EDITORIAL NOTES.

The dictum of the president was received in various ways and was not looked for in some quarters. It is said, for instance, on the one hand, that this has effectively dispelled the last hope of compromise; and on the other hand, that compromise will go through, regardless of the attitude of the officials.

You may not have political matters just as you want them, but to go aside and vote for the little annex of Republicanism is a poor way to set things right. Stand up and fight inside the Democratic ranks, and if half as much energy and money were spent in doing that as in trying to organize an outside opposition, there would soon be nothing to complain of.

This is a very remarkable and dangerous point now growing in Massachusetts. It is named the "devil plan" and it is evidently no misnomer. It looks innocent enough, but it begins with the blight of death. Death that slips the dew die. It will blister the human tongue, is without odor and the taste is sickeningly sweet. Cattle that eat it die in a few hours in great agony. It grows very rapidly, covering acres in a few days. The people prognosticate something awful—yellow fever or something else. It first appeared before the great war. The next time it preceded yellow fever. Its sting of the hand leaves a dull red mark like the wound of a scorpion it is said.—Will. Messenger.

The American theory is that majorities rule. But a minority of Democrats have prevented a majority of Democrats for more than two and a half months from carrying out the Democratic platform.

The Washington correspondent to the Courier Journal writes his paper that the silver compromise is dead; that it was killed by Mr. Cleveland and Secretary Carlisle saying they would have nothing to do with it.

It has been discovered that a man named Major Brown admits stealing the Confederate flag at Chicago. The major would have displayed more courage if he had succeeded in capturing one during the war.

The Ferris wheel company, at Chicago will pay a profit of about \$200,000 after deducting \$300,000 for cost and 50 per cent of the receipts paid to the Fair, after that amount was taken in.

The president and all the cabinet officers were highly gratified when informed that unconditional repeal had won a clear road and that the bitter fight of the last eight weeks was nearing its close.

A Western burglar, who by accident got into a newspaper man's house, was in such a hurry to get out when he discovered his mistake that he left his hat, coat, shoes and tools behind him. The newspaper man is now equipped for business without costing him a cent.—Will. Star.

It is thought the vote on the final passage of the repeal bill will be taken by the Senate by Saturday. Senators Stewart, Tillam and Jones will conclude their speeches, but no Democratic Senators will probably have anything more to say on the measure.

Referring to the Bankrupt law and its being made a special order in the House, the Richmond Dispatch says: "The Southern people so far as we are able to discover are not clamorous for such a law, but if one is to be passed, they would leave something of a bankrupt's assets to be distributed to their litigants."

THE RULE OF THE MAJORITY.

We are hearing a great deal about "the rule of the majority." The air is full of it to suffocation. Men are heated because the majority rule is not the rule of the majority. They would have the rule of the majority in all cases, and they would have the rule of the majority in all cases, and they would have the rule of the majority in all cases.

Will someone advocate of majority rule please tell us where there is a nation, a state, a county or a town, in the civilized world, that is under the rule of the majority? We know of no such place on this earth, in the heavens above or the regions below.

In absolute monarchies the king, or the emperor compels unconditional obedience. In limited monarchies and Republics the constitution and the laws are supreme.

No English Statesman has been found bold enough to assail the English Constitution. It is the boast of Englishmen that no citizen would wander so far from his island home that he may not make the British flag and English Constitution, at once his refuge and his shield.

Constitutions never yield to the majority. They are the bulwarks of public liberty and private rights. But, how is it especially in the United States—the model Republic of the world. Why, the American Constitution is everywhere recognized as the palladium of liberty. Here, in this "land of the free and home of the brave," it is very often that the majority rules. "The Great Lincoln" was a minority President. The present Governor of North Carolina is a minority Governor, but he was elected in accordance with the laws of a sovereign State, and his rule is as rightful as is that of any other ruler.

In our counties and towns the majority do not rule. We have the higher reign of law and order. Mr. Grady, in his very able speech in the House says: "I find that twelve States, containing a little over 35,000,000 people, can, by a bare majority vote in each State, which would represent, say, 18,000,000 people—about three tenths of the entire population—choose 226 Presidential electors, a majority of all, even against the protests of the other Seventy-five of the people."

Such is the nature of our Government, and it cannot be changed without revolution. The Senate is the body-guard of the constitution: THE SITUATION TO-DAY.

Let Democrats rejoice and be glad! The News from Washington is most cheering. The long debate is over, and the Democratic party stands before the country united—"bright as the sun, fair as the moon and terrible as an army with banners."

The repeal bill will pass—not by the votes of Republicans, but by the solid vote of the united and triumphant Democracy.

THE JOURNAL has not cared so much for the details of any special measure; its great concern has been for the success of that party which stands before the country united—"bright as the sun, fair as the moon and terrible as an army with banners."

Let Democrats rejoice and be glad! The News from Washington is most cheering. The long debate is over, and the Democratic party stands before the country united—"bright as the sun, fair as the moon and terrible as an army with banners."

CONTEST SHOULD DO THE ROAD LADIES, FREE AND UNLIMITED COINAGE.

We want good roads, we must have them, and we want them in all directions. We want them in all directions. We want them in all directions. We want them in all directions. We want them in all directions.

The effect this measure would have on the South and on Western States.

Editorial Note: I am not taking any stock in the proposition to do the two-ounce business, but these are few objections that I wish to ask the consideration of our people.

Democrat Medal Contest.

The following winners of Democrat medals spoke at Pikeville last Friday night.

A M. T. K. A. C. - Six Months Work.

The following is a report of the work done by State Secretary, L. A. Conliffe, during the six months, from April 10th to October 10th, 1893.

The work in this city is being conducted by the following gentlemen.

REVIEW, J. C. Price, Col. Deal.

Rev. H. C. Phillips, President, Eastern A. M. E. Church, received a telegram Wednesday announcing the death of President of Livingston Male and Female College.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

He was in the city on Monday night, and on Tuesday morning he was in the city on Monday night, and on Tuesday morning he was in the city on Monday night.

ELIZABETH CITY FAIR.

New Bernians who attended the Elizabeth City Fair bring back a very gratifying report.

The daily attendance was about 1,200—quite a satisfactory number.

The stock exhibit was grand, and the general display very good.

The balloon ascension is pronounced the best they have ever seen.

The bicycle races—some of a novelty as yet in this State—were perfectly splendid; some of them were the best thing of the kind they had ever seen.

Officers of the Fair found the New Bern people and received them in a very warm-hearted manner, extending every courtesy possible to them throughout the day.

Every one is pleased at having gone and there are others of our citizens who missed the Fair who wish they had been also.

Well, a year will soon roll around and give them another chance. In the meantime we hope to see many of the Elizabeth City people at the East Carolina when it holds in this city next February.

Inspection of East Carolina Waters.

Major W. S. Stanton, of the United States Army, in charge of the river and harbor improvements of North Carolina, in company with Mr. W. H. Chaddock, U. S. Civil Engineer, made an inspection tour of Eastern North Carolina Waters—Demerco, Core Sound, Beaufort harbor and Inlet and Bogue sound.

They came to New Bern and left from here on the 22d inst., on the steamer Thon for the purpose. They came back and left by the W. S. A. N. R. for other points. Mr. Chaddock will go to New River where he is making a survey preparatory to improvement work.
