The Pittsburgh Lamp is one of those inventions that seems to be finished. It seems to reach the end as to goodness of light in every way, and ease of management.

The only rare it requires is filling and wiping. Dirt falls out when the chimney is taken off, not into a pocket as in other central-draft lamps.

Putting in a new wick is a very easy matter indeed. All this seems strange to you who knows how troublesome other good lamps are. It is in all the good lamp stores. Send for a primer.

**THE COLORED PEOPLE.**

Mass Meeting in South Carolina— Lynchings and Crimes that Provoked Them.

COLUMBIA, May 31.—A mass meeting of colored people was held this afternoon at Calvary Baptist Church and many speeches were made by prominent colored men. Resolutions were adopted setting forth the evil of lynchings and calling on colored men to desist from crimes that provoke them, and the whites to frown upon such and let the law take its course.

**INDIANAPOLIS FLOODED.**

Five Hundred People Driven From Their Homes.

INDIANAPOLIS, May 31.—This city is flooded as the result of the overflow of the river, which is high now than it has been in years.

**THE Venezuelan Revolution.**

VALENCIA, Venezuela, May 31.—Palacio's men are deserting, hundreds at a time and joining the rebels, and this causes the President much worry. The rebels are now threatening both Puerto Babello and La Guayra. To prevent the capture of these two important seaports Palacio has ordered all the available fleet to proceed to their defence.

**NEW YORK.**

NEW YORK, May 31.—The new steamer Columbia, of the Pacific Mail Steamship Line, arrived last night from Colon, on her maiden voyage, after a passage of five days and twenty-three hours, running at the above-mentioned speed, making the fastest passage on record from Colon to New York.

**Calcutta, May 31.**

CALCUTTA, May 31.—Since May 7th there have been 2,460 deaths from cholera at Serinagar, in the vale of Cashmere. All Europeans at the place became alarmed some time ago at the fearful ravages of the disease and left the city.

**St. Petersburg, May 31.**

St. Petersburg, May 31.—Count Tolstoy, the noted Russian novelist, is dying. He has been "dropping himself" to persistent pneumonia, the cause of which, and his weak physical condition is the result of the great exertion. It is thought now that recovery is impossible.

**A Church Ceiling Falls in Burlington, N. J.**

BURLINGTON, N. J., May 30.—A large section of the ceiling of the First Baptist Church fell last night completely wrecking two unoccupied pews. No one was injured, but there was great excitement.

**The Cotton vs. the Rice Crop.**

Owing to the over-production of cotton this year the question of cotton or other crops has become one of much interest to the South. There has been proposed to growers in that section that they devote more land to rice, which is a staple crop. It is claimed that as an all-around crop, rice is safer than any other. It brings as gross results from \$40 to \$75 per acre. The cost of cultivation is from \$20 to \$35 per acre. The grain will depend upon the character of cultivation.

**An Incurable Parrot.**

An old maiden lady, who strongly objected to "followers," had as a companion a great white parrot, who was very intelligent and would frequently pick up sentences. One day the old lady had cause to severely reprimand one of her maids for a breach of the confidence. She also irritated the girl that as a window to the parrot of her wrongs, in the hearing of her fellow servants and Polly, who happened to be with them, she exclaimed passionately, "I wish the old lady was dead!" The parrot lost no time in showing off its newly acquired knowledge when next taken into the drawing room, to the alarm of its elderly mistress, who, in superstitious thought it was a warning from another world.

**She at once consulted the vicar, who kindly volunteered to allow his own parrot, which could almost preach a short sermon, and, as a result, to be kept a short time with the impious one in order to correct its language. To this end they were kept together in a small room for a few days when the vicar paid a visit in company with her spiritual adviser. To their intense horror, immediately the door was opened, the lady's parrot saluted them with the ominous phrase, "I wish the old lady was dead!" The vicar's bird responding, with all the solemnity of an old parish clerk, "The Lord hear our prayer!"—E.K.**

**Nail for the Throat.**

In these days when diseases of the throat are so universally prevalent, and in so many cases fatal, we feel it our duty to say in behalf of a more effective, if not positive, cure for sore throat. For many years past indeed we may say for the whole of a life of more than forty years we have been subject to a dry hacking cough, which is not only distressing to ourselves but to our friends and those with whom we are brought into business contact.

