

KYLE succeeds Moody as U. S. Senator from South Dakota.

No election yet of U. S. Senator from Illinois. Situation unchanged.

Tax bill to give solicitors a stipulated salary failed to pass the Legislature.

The Evangelical Alliance petition the Legislature for a high license law.

In a little while the cigarette will be a thing of the past. It will end in smoke.

CLEVELAND, Hill, Campbell and Palmer's Men who die, Democracy's Principles that can never die.

The Government troops in Chili have been defeated and the insurgents are advancing upon the capital.

PROTECTION Democrats have become so scarce that they now come under the head of political relics.

It is believed in London that "Jack the Ripper" has been arrested. The person supposed to be the Ripper is in jail.

AGAIN we insist that it would be highly improper for the Democrats of the House to compliment Reed. Rather let them utter an emphatic protest against his methods.

It is a self evident truth that one of the greatest needs of North Carolina rural districts is good roads; the great want of our towns and cities is macadamized streets and paved sidewalks.

MANY men have been suggested for Railroad Commissioners. If we are not much mistaken, a majority of our people would be glad for Ex-Governor Jarvis to be placed at the head of the commission.

It is reported that Mr. Cleveland does not desire a re-nomination, and that in this his wife agrees with him. They are now amply provided for with this world's goods, and neither of them wish to return to the duties that devolve upon a President and his wife.

A PETITION was presented in the U. S. Senate on Monday favoring the purchase or establishment by the government of six transcontinental railroads, to be paid for and operated by the government; also for loans of money by the government on real estate at 2 per cent. per annum.

The New York Tribune informs us that President Harrison is anxious to "preserve the record of his administration free from stain and cloud to the end." Now is the time for some inventive genius to gain fortune and fame by producing a whitewash that will stick and won't rub off.

The problem that is now troubling Eastern Democratic politicians is how to eliminate silver from the campaign of 1892. Even if the Alliance shall have run its course, as some vainly suppose, silver will assert itself and find in Western and Southern Democrats its nearest friends and ablest champions.

It will be an excellent thing for Congress can tackle the silver problem, and a year and a half before the next nominating convention will meet. In this period of discussion and reflection hastily formed views will be reconsidered, and by 1892 Mr. Cleveland's declaration will doubtless be endorsed by his party with substantial unanimity. — Baltimore Sun.

The Charlotte Chronicle says: G. F. Killing, a citizen of Norwich, Vermont, was sentenced to 63 days imprisonment for selling liquor to the Dartmouth students. He was convicted on 723 out of 1,000 incriminations and has entered upon his fearful sentence. He is 50 years of age. Such laws may with propriety be called blue laws. Life is his doubtless now has the hue of the deepest lodg.

The North Carolina Experiment Station has now ready for distribution a hand book of grass culture containing 100 pages, illustrated by 74 figures, 26 of which are full page engravings of grasses and clovers. This work gives a full account of all the best agricultural crops in this State. Tables are given showing the average yield of different species of grasses and the relative feeding and manuring value of the hay. Chapters are devoted to discussion of impurities and adulterations of grass seeds, rational seed sowing, manures for grass lands, irrigation, insect enemies and fungus diseases of grasses. The last chapter gives 24 different formulas for grass mixtures suitable for different purposes and for a variety of soil in the State. This book will be sent free to every farmer in the State who applies for it. A limited number of copies will be available for distribution outside of the State, but for those the Station will make a charge of 10 cents per copy to cover cost of paper used.

EDITORIAL NOTES

THE New Berne Fair is an unprecedented success.

THE Baltimore sugar refinery turned out its first sugar last Wednesday.

ON Wednesday the Senate passed the Copyright bill, and in the House there was a long debate on the Shipping bill, Silver Coinage, Cleveland &c.

GOVERNOR HILL proposed to the free coinage of silver. The difference between Hill and Cleveland is about the same as that between treeddom and twilled.

THE Irish campaign is about to be renewed. The Dublin Express says the coming strife in Ireland will be of a nature never seen there save in time of civil war.

THE smallest city in the world is Seward City, Alaska; its three inhabitants being respectively Mayor, chairman of the board of aldermen and president of the common council.

