

W. H. WARREN, Proprietor. J. H. HARRIS, Local Reporter. W. H. WARREN, N. C., AUGUST 7, 1900.

CHOLERA is causing about eighty deaths a day in Mecca.

JUDGE ARMFIELD has been re-nominated in the Eighth District.

SPAIN has decided to build a whole flotilla of submarine war vessels.

The Farmers' Alliance of Minnesota has nominated S. M. Owens for Governor.

CONGRESSMAN JOHN HENDERSON has been re-nominated in the Seventh District.

GUATEMALA has withdrawn her forces from San Salvador, and all is quiet at present.

GEN. RIVAS, in command of the army of San Salvador has turned out attacked the capital.

ASSISTANT POSTMASTER General Clark has tendered his resignation to the President.

In the celebrated McKinley bill where do the farmers come in? Mr. Blaine says they are frozen out.

"SPEAK reverently of the dead." The Force bill is dead. If we cannot not revert we will not be profane.

The latest returns show that 90,000 out of the 97,000 men in the English home army are under twenty-one years.

A FAMINE prevails in the Soudan. In some parts of the country the deaths from starvation average one hundred daily.

In Michigan a state ticket has been nominated by the Union Labor Farmers' Alliance. A rattling campaign is expected.

HON. D. L. RUSSELL, leading Republican of Wilmington, has written a letter to Senator Hoar in opposition to the Force bill.

The Republican majority in Congress is undertaking to catch and hold the defenseless people with the monopolists rot them.

There has been incorporated in Chicago The American Woman's Canning Company. The incorporators are women. Women of North Carolina let us hear from you.

We think that the Force bill has been permanently retired. The postponement gives the Zealots time to cool off before the announcement of the death of their darling.

A NICE kettle of fish to be sure! But what else could have been expected of the Englishman whom Harris selected to cook a Protection census for the American people?

THERE is a little speck of war in our skies. The Pacific mail steamship company claims \$600,000 of Germana, and the claim has been referred to Mr. Blaine for settlement.

As a result of the expenses of the Pension office \$931,000 will have to be appropriated. That is, this much money will be paid by the Government as salary to men for paying out the millions in shape of pensions.

REPUBLICAN extravagance in Congress has brought us face to face with a deficit. Democratic economy, during the Cleveland Administration, left an immense surplus in the Treasury. Which is preferable to the American people?

SOME months ago it was said "Germany has acquired a strip of land in Africa." Whereas the new German territory in East Africa is about twice the size of Germany, not including any part of the great African lakes in the measurement.

SENATOR HISCOCK having waked up the wrong passenger, the Wilmington Star observes that "when Senator Hiscock undertakes or ventures to play mentor to Senator Vance again, perhaps he will go over and ask that gentleman about it before he undertakes it."

On last Friday Congressman Wheeler, of Alabama, introduced a resolution in the House to set aside Monday next (yesterday) for the consideration of the Farmers' Alliance Grain Sub-Treasury bill, the bill to be considered from day to day until disposed of.

THE Minneapolis Journal says: "The negro question is not insoluble. Congress has only to let it alone and it will solve itself. But the notion by a Force bill is about like trying to develop a sapling into a tree by putting a crowbar under its roots in order to pry it into bigness. It won't work."

THE Utica Observer says: "Has the Republican party ever protested against any law to secure a fair vote and an honest count?" asks the Buffalo Commercial. No. The Queens and Dudley of the Republic party waste no time in protests. They believe in action. They buy and steal votes.

THE Judicial Convention of the tenth District met at Morganton on the 31st, and nominated Byrum for Judge and Newland for Solicitor unanimously, and enthusiastically endorsed Judges Merrimon and Clark and Senator Vance; and denounced the author of a recent circular assailing Judge Clark.

THE Wilmington Messenger says: "What is that? Who drew the color line? It has been done by a seaside New Jersey resort. Republican negroes are not allowed to bathe the persons in the same ocean where the white Republicans plunge into the waves and desert themselves."

THE House Committee on Elections has decided that Mr. Breckinridge, of Arkansas is not entitled to his seat. That the present House of Representatives should pronounce against the son of John C. Breckinridge is not strange, but it will be wonderful if the people of his district do not return him to the place in which he has honored Arkansas scarcely less than his father honored Kentucky.

THE New York Star says: An international beauty show at Vienna offers as its first prize the sum of \$1,200. That award will scarcely be sufficient to attract many of America's lovely daughters to the competition, and the show must, in consequence, be a very second-rate affair. Europe must bid higher if it wants to see the handsomest women of the world.

