EDITORIAL NOTES.

The cabinet makers have not supplied a single bureau.

AGRICULTURE. The prophet predicted good crops for the year. We like agricultural profits.

SOON grapes do not always hang high. Beware of the tempting clusters in any reach of you.

THE Rivers may be frozen over, but if your heart is warm, many will rise up and sail you blessed.

EMPHOR WILLIAM honors himself in refusing to discredit France because of her Panama troubles.

EDUCATE your boys in the right or the devil will take them in hand and teach them tricks you won't like.

STRIKE while the iron is hot," but, if, for any reason, you are unable to do it, make it hot by striking.

JOHN B. B. is not the only man that a girl has caused to be beheld. Many a man has lost his head about his girl.

MR. MURPHY, who is a candidate for U. S. Senator from New York, says, if elected he will support the incoming Administration.

Sensible Mr. Murphy.

Is crime increasing in North Carolina? We do not think so.

There is an appearance of increase which may result from the activity of officials in ferreting it out.

A YOUNG gentleman 23 years old, living near Brown's Summit, had to run away from his parents the other day to get married. He will probably have to run back to get supported.

FRANCE is at once unfortunate and fortunate. Unfortunately in having the Panama scandal to deal with, fortunate in having so coal and able a man as Carnot at the head of the Government.

SOME papers are taking outrageous liberties with Mr. Cleveland's domestic affairs. Mrs. Cleveland is the first lady of the land and indecent remarks in relation to her are entirely out of place.

CONSIDERING the whole country, the present spell of cold weather is the severest in many years. It brings hardships, but it presents many opportunities for the cultivation of the most excellent of virtues, Charity.

NEVADA gave her little more than half her vote in 1891 that it gave in 1876. It will soon be less in population than an ordinary county. It ought to lose it. Statehood then and be annexed to some State with the necessary population.

BOTH Republican and Populist are going to Kansas House of Representatives to-day, both identifying themselves with the Speaker's desk, and the members of the two parties were confronting each other, ready each to turn the other out.

AFTER years of giving effort we succeeded in getting American Indian Crops into Germany, and now King William and all his boots are delighted with our bread. Another mill has been started in Hamburg for grinding Indian corn exclusively.

THE Treasury committee appointed to count the internal revenue stamps on hand in the Internal Revenue Bureau have submitted their report. It shows that there were handled during the year more than one billion stamps; and not one stamp was mislaid or lost.

MAJOR WILLIAM M. ROBBINS, of Statesville, will be presented to President Cleveland for appointment to the Mexican mission.

Major Robbins is well qualified for the position, and his public services entitle him to honorable recognition by the incoming Administration.

YESTERDAY a little fellow said, "They ought to hang Doctor Hicks for having such weather." Dr. Hicks has nothing to do with making the weather as it is. He only foretells what it will be, and it is a good thing he does, for it enables us to prepare for what is coming. Nevertheless, people will say, "Hang Doctor Hicks."

ALTHOUGH there are moored at the "Pumpkin Patch," at the very door of Louisville barges containing 1,000,000 bushels of yesterday advanced the price one cent a bushel, and promised another advance in the near future. These philanthropic gentlemen are "bulls" ever. Ah! But in the next world? Will they control the market there?

It is useless to ask if the Legislature will do something much needed in behalf of sheep-raising and wool production. A Legislature as now constituted is not equal to such a demand. It lacks "sand in its craw." It has not grit enough to withstand the howlings, not the dogs that kill, but of the foolish owners who keep them. In Tennessee, in spite of excellent pasturing, climate, etc., the sheep business fails, and all because of the destroying dogs. It is a disgrace to any civilization and is on a par with bad roads and poor schools.

STONEWALL CORRESPONDENCE.

Mr. J. A. Lupton died at his home in Bayboro on the 24th inst. The water good and true in the grate soldier as ever lived. He was an honest and one of the noblest of men. He was about 70 years of age.

We are having a winter like it used to be—cold enough for oyster-feeding.

Capt. Simmons, of Brant Island Light House is here weather-bound and is likely to be. He started yesterday and the ice was so plowing another blizzard is raging and there is no telling when he can get back.

Mrs. Kit Lupton who was so severely burned some time since is gradually improving, so I learned yesterday.

The fishermen are beginning to catch trout tolerably plentifully and if the cold weather continues much longer they will be quite abundant.

There has not been much farm work done as yet.

WASHINGTON TOPICS.

(Special Correspondence.)

A great deal of nonsense is getting into the newspapers just at this time about Mr. Cleveland's relation to the Democratic party, and especially in regard to his supposed prospective position toward the party after his inauguration.

Some wiseacres are prophesying that Mr. Cleveland will attempt to appoint himself dictator.

The only reason which can be given for such statements is the fact that Mr. Cleveland expressed a preference as to the man to be appointed for the important position of United States Senator from the State of New York. This he had an undoubted right to do. Aside from the fact that New York is Mr. Cleveland's home State, it is perfectly natural and proper that he should desire a man in the Senate from the State who will be recognized as his loyal friend personally as well as politically.

Senator Hill cannot be said to occupy that position, as it is secret that he and Mr. Cleveland are not on cordial terms and it has been pointed out by the press that he is not a man upon whom he could depend.

Under these circumstances it does not appear improper that Mr. Cleveland should have expressed a preference that the Senator elected by the New York legislature should be a man upon whom he could depend.

