EDITORIAL NOTES.

His Highness, the Pope, is critically ill.

The Progressive Farmer has taken position against Senator Vance.

The town of Fargo, in North Dakota, has been swept away by a cyclone.

The Governor of Louisiana has returned the lottery bill to the Legislature without his approval.

The Soldier's Home at Raleigh needs supplies. We trust that every county in the State will honor itself by contributing to this noble cause.

The political aspirant who attempts to array the farmers of North Carolina against Zeb Vance drives a sure nail into his own political coffin.

On Wednesday eulogies were delivered by several members in respect to the memory of S. S. Cox. No name is more deserving of lofty panegyric.

The life of the Democracy is so much the life of good, pure, honest, just government on these shores that they must live so long as the Government lasts.—Wilmington Messenger.

The Sun calls the Federal Election bill "the shadow of the man on horseback," and that is about what it is. Let this bill pass and the greatest safeguard to free institutions and at war with national harmony, material progress and personal liberty.

We hold that men who would strike down such champions of the people as Vance and Hampton are not proper representatives of the patriotic farmers of the country. They are the oracles of false gods, and sooner or later, they will bear the withering scorn of the honest men they are attempting to mislead.

WISE AND WELL SAID.

One of North Carolina's best citizens has favored us with a communication which we command and endorse. It is as follows:

"We commence this article by stating that whatever else we may be, we are no pessimist, consequently no chronic croaker or grumbler, but on the contrary, alarming as the signs of the times are, we still entertain a hopeful view of our country's future good, and only desire to call attention to some of the quick-sands and shoals that, we think, lurk here and there, on life's ocean, and which may endanger our future prosperity."

"The Democratic Alliance man who remembers that he is a North Carolinian as well as an Alliance member will not be enticed or driven into the Republican caravan."

REV. B. F. DIXON, D. D., has been elected President of the Greensboro Female College to succeed Dr. F. M. Jones. Dr. Dixon has accepted.

TERIFIC storms of wind, rain and hail are reported from Indiana, Michigan and New York. One telegram reports seven hundred lives lost.

UNDER which flag? There are but two great parties in this country—the Democratic and the Republican. With which will you muster.

THE BEHRING sea trouble grows in magnitude. Secretary Blaine must recede from his position war with England may result.

"SENATORS PLUMB, Cameron and Sherman, having interests in the South will oppose the Force bill on business principles."

A MOVEMENT is on foot at Winston to remove large lithographic works from New York to that city.

PENDER COUNTY Democratic Convention endorsed Hon. C. W. McClammy for Congress.

CHINA threatens to retaliate by excluding Americans from the empire.

THE Governor of Louisiana vetoed the lottery bill.

Stone walls items.

On the 9th inst. at 6:30 o'clock Mr. A. H. Whitehead, accompanied by his bride, Miss Maude Quick, arrived in Stokesville. The young couple had a hard time getting to the station, as the weather was awful, but they got through.

There was never any better weather for crops of all kinds, and they are surely utilizing it.

Zeb Swindell, a tenant of C. H. Polk, has a fine cotton field that could not be plowed. He had a bad frost the 21st of June, the earliest that has been known with us.

The steamer Taloma left us yesterday to return no more, and not a single tea cup or saucer was to be seen of English origin.

THE ALLIANCE IN POLITICS. From the moment Alliances were formed the JOURNAL has been their steadfast friend. Agriculture is at the foundation of the success, and whatever advances agricultural interests is a blessing to the country.

The idea that has been advanced if indeed it has been, that farmers should take no part in politics is absurd. This being a Government of the people, by and for the people, it cannot meet the purpose of the principles it represents.

Now that the Senate has voted \$8,000 a year, "it is his business to work for the church, then the school should not neglect him and not turn him out to grass, especially when the field is barren, and therefore affords no grazing."

"Now, as in the church, so in the State. Let me see. Germany has taken the initiative: the shelving of Prince Bismarck, who, now in his retired state, can meditate upon the world and make his mark.

The idea that has been advanced if indeed it has been, that farmers should take no part in politics is absurd. This being a Government of the people, by and for the people, it cannot meet the purpose of the principles it represents.

WHATEVER influence Southern citizens can exercise to prevent the passage of the election bill, ought to be brought into play at once. After twenty five years of hard struggles, the South is now peaceable, progressive, and prosperous.

She has taken on new life and energy, and is daily becoming a more desirable country for the investment of capital and the establishment of homes. For this current to be interrupted through the selfishness and ignorance of Northern politicians, would be an outrage to the people of this country.

Like the judges who appoint them, too, are given life offices to perpetuate their power and shackles the people.

SENATOR VANCE AT RALEIGH. When Zeb Vance speaks the people listen. No man has the ears and the hearts of North Carolinians as Vance has them.

In the Senate he is recognized as the representative of his State and the oracle of his people.

We repeat, we do not believe

that the Alliance has become so arbitrary and despotic. It smacks

too much of the old time when one man could say to another, "take off your coat, sir." No white man in this country ever submitted to such treatment.

That some Alliance men have gone to extremes is acknowledged.

The denunciation of Wade Hampton and Zeb Vance for not supporting a measure which they believed to be unconstitutional, is regarded by conservatives as a dangerous signal, but the great mass of farmers and Alliance men must not be judged by the action of leaders who are under the influence of an ambition as vaunting as that which first raised war in heaven.

The new President is not in favor of the sub-treasury bill.

THE ATTORNEY GENERAL having decided that the Governor had the right to appoint any judge now on the bench to hold court in place of Judge Shipp, recently deceased, Gov. Bowles appointed Judge White to hold all trials which Judge Shipp would have held.

THE WILMINGTON Messenger says: The Democrats of New Hanover have had bad news served upon them that the Farmer's Alliance will unite with the Republicans if they will adopt the measures of the Alliance and the Democrats fail to do it.

It is the purpose of this Fair to exhibit the spirit of development of the eastern Negro, to advertise his agricultural and mechanical skill. Fancy needlework and art decorations will be valuable exhibits.

We must work together with one common aim—the success of the Fair.