POINTS IN CORN CULTURE. One farmer should endeavor to profit from the experience of another so that each one will not have to undergo all the various experiments without having had some previous knowledge of what the result is going to be. We copy a few points on the cultivation of corn made at the Ohio Agricultural Station though the difference in locality may not exactly coincide with the climate and soil of North Carolina.

"Experiments made at the Ohio Agricultural Station during past seasons throw considerable light upon, if they do not entirely settle, some points in the cultivation of corn about which farmers are not entirely agreed either in theory or practice. As cultivated at the station, the following appears to have been the best established variety in the large yellow dent varieties were the most productive. Large white dents take second place. In the dent varieties the largest white dent takes the lead, followed by mixed flints and these by yellow flints. Taken as a whole or as individual varieties, the flint corns are not a profitable class for Ohio lands unless it should be in some of the northern sections in the seven years' experiments in deep and shallow planting, the average results show an advantage in favor of planting one inch rather than two inches deep. The greatest amount of marketable corn was produced where the stalks averaged twelve inches apart; the variations yield were slight, whether planted one inch or two inches deep, two every twenty-four, three every thirty-six, or four every forty-eight inches.

Three years' trial has not indicated any marked differences in the reproductive qualities of corn from the butts, middles or tips of the ears. Whenever any variation existed it was in favor of middles and tips and against the butts.

The average results of two years' experiments favored deep cultivation rather than shallow, and indicated that corn should be cultivated more frequently in dry seasons than in a wet or ordinary one."

UNREST. The London Times says, "There is much unrest in all ages, classes and occupations." A wave of unrest is agitating the masses of Great Britain. For a time only civic energies were agitated. Tenants were restless under the exactions of landlords; labor was resentful of the tyranny of capital throughout the Empire, while in Ireland the people were ready for revolution and only awaited an opportune hour to strike for independence.

Hitherto, in England as elsewhere, the military has been the strong arm of despotic power, but now the wave of unrest has reached even the military, as illustrated in the refusal of the Grenadier Guards to go out on parade, at the direction of a Martinet Colonel, who had wearied them with his inspections and drills. It has been many years since England has witnessed anything like a mutiny among English soldiers; but this movement, or refusal to move, came so near being a mutiny as to become the subject of official investigation. The day has gone by when sailors could be strung up at the yard-arm and soldiers have for the last time been ordered to fire on their own people.

Why all this? Why does tenant rebel against landlord, labor resist the demands of capital, Ireland quiver on the verge of revolution and the soldiery of England refuse to obey her command? It is human right asserting itself. It is manhood vindicating its high prerogative.

But why these illustrations? Why go abroad for examples of asserted manhood? The world does not afford more striking illustrations or higher examples of progressive manhood than are to be found in our own beloved America. Here the rebellion of labor against the tyranny of capital is openly proclaimed. Agriculturalists, always the most patient and forbearing element of society, have risen like giants from their sleep to assert their manhood and vindicate their God-vouchered prerogatives.

Where will it end? Temporary confusion will result, but in the end will come the vindication of the right. The great fundamental principle that Government was made for man, and not man made for Government, will be acknowledged, and from the bosom of the Republic will come a peace in which Government will be restored to its legitimate object the happiness of the people.

EX-MAYOR HODGES, OF BALTIMORE, ON THE FORCE BILL. We copy from the Globe the following able discussion of the Force Bill by Hon. James Hodges, Baltimore. This distinguished gentleman is a distinguished member of the Maryland State Bar and a member of the Maryland State Bar Association. He is a member of the Maryland State Bar Association. He is a member of the Maryland State Bar Association.

THE opinion in detail follows: I have read the interviews published in the Evening Globe, respecting the election bill, and in full sympathy with the letter and spirit of what was said in its denunciation. In my judgment a more discreditable effort has not been made in modern times by any political party to procure the passage of a law, to emasculate the power of another. It is a device for grasping control of democratic States, which is absolutely disgraceful, and which is a disgrace to the Congress which originated it. It ought to be driven from public life. As a pretext for the passage of the Lodge bill, the republicans claim that the democrats are practicing election frauds in the Southern States. The acts of unfair elections in the South, as an excuse for the passage and application of the so-called force bill, is a device for grasping control of democratic States, which is absolutely disgraceful, and which is a disgrace to the Congress which originated it.

THE boys are beginning to talk baseball already. Barnwell will have the privilege of talking to a village in North Carolina. She has come off victorious in every game for the past two seasons.

SHALL Barnwell be without a school the balance of the year? The county banner county of the State in educational progress? Why not Barnwell keep pace with her sister villages in schools? Our citizens are able and willing to maintain a good school. There is certainly no place as large as Barnwell more in need of a school, and yet we have none.