**Last fall we were induced to try that virtue there was in common salt. We commenced using it three times a day, morning, noon and night. We dissolved a large tablespoonful of pure table salt in half a small tumbler of water. With this we gargled the throat most thoroughly just before meal time. The result has been that during the entire winter we were not only free from coughs and colds but the dry, hacking cough had entirely disappeared.**

**We attribute these satisfactory results solely to the use of salt gargle and most cordially recommend a trial of it to those who are subject to diseases of the throat. Many persons who have never tried the salt gargle have written to us that it is unpleasant but after a few days' use no one who loves a new method and first rate sharpener of the appetite will abandon it.**—The Householder.

**Oh, What a Cough.**

Will you heed the warning. The slightest cough of purplish color, that may be a forerunner of consumption. Ask yourself if you can afford for the sake of saving 50c to neglect it and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It is a safe and reliable remedy. It is a safe and reliable remedy. It is a safe and reliable remedy.

**The girls who will be won.**

**THE HORRORS OF NEW MEXICO.**

A Traveler Beschyl Lions, Gila Monsters and Scorpions.

"I had an experience in New Mexico last summer, the frightful impress of which hasn't yet been entirely effaced from my mind," said Col. Andrew Campbell, of Montgomery, Ala., a reporter. "I have a large area of wild land in the extreme southern part of that territory, and went out there to look at it. Mounted upon a bronco, and with a faithful mesa (Mexican servant as my companion, I left the Southern Pacific for a long haul across the burning sands to my property. After we had emerged from the vast barren stretch into the dense foliage of the Madalima bluffs had penetrated very warmly, and there, only five or six feet in front of us, I saw a huge Mexican lion crouched in the tall grasses, his dark sides thrumming with tiny, venomous, round, making a fine meal of me."

"Quick as a flash I rested the muzzle of my Winchester between the bars of my bronco, and sprang from it at the hungry beast, and fired. Through the puff of smoke I saw the lion leap backward like a cat and fall to the earth. My ally, green, jumped on the ground and he was dead in my hands. My only thought was then to get his pelt to carry back to civilization as a precious trophy. Dismounted and was proceeding to skin the animal, when the mesa again uttered one of his awful cries and dashed down the canyon. Within two feet of where I was standing I saw a reptile blinking his red eyes at me as he lazily crawled toward me. It was a Gila monster, the most terribly poisonous reptile on the earth, and from whose bite a man would die in a few days, and his flesh to rot in an hour. It is needless to say that I sprang upon my mule with the utmost alacrity, and sped away from that spot, leaving the lion's hide on him."

"But my troubles were not yet at an end. We had not proceeded two miles further up the canyon when we were overtaken by a colony of scorpions. There were literally millions of them. They scurried upon the legs of our bronco, creeping up the tails and driving their stings through the tough hide of the bronco's legs until the little beast fairly groaned with pain. It was impossible to fight them off the mule for fear of his welfare to look after, and was stung I thought a thousand times before I got through the colony. When we finally reached the safe haven of the poor Mexican was almost a maniac, and I wasn't much better. Good God, how I shudder now when I think of the indescribable horrors of a century ago that were crowded into those three hours' experience. I wouldn't go through it again for all the land on the earth."

**STATUE OF CHARLES THE FIRST.**

LIONEL JOHNSON.

Comely and calm he rides  
 Hard by his own Whitehall;  
 Only the night wind glides  
 No crowds, no rebels, brawl.  
 Gone, too, his court, and yet  
 Stars in their majesty  
 And every wandering star  
 Alone he rides, alone.  
 The fair and fatal king:  
 Dark night and storm and snow  
 That strange and solemn thing  
 Which are more full of fate,  
 The stars, or those sad eyes  
 Which are more still and great,  
 These brows, or those dark skies?

**AMONUMENT.**

BY GEORGE RIVERSIDE.

I ask not, when on earth I'm seen  
 The cold grave hitting from all men  
 A cold grave for the living dead,  
 To mark my resting place.  
 I do not ask that great men in yew  
 As passing burial there they may  
 Find the same  
 Above this form fast mouldering away  
 "He was a great worldly fame."
