an attempt to blow up the postoffice at that place last Tuesday night. We presume it was a mere attempt by bad boys to frighten the postmaster.

The investigation of Dr. Eugene Grissom of the Insane Asylum is creating quite an excitement in Raleigh. Some ugly charges are made, but judgment should be suspended until the investigation is completed.

Why stand you here all day long idle, waiting for capitalists to come and invest their money in a cotton factory? Put your own money in and co-operate with your fellow men and the cotton factory will be here and the profits arising from it will be ours.

It would seem that Governor Fowle ought to be getting pretty well informed about the A. & N. C. R. If Governor Scales had taken the same trouble to find out the views of the people he would not have been so universally condemned in Eastern North Carolina.

The new passenger station of the A. & N. C. R. was thrown open Saturday. It is a handsome building and well arranged for the accommodation of the traveling public. A change in the track will soon be made so as to bring the train alongside the building and a covered platform the full length of the train will be erected.

Dr. D. L. Osborne a veterinary surgeon from the Agricultural Department at Washington, D. C., was called to the city a few days ago to examine a sick horse which was thought to have the glanders. The doctor, after examination, pronounced it glanders and the horse was killed and his body burned. While the doctor was here he purchased a number of cattle from the city and adjoining counties which were forwarded over the C. F. & S. R. R. to the department in Washington.

Affairs in Onslow County.

We have a communication from Tar Fly in Onslow in relation to the same which came too late for this issue. It will appear in the next.

Our New Postmaster.

W. E. Clarke, Esq., has been notified of his appointment as postmaster of New Berne and will in a few days, as soon as his bond is accepted, take charge of the office.

Mr. Clarke is a courteous, polite gentleman with all the qualifications to make an acceptable postmaster.

The postoffice is of great importance to the business portion of the community and a fact all everybody living in the community. In the selection of his assistants we commend to Mr. Clarke the example of the retiring postmaster and that is that the selection be made on account of fitness, efficiency and acceptability to the people who have dealings with the office, after a Republican administration. We have no right to expect any Democrat to hold the office but the people have a right to demand that they be filled with capable and accommodating men.

If Mr. Clarke will give satisfactory an administration of the office as he have just left the past four years the people will complain.

The Fight Must Go at Last.

Mr. W. L. Spaulding and Mr. Wm. Lorch, prompted by a suggestion made in the columns of the JOURNAL a few days ago, made a last week canvass in the interest of a cotton factory. They circulated a stock company with [illegible] shares to be issued in shares of [illegible] shares to be paid in [illegible] of the subscription. In a short space of time after [illegible] were secured. In getting their [illegible] taken. The men were a good [illegible] the property owners. Time by time the men with the greatest confidence in the establishment of cotton and other factories will take stock, hence it will be a hard matter to raise the [illegible] in weekly installments. [illegible] But why not the property owners all in the enterprise? Are they lacking in public spirit? Do they lack confidence in the success of the scheme? If so are they lying unto themselves and casting it what he comes of their neighbors?

At Morehead City.

Friday the 28th closed the real business of the Assembly. The principal subject of discussion was History and Geography. A long essay upon these two branches, fully discussing its merits, was read by Prof. J. W. Woody of New Garden. Also short talks were made by a number of others present. The argument was full and brought out many new and valuable thoughts. Afterwards a beautiful address was delivered by that eminent and accomplished gentleman, Rev. Thos. Hume, D. D., of Chapel Hill, chairman of the Assembly Reading Circle. It was chaste, ornate, and only befitting a learned scholar.

A concert was held in the hall at night that was largely attended and entertaining. It consisted of vocal and instrumental music and recitations.

Saturday was set apart for a visit to the light house, Beaufort and Fort Macon. An excursion to New Berne had been tendered the Assembly by President Bryan of the A. & N. C. R. R., but owing to the rainy spell it was deemed inexpedient to accept.

Monday addresses are to be delivered on England, Scotland and France, preparatory to the European tour which will leave Morehead Tuesday morning direct for New York, where they will embark in the ocean steamship Nevada for Glasgow, to be absent on a six weeks tour. The party consists of one hundred and ten. We wish them a happy sojourn across the broad water.

Throughout the season of the Assembly the constant rains have made it very uninviting, especially interfering with sailing and going in the surf—two of the principal enjoyments at any sea side. Nearly every day a few of the more venturesome go out trolling. So far success has favored them much more in catching drenchings rather than fish.

If they cannot get out in the open air the large crowd make the best of it they can, amusing themselves within the walls of the mammoth Atlantic hotel. Games of whist, promenading, social chat and listening to the sweet strains of music from a splendid orchestra occupy the greater portion of the time. The Davis Cadet band has also contributed hertily to the enjoyment in furnishing brass music.

Considering the unfavorable weather, the opening at Morehead has been good and it is a pleasant and social crowd. It is generally conceeded that there is a larger number of pretty ladies present than ever before. The noise and bustle after nightfall, which is so annoying to the nervous and those who want to sleep, seems to have been lessend this season. We take it for granted that the management is more observant than formerly.

Most of the teachers have left, but every night a train brings in a goodly number of guests billed for the season.

It was carried to James City at 11 o'clock in the morning near the dwelling of a colored woman in whose house it was found during the night. It died that forenoon and that is all that has been dressed, but was not put in coffin rags or strips of cloth. The woman took it in, clothed it and is taking care of it.

Smith admitted that the child found in James City was his, but he was informed that his paramour's sons of his family connections had made arrangements for it to be cared for there and left with a relative, and that during the few days it had been there he had sent $6.00 for its support.

The nurse stated that Smith asked her if she could take it and some one to take the child, and that he would pay almost any price to have some one to take it. So first he'd him no and then thought of the relative in James City and went there for the purpose of getting her to take the child which she agreed to do with it knowing where it was. Her version in the family of the Smith nurse also stated that the child was not clothed when it left Smith's house. It appears it had no clothes, but was wrapped up and placed in a basket.

Harry Thorne who carried the basket with the child in it stated that he did not know what was in the basket that he carried and delivered it to Ellen Campbell the colored relative of James City, as directed, but that he did not receive four dollars to carry there afterwards.

Ellen Campbell and Isabella Blount, stated positively that it was found at the door on the ground with a few strips of cloth wrapped around it, $5 in money and a can of condensed milk.

Smith gave as his reasons for allowing the child to be sent off, that he thought the condition of his wife absolutely required it in order to save her life.

After hearing the testimony counsel submitted the case to His Honor without argument. Mayor Lloyd, Dr. Shotwell and Capt. Duffy first appeared in the superior court. A recognizance of $200 was required.