The President-elect is pledged and he has promised the people as a relief from the burdens of taxation to reduce the tax on the receipt of the blank by the Chairman, he will immediately notify applicants what disposition will be made of their application. Additional blanks will be furnished upon applying to the Chairman.

Owners of all accepted pictures to the Retrospective Exhibition will receive by mail, enclosing the holder to the privilege of the Exposition grounds when open to the public.

Pictures for this exhibit must be forwarded by express to Chicago not later than April 1, 1893. There are but four months within which to do all the work incident to forming the collection, immediate response is requested to this application.

Charles Henry Hart, Chairman, 336 Drexel Building, Philadelphia.

Pruning the Peach.

The peach tree, as a rule, receives less pruning than any other fruit tree, while it needs more. As is well known, it produces its crop on the wood of the previous year's growth; and as the terminal buds are most inclined to push, the height increases year by year, until in time the tree has become so tall that it is necessary to prune it, or to top it.

Instead of this, the tree, by correct pruning, can be kept in a moderate height, and the fruit allowed to remain on the tree.

The pruning, which should be done annually in spring consists in cutting back the previous season's shoots, removing one-third to one-half in length, and in addition to this, after the second or third cutting out about one-ninth of these shoots as they become too numerous.

The tree things are to be gained by this:

1. Keeping the top of the tree in proper shape.

2. Maintaining a regular supply of bearing wood.

3. Reducing the crop of fruit, and thus saving the tree from the bad effects of over-bearing, and adding to the size and quality of the fruit allowed to remain.

The time for the work, as stated above, is in the spring, any time before the trees are in full leaf, but a moderate pruning, even when the leaves are fully developed, is better than not to prune at all.—Southern Cultivator.

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by indigestion, Constipation, Distention, Loss of Appetite, Colic, and other ailments, when for 70¢ we will sell them Shilo's Kidney and Bladder Cure, which cures them. Sold by New Bern Drug Co.

DEBRUIH CORRESPONDENCE.

Farmers are not doing much more than to get the soil in the way of the day.

Miss Agnes M. DeBrah, one of Jones county's best and most exemplary young ladies and former student at Littleton Female College is teaching school at Tuscorora.

We hear she will commence teaching in Jones county in a few weeks. We wish her success.

Miss Julia F. Scott is visiting relatives at New Bern.

World's Columbian Exposition—Department of Fine Arts.

A section of the department of Fine Arts at the World's Columbian Exposition to be held at Chicago from May 1st to October 31st will contain a retrospective exhibit of the paintings of deceased American Artists. This exhibit is designed to show the progress and development of the art of this country from Colonial times down to 1876. While such an exhibit must necessarily have a decided historical bearing, it is intended to make choice of such examples will be made about the artistic development, selections will be made with reference to the artistic merit of the pictures rather than to the subject, historical significance, but works in which both elements combine will receive preference.

The possibility and success of this Retrospective section, must depend wholly upon the patriotism and generosity of the people of the entire country and it is hoped that they will appreciate the importance of such an exhibition and that those citizens who are in possession of paintings by any of the renowned artists of America, will be ready to place them at the disposal of this committee for the purpose named.

As the space allotted in this section is very limited, it may not be possible to exhibit more than a single example of the work of each artist, excepting in a few special instances when the artist has two or more well defined periods; and preference will be given to a canvas of medium size over a very large one.

Miniatures will be exhibited in securely locked cases.

The Art Building in which the exhibit will be held is practically fire-proof. In addition to this, pictures that are accepted will be insured from the time they leave the artist's studio until they are returned. Owners of pictures who will loan them for the Retrospective Exhibition will be at no expense, as all charges for handling, boxing, and insurance will be paid by the Exposition authorities.

Persons having pictures they are willing to loan for the Retrospective Exhibition will receive by mail, enclosing the holder to the privilege of the Exposition grounds when open to the public.

SIXTH ANNUAL EXHIBITION

OF THE EAST CAROLINA FISH, OYSTER, GAME AND INDUSTRIAL ASSOCIATION.

Regular, Special and Race Premium Lists—Officers—Regulations and Rules Governing Judges, Entries, Awards, &c.

A Grand Tournament—Four Days of Racing—The Largest Race Premiums by far Ever Offered in the State.

STATE OF HOLDING. The East Carolina Fish, Oyster, Game and Industrial Association have the honor to announce that they will hold their Sixth Annual Fair at their grounds in New Bern, N. C., on Monday, Tuesday, Wednesday, Thursday and Friday, commencing February 20th, 21st, 22nd, 23rd, 24th and 25th, 1893.

This fair, for progress in all the branches of industry and art, liberal premiums.

FREE TRANSPORTATION FOR EXHIBITS. The following arrangements for the transportation to and from the city of all articles and animals entered for exhibition have been made with the railroad and steamboat companies.

All articles intended for exhibition at the fair will be transported upon payment of freight at regular rates, and receipt bill will be given to shipper by R. R. Agent, specifying article in detail and charges to be made by the shipper. The receipt bill accompanied by certificate from the Secretary of the Fair Association that the articles specified were exhibited at the fair will entitle the original shipper of such articles to free transportation of them back to the original shipping point. On delivery of any such articles after they have been transported to the fair, the shipper will be required to sign a receipt for the articles and to return the receipted bill to the Agent of the R. R. Co., and if accompanied by the certificate of exhibition, the Agent will refund the freight paid on such articles as soon returned.

Special accommodations will be made by the shipper to return the receipted bill to the Agent of the R. R. Co., and if accompanied by the certificate of exhibition, the Agent will refund the freight paid on such articles as soon returned.