BISMARCK is evidently not wanted in Germany. Let him come to America. But he will not come. He made the German Empire, and his devotion to the fatherland knows no abatement.

THE Democratic members of the North Carolina delegation in Congress met last Thursday and resolved to urge the election of Representative McLanahan of N. C. to the clerkship of the next House.

GEN. HUTNER announces himself in favor of the free coinage of silver. It is reported that he fairly condescended in New Orleans, and in some instances neglected to remove the stamp of former owners.

THE census returns thus far show that the negro population of America instead of increasing, with such rapidity as to make negro rule the inevitable consequence of universal suffrage in the gulf states, has in fact been relatively falling off.

THE center of population has moved West forty eight miles since the census of 1880. It is now located near Greensburg, Ind., and is moving slowly towards the Northwest. There seems to be something of a political storm center moving in the same direction.

BARON DE HIRSCH is not only a great philanthropist but a liberal minded man in the strictest sense. Notwithstanding his Jewish descent he has adopted two English children whom he allows to be brought up in the Christian faith. His only child, a son, died a few years ago. His recent gifts amount to 24,000,000 francs.

THE Sioux Indians who have been in Washington, on a visit to the great father, returned home disappointed. Young Man Afraid of His Horse said to a reporter: "We had some promises, but they are like all other promises of the great father. We are not fooled and we go home with heavy hearts."

THE German army cost \$91,746,293 for 1891. The United States Pension army cost \$109,357,574. This year it will cost nearly \$149,000,000. Add the regular army's expense, \$30,000,000, and for 1891, the people will be taxed nearly \$179,000,000 for the army — or nearly what the great armies of both Germany and France cost. Such is Radicalism.

SENATOR BLAIR'S friends are mad at President Harrison because he did not appoint the great bore to the vacant United States Judgeship in New Hampshire. They say Blair is poor and needs a comfortable office. They perhaps think that this country should be turned into an almshouse to take care of all the worn out and played out Republican politicians.

ANOTHER North Carolina railroad is the talk. It is proposed to run it from New Berne to the White Sulphur Springs in Virginia, connecting it with the Chesapeake and Ohio railroad at that famous watering place. If built it will be 160 miles long and will pass by the Panacea Springs in the edge of Warren, four miles from the village of Littleton on the Raleigh and Gaston railroad — Wilmington Messenger.

WE fear that the Legislature is getting tender footed. Cleveland having slipped up on silver they are afraid to try to stand firm on anything requiring an expenditure of money. On Wednesday the House voted a tax of 10 cents on property and 10 cents on polls for public schools, in place of 16 and 50 cents. This reduction will cripple the public schools. It would be wisdom to increase their efficiency.

CONGRESSMAN KELLUM, Jerry Simpson of Kinston, representing the Farmers' Alliance, was one of the speakers before the House Cottage committee Friday. He said the farmers of the country demanded and will insist on more money. He had floated free coinage as one of the measures to this end, and also the sub-treasury scheme and the issuance of paper money as other methods whereby more money could be put into circulation.

THE Philadelphia Times commenting upon the defeat of the Force bill, speaks of Senator Gorman as a "leader of leaders." Mr. Gorman is not only eminently headed but cool headed in proportion. It is said that when he sees a point and starts for it at a critical time, if he discovered that a colony of yellow jackets had located in the rear of his trousers he wouldn't pay the slightest attention to them. It had gone for that point and disposed of it. — Wilmington Star.

EDITORIAL NOTES

EX-GOVERNOR FOSTER, of Ohio, has been selected as the new Secretary of the Treasury.

THE Bishop of Drunmore has written a letter to the effect of his doubts as to whether it is worth the trouble to attempt to restrict Porcupine's meetings.

IT is believed in Washington that the much talked of deficit in the U. S. Treasury will be reduced to the point of no return by the close of the year.

THE Wilmington Star says it is said that Ingalls will leave the Senate prior than when he expected. We don't believe it, but if true it is the only instance in which he has failed to come up to the standard of Republicanism.

A BISHOPRIC to be in New York World from his correspondent at Bahia, Brazil, says that the reciprocity treaty with that country is not an assured thing as it is supposed to be, but that the treaty is safe to predict that it will be rejected.

THE present condition of affairs in country and city presents a striking illustration of the fact that the merchant and the farmer are mutually interested in having good roads, and that both may be seriously embarrassed for want of them.

IT is asserted that the appointment of Ex-Governor Jarvis, of Pitt, E. C. Heddingfield, of Wake, and Gen. R. B. Vance, of Blomington, on the Railroad Commission, is a foregone conclusion.

GIVE us more money. France has more money in circulation per capita than any other country in the world, and her people as a whole are better situated financially than any other people in the world.

AS we glean from the northern papers, General Sherman died possessed of a fortune estimated at between \$150,000 and \$200,000. He bought real estate in growing cities in the West and cleared a good deal of money. Although a thoroughly good liver, Gen. Sherman did not spend all of the \$133,000 salary received by him from the Government for many years, and his savings he invested.

THE veterinary department of the University of Pennsylvania has undertaken to test the value of Koch's tuberculin by experiments upon mink cows. A commission has been appointed and will seek to discover the value of the so-called lymph as an agent for diagnosing tuberculosis in dairy herds and as a remedy in cases where the disease is clearly exhibited.

WASHINGTON ITEMS.

AN attempt is to be held on the 16th of March, to decide if the town will issue bonds to an amount not to exceed ten thousand dollars, to be donated, or used to purchase terminals and right of way for a railroad from the "junction" to this town. There is a probability that the majority will be in opposition.

SOME weeks ago a colored man was missing from Bennett's Creek in this town. He was supposed to have been murdered, but a search failed to find the body. The two colored men who were under arrest were discharged for lack of evidence — one day last week the body was found in the ravine near the mill, and the same men were re-arrested, and now are awaiting an investigation.

ON the night of the 14th inst., while the children were making their usual evening rounds, some boys more than discrete, were throwing stones at a house occupied by a colored man, who became irritated, and struck a little son of Mr. J. S. Rogers, and he is said to be severely, and the boy is now so bad off that the supposed guilty one has been arrested.

SUPERIOR COURT convened on the 16th, his Hon. H. R. Bryan presiding. There are about sixteen jail cases demanding the attention of the Court.

Hilda County Items.

The farmers came to a pig in the contents of farming owing to the continuous rains — the land is thoroughly sogged and soiled, and they have nothing to do but play with their fingers and look on.

Owing to the stormy and unfavorable weather the shed fishermen have not been able to get all their nets down yet — those they have set, have done but poorly so far. The market for fishery is 40 cents for rock and 30 for black. There are about 15 boats from this township engaged in shed fishing. They were all in the oyster business up to the shed fishing season. This is a reflection on the State, and as a rule they sink what money they make at catching oysters in shed fishing.

There is an insane man in the name of Dabbar, from New Lake, who was put in the same house by order of the County Commissioners, the keeper of that institution suffers him to stroll through the country, to the great terror of the women and children. He is said to be harmless — but women cannot be satisfied as to the harmlessness of an insane man. It is the duty of the county authorities to look after the matter.

The farmers are anxious for corn to slip up to a notch that will justify its shipment.

Many of our people would attend the New Berne Fair if we had a passenger steamboat, who other ways will not.

Mr. T. R. Cox's little child was badly burned by falling on a hot stove. When last heard from it was having convulsions.

THE FINE MESS.

Perhaps you think you are an anti-slavery man and you are a member of the army. You should heed the warning. You are taking the first step into New Jersey's hell. You are going to be in Electric City where you will find the electric for restoring your nervous system to its normal, healthy condition. Suffering results follow the use of this great Nerve Tonic and Alternative. Your appetite returns, your digestion is restored, and the liver and kidneys resume healthy action. Buy a bottle. Price 25c. at all Druggists.

THE GENERAL ASSUMBLA

SENATE.

REPORTED BY THE SENATE.

On motion the bill to amend the laws of the State in relation to the Oyster Fishery, 1889, was passed.
